The revised PPMPs shall be submitted to the BAC, through its Secretariat, for the final recommendation of the methods of procurement. The indicative APP shall then be revised and approved in accordance with Section 7.2 of this IRR. The APP shall be submitted to the GPPB on or before the end of January of the budget year, and shall be posted in accordance with E.O. 662, series of 2007, as amended. ^(a)

7.4. Changes to the individual PPMPs and the consolidated APP may be undertaken every six (6) months or as often as may be required by the HoPE. The respective end-user or implementing units of the Procuring Entity shall be responsible for the changes to the PPMPs, while the BAC Secretariat shall be responsible for the consolidation of these PPMPs into an APP, which shall be subject to the approval of the HoPE.

Changes in the APP, if any, for the budget year shall be submitted to the GPPB in July of the current budget year, and in January of the following budget year. ^(a)

7.5. Except for procurement projects undertaken through early procurement activities (EPA), the ABC as reflected in the approved APP shall be at all times consistent with the appropriations for the project authorized in the GAA, continuing, and automatic appropriations, the corporate budget, and the appropriations ordinance, as the case may be.⁸ ^(a)

For EPA, the posted ABC may be higher than the approved budget as long as the contract price to be awarded is within the amount authorized in the GAA, reenacted

budget, appropriations ordinance, corporate budget, or loan agreement, as the case may be.^{9 (n)}

- 7.6. To facilitate the immediate implementation of procurement of Goods, Infrastructure Projects or Consulting Services, even pending approval of the GAA, corporate budget, appropriations ordinance or loan agreements in the case of FAPs, as the case may be, and notwithstanding Section 7.2 hereof, the Procuring Entity may undertake EPA.^{10 (a)}

Procuring Entities are encouraged to undertake EPA to ensure the timely delivery of goods, implementation of infrastructure projects and rendition of consultancy services. The conduct of EPA for nationally-funded procurement projects may commence as early as the submission of the NEP to Congress, usually in July. No EPA may be conducted without an indicative APP duly approved by the HoPE and the MYCA issued by the DBM, in the case of multi-year projects. This will facilitate the awarding of procurement contracts upon approval and effectivity of their respective funding sources or the reenactment of the previous year's budget which constitutes the current year's authorized budget, when authorized by the Constitution, law or rules.^{11 (a)}

For EPA, the indicative APP shall be based on the ABC in the proposed national budget submitted by the President to Congress; for GOCCs, on budget levels as proposed to the governing board; for LGUs, on budget levels as proposed in the executive budget submitted to the Sanggunian; and for foreign-assisted projects (FAPS), on the document issued by the foreign donor or financing institution explicitly stating that a loan is to be made available to the Philippines or any of its agencies or instrumentalities with borrowing authority.^{12 (n)}

No award of contract shall be made until the approval and effectivity of the GAA, corporate budget, appropriations ordinance or the loan agreement in the case of FAPs.^{13 (a)}

Notwithstanding the approval and effectivity of the GAA, reenacted budget, appropriations ordinance, corporate budget or loan agreement, Procuring Entities shall not award contracts for procurement projects requiring Special Allotment Release Order or Sub-Allotment Release Order until the same has been issued, secured or released.^{14 (n)}

- 7.7. For procurement projects subject to Framework Agreement as provided in the Guidelines on the use of Framework Agreement by all Procuring Entities, the end-user unit shall ensure that the Framework Agreement List must be attached to the APP submitted to the BAC to be approved by the HoPE.^{15 (n)}

- f) Registered manufacturers, suppliers, distributors, contractors and consultants shall secure a digital certificate from the government-accredited certification authority to be able to participate in the procurement activities of the PhilGEPS.
- g) Registration with the PhilGEPS is not an accreditation and thus not tantamount to a finding of eligibility, nor is it a guaranty that a manufacturer, supplier, distributor, contractor or consultant may participate in a competitive bidding without first being determined to be eligible for that particular competitive bidding.

8.2.3. The Electronic Catalogue

- a) The PhilGEPS shall have a centralized electronic catalogue of common and non-common use goods, supplies, materials and equipment.

Should such review uncover any misrepresentation made in the eligibility requirements, statements or documents, or any changes in the situation of the consultant which will affect the capability of the consultant to undertake the project so that the consultant fails the preset eligibility criteria, the Procuring Entity shall consider the said consultant as ineligible and shall disqualify him from submitting a bid or from obtaining an award or contract, in accordance with Rules XXI, XXII, and XXIII of this IRR.

Bidders, however, shall have the right to refuse to grant such extension without forfeiting their bid security.

Section 29. Bid Opening

The BAC shall open the bids immediately after the deadline for the submission and receipt of bids. The time, date, and place of the opening of bids shall be specified in the Bidding Documents.

For electronic bid submission, the passwords for accessing the Bidding Documents will be disclosed by the Bidders only during the actual bid opening which may be done in person or face-to-face through videoconferencing, webcasting or similar technology.⁶³ (a)

The abstract of bids as read and the minutes of the bid opening shall be made available to the public upon written request and payment of a specified fee to recover cost of materials. (a)

RULE IX – BID EVALUATION

Section 30. Preliminary Examination of Bids

- 30.1 The BAC shall open the first bid envelopes in public to determine each bidder's compliance with the documents required to be submitted for eligibility and for the technical requirements, as prescribed in this IRR. For this purpose, the BAC shall check the submitted documents of each bidder against a checklist of required documents to ascertain if they are all present, using a non-discretionary "pass/fail" criterion, as stated in the Instructions to Bidders. If a bidder submits the required document, it shall be rated "passed" for that particular requirement. In this regard, bids that fail to include any requirement or are incomplete or patently insufficient shall be considered as "failed." Otherwise, the BAC shall rate the said first bid envelope as "passed." (a)

Receipt of the scanned copies of the first bid envelope with the required forms prescribed in this IRR, which are for online or electronic bid submission, shall be

considered as compliant with the requirements of the said bid submission, subject to the submission of the original copies of the following:

- i) bid securing declaration or other forms of bid security excluding cash, and
- ii) the omnibus sworn statement.

These forms shall be submitted by the bidder to and duly received by the BAC concerned during the post-qualification stage.

The non-submission of these forms on the set period shall render the bid submission as non-compliant and shall result in the post-disqualification of the bid.⁶⁴

- 30.2 Immediately after determining compliance with the requirements in the first envelope, the BAC shall forthwith open the second bid envelope of each remaining eligible bidder whose first bid envelope was rated "passed." The second envelope of each complying bidder shall be opened within the same day, except as provided under Section 33 of this IRR. In case any of the requirements in the second envelope of a particular bid is missing, incomplete or patently insufficient, and/or if the submitted total bid price exceeds the ABC, the BAC shall rate the bid concerned as "failed." Only bids that are determined to contain all the bid requirements for both components shall be rated "passed" and shall immediately be considered for evaluation and comparison. (a)

Receipt of the scanned copies of the second bid envelope with the required forms such as the duly-signed bid form, price schedules, or other forms prescribed in this IRR, for electronic or online bid submission, shall be considered as compliant with the requirements of the said bid submission.⁶⁵

- 30.3 For the procurement of Goods where, due to the nature of the requirements of the project, the required technical specifications/requirements of the contract cannot be precisely defined in advance of bidding, or where the problem of technically unequal bids is likely to occur, a two (2)-stage bidding procedure may be employed. In these cases, the Procuring Entity concerned shall prepare the Bidding Documents, including the technical specification in the form of performance criteria only. Under this procedure, prospective bidders shall be requested at the first stage to submit their respective eligibility requirements if needed, and initial technical proposals only (no price tenders). The concerned BAC shall then evaluate the technical merits of the proposals received from eligible bidders vis-à-vis the required performance standards. A meeting/discussion shall then be held by the BAC with those eligible bidders whose technical tenders meet the minimum required standards stipulated in the Bidding Documents for purposes of drawing up the final revised technical specifications/requirements of the contract. Once the final revised technical specifications are completed and duly approved by the concerned BAC, copies of the same shall be issued to all the bidders identified in the first stage who shall then be required to submit their revised technical tenders, including their price proposals in two (2) separate sealed envelopes in accordance with this IRR, at a specified deadline, after which time no more bids shall be received. The concerned BAC shall then proceed in accordance with the procedure prescribed in this IRR.

- 30.4 For the procurement of Consulting Services, the detailed implementation of the procedure specified in this Section shall be as provided in Section 33 of this IRR.

Section 31. Ceiling for Bid Prices

- 31.1 The ABC shall be the upper limit or ceiling for acceptable bid prices. If a bid price, as evaluated and calculated in accordance with this IRR, is higher than the ABC, the bidder submitting the same shall be automatically disqualified. There shall be no lower limit or floor on the amount of the award.
- 31.2 For Foreign-funded Procurement, the ABC shall be applied as the ceiling: *Provided*, That the following conditions are met:
- a) Bidding Documents are obtainable free of charge on a freely accessible website. If payment of Bidding Documents is required by the Procuring Entity, payment could be made upon the submission of bids.
 - b) The Procuring Entity has procedures in place to ensure that the ABC is based on recent estimates made by the engineer or the responsible unit of the Procuring Entity and that the estimates are based on adequate detailed engineering (in the case of Infrastructure Projects) and reflect the quality, supervision and risk and inflationary factors, as well as prevailing market prices, associated with the types of Goods or Infrastructure Projects to be procured.
 - c) The Procuring Entity has trained cost estimators on estimating prices and analyzing bid variances. In the case of Infrastructure Projects, the Procuring Entity must also have trained quantity surveyors.
 - d) The Procuring Entity has established a system to monitor and report bid prices relative to ABC and engineer's/Procuring Entity's estimate.
 - e) The Procuring Entity has established a monitoring and evaluation system for contract implementation to provide a feedback on actual total costs of Goods and Infrastructure Projects.

However, the GoP and the foreign government/foreign or international financing institution may agree to waive the foregoing conditions. ^(a)

Section 32. Bid Evaluation for the Procurement of Goods and Infrastructure Projects

- 32.1 Members of the BAC, its staff and personnel, Secretariat and TWG, as well as Observers, are prohibited from making or accepting any communication with any bidder regarding the evaluation of their bids until the issuance of the Notice of Award. However, the BAC, through its Secretariat, may ask in writing the bidder for a clarification of its bid. All responses to requests for clarification shall be in writing.^(a)
- 32.2 For the procurement of Goods and Infrastructure Projects, the BAC shall evaluate the financial component of the bids to determine the Lowest Calculated Bid using the following steps:
- 32.2.1 The BAC shall immediately conduct a detailed evaluation of all bids using non-discretionary criteria in considering the following:
 - a) Completeness of the bid. Unless the Instructions to Bidders specifically allow partial bids, bids not addressing or providing all of

The 2016 Revised Implementing Rules and Regulations

the required items in the Bidding Documents including, where applicable, bill of quantities, shall be considered non-responsive and, thus, automatically disqualified. In this regard, where a required item is provided, but no price is indicated, the same shall be considered as non-responsive, but specifying a zero (0) or a dash (-) for the said item would mean that it is being offered for free to the Government, except those required by law or regulations to be provided for; and

b) Arithmetical corrections. Consider computational errors and omissions to enable proper comparison of all eligible bids. It may also consider bid modifications if expressly allowed in the Bidding Documents. Any adjustment shall be calculated in monetary terms to determine the calculated prices. ^(a)

- 32.2.2 The BAC shall evaluate all bids on an equal footing to ensure fair and competitive bid comparison. For this purpose, all bidders shall be required to include the cost of all taxes, such as, but not limited to, value added tax (VAT), income tax, local taxes, and other fiscal levies and duties which shall be itemized in the bid form and reflected in the detailed estimates. Such bids, including said taxes, shall be the basis for bid evaluation and comparison.
- 32.2.3 In case of discrepancies between: (a) bid prices in figures and in words, the latter shall prevail; (b) total price per item and unit price for the item as extended or multiplied by the quantity of that item, the latter shall prevail; (c) stated total price and the actual sum of prices of component items, the latter shall prevail; (d) unit cost in the detailed estimate and unit cost in the bill of quantities, the latter shall prevail.
- 32.2.4 Bids shall then be ranked in the ascending order of their total calculated bid prices, as evaluated and corrected for computational errors, and other bid modifications, to identify the Lowest Calculated Bid. Total calculated bid prices, as evaluated and corrected for computational errors, and other bid modifications, which exceed the ABC shall be disqualified.
- 32.3 After all bids have been received, opened, examined, evaluated, and ranked, the BAC shall prepare the corresponding Abstract of Bids. All members of the BAC shall sign the Abstract of Bids and attach thereto all the bids with their corresponding bid securities and the minutes or proceedings of the bidding. The Abstract of Bids shall contain the following:
- a) Name of the contract and its location, if applicable;
 - b) Time, date and place of bid opening; and
 - c) Names of bidders and their corresponding calculated bid prices arranged from lowest to highest, the amount of bid security and the name of the issuing entity.
- 32.4 The entire evaluation process for the procurement of Goods and Infrastructure Projects shall be completed within seven (7) calendar days from the deadline for receipt of proposals. ^(a)

Section 33. Bid Evaluation of Short Listed Bidders for Consulting Services

33.1 From submission and receipt of bids until the approval by the HoPE of the ranking of short listed bidders, those that have submitted their bids are prohibited from making any communication with any BAC member, including its staff and personnel, as well as its Secretariat and TWG, regarding matters connected to their bids. However, the BAC, through its Secretariat, may ask in writing the bidder for a clarification of its bid. All responses to requests for clarification shall be in writing.

33.2 The purpose of bid evaluation is to determine the Highest Rated Bid using the following steps:

33.2.1 The BAC shall conduct a detailed evaluation of bids using either of the following evaluation procedures as specified in the Bidding Documents:

33.2.1.1 Quality-Based Evaluation Procedure

- i) A two-stage procedure shall be adopted whereby each consultant shall be required to submit his technical and financial proposals simultaneously in separate sealed envelopes.
- ii) After receipt of bids, the technical proposals shall first be opened and evaluated, in accordance with Section 33.2.2 of this IRR. The BAC shall rank the consultants in descending order based on the numerical ratings of their technical proposals and identify the Highest Rated Bid: *Provided, however,* That the Highest Rated Bid shall pass the minimum score indicated in the Bidding Documents.
- iii) The HoPE shall approve or disapprove the recommendations of the BAC within two (2) calendar days after receipt of the results of the evaluation from the BAC.
- iv) After approval by the HoPE of the Highest Rated Bid, its financial proposal shall then be opened. The BAC shall, within three (3) calendar days, notify and invite the consultant with the Highest Rated Bid for the opening of financial proposal for the purpose of conducting negotiations with the said consultant. In the letter of notification, the BAC shall inform the consultant of the issues in the technical proposal the BAC may wish to clarify during negotiations.
- v) Negotiations shall be in accordance with Section 33.2.5 of this IRR: *Provided,* That the amount indicated in the financial envelope shall be made as the basis for negotiations and the total contract amount shall not exceed the amount indicated in the envelope and the ABC as stated in the Bidding Documents.

33.2.1.2 Quality-Cost Based Evaluation Procedure

- i) The technical proposal together with the financial proposal shall be considered in the evaluation of consultants. The technical proposals shall be evaluated first using the criteria in Section

The 2016 Revised Implementing Rules and Regulations

33.2.2 of this IRR. The financial proposals of the consultants who meet the minimum technical score shall then be opened.

- ii) The financial and technical proposals shall be given corresponding weights with the financial proposal given a minimum weight of fifteen percent (15%) up to a maximum of forty percent (40%). The weight of the technical criteria shall be adjusted accordingly such that their total weight in percent together with the weight given to the financial proposal shall add to one hundred percent (100%). The exact weights shall be approved by the HoPE upon the recommendation of the BAC and indicated in the Bidding Documents. The BAC shall rank the consultants in descending order based on the combined numerical ratings of their technical and financial proposals and identify the Highest Rated Bid.
- iii) The HoPE shall approve or disapprove the recommendations of the BAC within two (2) calendar days after receipt of the results of the evaluation from the BAC.

33.2.2 The technical proposals of consultants shall be evaluated based on the following criteria and using the corresponding numerical weights indicated in the Bidding Documents:

- c) Plan of approach and methodology with emphasis on the clarity, feasibility, innovativeness and comprehensiveness of the plan approach, and the quality of interpretation of project problems, risks, and suggested solutions.

33.2.3 In order to eliminate bias in evaluating the technical proposals, it is recommended that the highest and lowest scores for each consultant for each criterion shall not be considered in determining the average scores of the consultants, except when the evaluation is conducted in a collegial manner.

33.2.4 All participating short listed consultants shall be furnished the results (ranking and total scores only) of the evaluation after the approval by the HoPE of the ranking. Said results shall also be posted in the PhilGEPS and the website of the Procuring Entity, whenever available, for a period of not less than seven (7) calendar days.

33.2.5 Negotiations shall cover the following:

33.3 There should be no replacement of key personnel before the awarding of contract, except for justifiable reason as may be determined by the BAC, such as, illness, death, or resignation provided it is duly supported by relevant certificates, or any delay caused by the Procuring Entity. The BAC shall immediately consider negotiation with the next ranked consultant if unjustifiable replacement of personnel by the first ranked firm is made. Once the contract has been awarded, no replacement shall be allowed by the HoPE until after fifty percent (50%) of the

The 2016 Revised Implementing Rules and Regulations

personnel's man-months have been served, except for justifiable reasons, subject to appropriate sanctions as prescribed in the PBDs. ^(a)

- 33.4 The entire evaluation process, including the submission of the results thereof to the HoPE for approval, shall be completed in not more than twenty-one (21) calendar days after the deadline for receipt of proposals. The proposal with the highest score shall be identified as the Highest Rated Bid.

RULE X – POST-QUALIFICATION

Section 34. Objective and Process of Post-Qualification

34.1 The Lowest Calculated Bid/Highest Rated Bid shall undergo post-qualification in order to determine whether the bidder concerned complies with and is responsive to all the requirements and conditions as specified in the Bidding Documents.

34.2 Within five (5) calendar days from receipt by the bidder of the notice from the BAC that the bidder has the Lowest Calculated Bid or Highest Rated Bid, the bidder shall submit to the BAC its latest income and business tax returns, and other appropriate licenses and permits required by law and stated in the Bidding Documents.

Failure to submit any of the post-qualification requirements on time, or a finding against the veracity thereof, shall disqualify the bidder for award: *Provided*, That in the event that a finding against the veracity of any of the documents submitted is made, it shall cause the forfeiture of the Bid Security in accordance with Section 69 of this IRR.^(a)

34.3 The post-qualification shall verify, validate, and ascertain all statements made and documents submitted by the bidder with the Lowest Calculated Bid/Highest Rated Bid, using non-discretionary criteria, as stated in the Bidding Documents. These criteria shall consider, but shall not be limited to, the following:

a) Legal Requirements. To verify, validate, and ascertain licenses, certificates, permits, and agreements submitted by the bidder, and the fact that it is not included in any "blacklist" as provided in Section 25.3 of this IRR. For this purpose, the GPPB shall maintain a consolidated file of all "blacklisted" suppliers, contractors, and consultants.

b) Technical Requirements. To determine compliance of the goods, infrastructure projects, or consulting services offered with the requirements specified in the Bidding Documents, including, where applicable:

i) Verification and validation of the bidder's stated competence and experience, and the competence and experience of the bidder's key personnel to be assigned to the project, for the procurement of Infrastructure Projects and Consulting Services;

- b. Failure of the contractor to commence repair works on ongoing contracts within seven (7) calendar days and to complete them within thirty (30) calendar days after receipt of the Procuring Entity's notice of defects and deficiencies;
- c. Failure of the contractor to commence repair works on contracts with pending certificates of acceptance within thirty (30) calendar days and complete them within ninety (90) days after receipt of the Procuring Entity's notice of defects and failures; or
- d. Substandard quality of work as per contract plans and specifications, or unsatisfactory performance of the contractor's obligations as per contract terms and conditions, at the time of inspection.

If the BAC verifies any of these deficiencies to be due to the contractor's fault or negligence, the agency shall disqualify the contractor from the award, for the procurement of Infrastructure Projects.

- iii) Verification and/or inspection and testing of the goods/product, after-sales and/or maintenance capabilities, in applicable cases, as well as checking the following:
 - a. Delay in the partial delivery of goods amounting to ten percent (10%) of the contract price in its ongoing government and private contracts;
 - b. If any of these contracts shows the bidder's failure to deliver or perform any or all of the goods or services within the period(s) specified in the contract or within any extension thereof granted by the Procuring Entity pursuant to a request made by the supplier prior to the delay, and such failure amounts to at least ten percent (10%) of the contract price; or
 - c. Unsatisfactory performance of the supplier's obligations as per contract terms and conditions at the time of inspection.

If the BAC verifies any of these deficiencies to be due to the bidder's fault or negligence, the BAC shall disqualify the bidder from the award, for the procurement of Goods.

- iv) Ascertainment of the authenticity of the bid security and its correctness as to type, amount, form and wording, and validity period, as required in the Bidding Documents.

of Credit in the amount specified and over the period stipulated in the Bidding Documents, or the bidder's NFCC to ensure that the bidder can sustain the operating cash flow of the transaction. (a)

- 34.4 If the BAC determines that the bidder with the Lowest Calculated Bid/Highest Rated Bid passes all the criteria for post-qualification, it shall declare the said bid as the LCRB or HRRB⁶⁶, and recommend to the HoPE the award of contract to the said bidder at its submitted bid price or its calculated bid price, whichever is lower or, in the case of quality-based evaluation procedure, submitted bid price or its negotiated price, whichever is lower.
- 34.5 If, however, the BAC determines that the bidder with the Lowest Calculated Bid/Highest Rated Bid fails the criteria for post-qualification, it shall immediately notify the said bidder in writing of its post-disqualification and the grounds for it.
- 34.6 Immediately after the BAC has notified the first bidder of its post-disqualification, and notwithstanding any pending request for reconsideration thereof, the BAC shall initiate and complete the same post-qualification process on the bidder with the second Lowest Calculated Bid/Highest Rated Bid. If the second bidder passes the post-qualification, and provided that the request for reconsideration of the first bidder has been denied, the second bidder shall be post-qualified as the bidder with the LCRB or HRRB.
- 34.7 If the second bidder, however, fails the post-qualification, the procedure for post-qualification shall be repeated for the bidder with the next Lowest Calculated Bid/Highest Rated Bid, and so on until the LCRB or HRRB, as the case may be, is determined for award, subject to Section 37 of this IRR.
- 34.8 The post-qualification process shall be completed in not more than twelve (12) calendar days from the determination of the Lowest Calculated Bid/Highest Rated Bid. In exceptional cases, the post-qualification period may be extended by the HoPE, but in no case shall the aggregate period exceed forty-five (45) calendar days for Goods and Infrastructure Projects, or thirty (30) calendar days in Consulting Services.

In case of post-disqualification of the bidder with the lowest calculated bid/highest rated bid, the BAC shall be given the same fresh period to conduct the post-qualification of the next lowest calculated bid/highest rated bid until a bidder is post-qualified or failure of bidding is declared based on Section 35.1(c) of this IRR.^(a)

Section 35. Failure of Bidding

35.1 The BAC shall declare the bidding a failure when:

The 2016 Revised Implementing Rules and Regulations

- d) The bidder with the LCRB, HRRB, SCRB or SRRB refuses, without justifiable cause, to accept the award of contract, and no award is made in accordance with Section 40 of the Act and this IRR.
- 35.2 In order to determine the reason for the failed bidding, the BAC shall conduct a mandatory review and evaluation of the terms, conditions, and specifications in the Bidding Documents, including its cost estimates.
- 35.3 Based on its findings, the BAC shall revise the terms, conditions, and specifications, and if necessary, adjust the ABC, subject to the required approvals, and conduct a re-bidding with re-advertisement and/or posting, as provided for in Section 21.2 of this IRR.
- 35.4 All bidders who have initially responded to the Invitation to Bid/Request for Expression of Interest and have been declared eligible or short listed in the previous biddings shall be allowed to submit new bids. The BAC shall observe the same process and set the new periods according to the same rules followed during the previous bidding(s).
- 35.5 Should there occur a second failure of bidding, the Procuring Entity may resort to negotiated procurement as provided for in Section 53.1 of this IRR.
- 35.6 Without prejudice to Sec. 35.1 hereof, the BAC is authorized, upon consultation with the end-user unit, to cancel or terminate the conduct of procurement activities, for any justifiable reason, such as but not limited to:⁶⁷
- a) the physical and economic conditions have significantly changed so as to render the project no longer economically, financially, or technically feasible, as determined by the end-user unit;⁶⁸
 - b) the project is no longer necessary as determined by the end-user unit;⁶⁹
 - c) the source of funds for the project has been withheld or reduced through no fault of the PE; or⁷⁰
 - d) brought about by the declaration of a State of Calamity, or implementation of community quarantine or similar restrictions.⁷¹⁽ⁿ⁾

Section 36. Single Calculated/Rated and Responsive Bid Submission

A Single Calculated and Responsive Bid (SCRB) or a Single Rated and Responsive Bid (SRRB) shall be considered for award if it falls under any of the following circumstances:

RULE XII – DOMESTIC AND FOREIGN PROCUREMENT

Section 43. Procurement of Domestic and Foreign Goods

43.1 Scope and Application

- 43.1.1 Consistent with the GoP's obligations under international treaties or agreements, goods may be obtained from domestic or foreign sources: *Provided, however*, That the procurement thereof shall be open only to eligible suppliers, manufacturers and distributors: *Provided, further*, That in the interest of availability, efficiency and timely delivery of goods, the Procuring Entity may give preference to the purchase of domestically-produced and manufactured goods, supplies and materials that meet the specified or desired quality, in accordance with the provisions of Commonwealth Act No. 138.
- 43.1.2 The Procuring Entity shall give preference to materials and supplies produced, made and manufactured in the Philippines, subject to the conditions herein below specified. The award shall be made to the lowest Domestic Bidder, provided his bid is not more than fifteen percent (15%) in excess of the lowest Foreign Bid. ^(a)
- 43.1.3 A Domestic Bidder can only claim preference if it secures from the DTI a certification that the articles forming part of its bid are substantially composed of articles, materials, or supplies grown, produced, or manufactured in the Philippines. ^(43.1.4)

43.2 Procedures and Guidelines

- 43.2.1 The preference shall be applied when the lowest Foreign Bid is lower than the lowest bid offered by a Domestic Bidder. The Procuring Entity shall ensure that both bids are responsive to the minimum requirements as specified in the Bidding Documents. ^(a)
- 43.2.2 For evaluation purposes, the lowest Foreign Bid shall be increased by fifteen percent (15%).

- 43.2.5 The award of contract shall be subject to post-qualification and submission of all the documentary requirements under this IRR. ⁽ⁿ⁾

RULE XIII – BIDDING OF PROVINCIAL PROJECTS

Section 44. Bidding of Provincial Projects

Priority programs and infrastructure projects funded out of the annual GAA which are intended for implementation within the province shall be subject to the same competitive bidding and to the procurement processes prescribed in this IRR. For purposes of this Section, Engineering District infrastructure projects and priority programs fully funded by the Government and identified in consultation with the concerned members of Congress, shall constitute "provincial projects" and shall be governed by this Section.

Section 45. Provincial Bidders

In accordance with Section 45 of the Act, the right to match accorded to provincial bidders is no longer available after 26 January 2008.

RULE XIV – LEASE OF COMPUTERS, COMMUNICATIONS, INFORMATION AND OTHER EQUIPMENT

Section 46. Lease Contracts

The lease of construction and office equipment, including computers, communication and information technology equipment, are subject to the same competitive bidding and to the processes prescribed under the Act and this IRR. Lease may also cover lease purchases or lease-to-own and similar variations.

RULE XV – DISCLOSURE OF RELATIONS

Section 47. Disclosure of Relations

- 47.1 All bids shall be accompanied by a sworn affidavit of the bidder that it is not related to the HoPE, members of the BAC, the TWG, and the BAC Secretariat, the head of the PMO or the end-user or implementing unit, and the project consultants, by consanguinity or affinity up to the third civil degree. Failure to comply with the aforementioned provision shall be a ground for the automatic disqualification of the

The 2016 Revised Implementing Rules and Regulations

bid in consonance with Section 30 of this IRR. For this reason, relation to the aforementioned persons within the third civil degree of consanguinity or affinity shall automatically disqualify the bidder from participating in the procurement of contracts of the Procuring Entity notwithstanding the act of such persons inhibiting themselves from the procurement process. On the part of the bidder, this provision shall apply to the following persons:

- a) If the bidder is an individual or a sole proprietorship, to the bidder himself;
- b) If the bidder is a partnership, to all its officers and members;
- c) If the bidder is a corporation, to all its officers, directors, and controlling stockholders;
- d) If the bidder is a cooperative, to all its officers, directors, and controlling shareholders or members; and
- e) If the bidder is a joint venture, the provisions of items (a), (b), (c), or (d) of this Section shall correspondingly apply to each of the members of the said joint venture, as may be appropriate. ^(a)

47.2 All bidders also found to have conflicting interests with each other shall be disqualified to participate in the procurement at hand, without prejudice to the imposition of appropriate administrative, civil, and criminal sanctions. A bidder may be considered to have conflicting interests with another bidder in any of the events described in paragraphs (a) through (c) below and a general conflict of interest in any of the circumstances set out in paragraphs (d) through (j) below:

- a) A bidder has controlling shareholders in common with another bidder;
- b) A bidder receives or has received any direct or indirect subsidy from any other bidder;
- c) A bidder has the same legal representative as that of another bidder for purposes of this bid;
- d) A bidder has a relationship, directly or through third parties, that puts them in a position to have access to information about or influence on the bid of another bidder or influence the decisions of the Procuring Entity regarding this bidding process. This will include a firm or an organization who lends, or temporarily seconds, its personnel to firms or organizations which are engaged in consulting services for the preparation related to procurement for or implementation of the project if the personnel would be involved in any capacity on the same project;
- e) A bidder submits more than one bid in this bidding process. However, this does not limit the participation of subcontractors in more than one bid;
- f) A bidder who participated as a consultant in the preparation of the design or technical specifications of the Goods and related services that are the subject of the bid;

The 2016 Revised Implementing Rules and Regulations

- g) A bidder who lends, or temporarily seconds, its personnel to firms or organizations which are engaged in consulting services for the preparation related to procurement for or implementation of the project, if the personnel would be involved in any capacity on the same project;
- h) If a consultant combines the function of consulting with those of contracting and/or supply of equipment;
- i) If a consultant is associated with, affiliated to, or owned by a contractor or a manufacturing firm with departments or design offices offering services as consultants unless such consultant includes relevant information on such relationships along with a statement in the technical proposal cover letter to the effect that the consultant shall limit its role to that of a consultant and disqualify itself and its associates from work in any other capacity that may emerge from the project (including bidding for any part of the future project). The contract with the consultant selected to undertake the project shall contain an appropriate provision to such effect; or
- j) If there is a conflict among consulting projects, the consultant (including its personnel and subcontractors) and any subsidiaries or entities controlled by such consultant shall not be recruited for the relevant project. The duties of the consultant depend on the circumstances of each case. While continuity of consulting services may be appropriate in particular situations where no conflict exists, a consultant cannot be recruited to carry out a project that, by its nature, shall result in conflict with a prior or current project of such consultant. Examples of the situations mentioned are when a consultant engaged to prepare engineering design for an infrastructure project shall not be recruited to prepare an independent environmental assessment for the same project; similarly, a consultant assisting a Procuring Entity in privatization of public assets shall not purchase, nor advise purchasers, of such assets; or a consultant hired to prepare terms of reference for a project shall not be recruited for the project in question.⁽ⁿ⁾

RULE XVI – ALTERNATIVE METHODS OF PROCUREMENT

Section 48. Alternative Methods

- 48.1 Subject to the prior approval of the HoPE, and whenever justified by the conditions provided in this Act, the Procuring Entity may, in order to promote economy and efficiency, resort to any of the alternative methods of procurement provided in this Rule. In all instances, the Procuring Entity shall ensure that the most advantageous price for the Government is obtained.
- 48.2 In accordance with Section 10 of this IRR, as a general rule, the Procuring Entities shall adopt competitive bidding as the general method of procurement and shall see to it that the procurement program allows sufficient lead time for such competitive bidding. Alternative methods of procurement shall be resorted to only in highly exceptional cases provided for in this Rule.
- 48.3 The method of procurement to be used shall be as indicated in the approved APP. If the original method of procurement recommended in the APP was competitive bidding but cannot be ultimately pursued, the BAC, through a resolution, shall justify

The 2016 Revised Implementing Rules and Regulations

and recommend the change in the method of procurement to be approved by the HoPE. Such changes must be reflected in the APP to be submitted to the GPPB, pursuant to Section 7.4 of this IRR. ^(a)

Section 49. Limited Source Bidding

49.1 *Limited Source Bidding*, otherwise known as selective bidding, is a method of procurement of Goods and Consulting Services that involves direct invitation to bid by the Procuring Entity from the list of pre-selected suppliers or consultants⁸³ with known experience and proven capability on the requirements of the particular contract. This alternative method of procurement may be employed under any of the following conditions:

- a) Procurement of highly specialized types of goods (*e.g.*, sophisticated defense equipment, complex air navigation systems, coal) and consulting services where only a few suppliers or consultants are known to be available, such that resorting to the competitive bidding method will not likely result in any additional suppliers or consultants participating in the bidding; or
- b) Procurement of major plant components where it is deemed advantageous to limit the bidding to known qualified bidders in order to maintain uniform quality and performance of the plant as a whole. ^(49.1a)

49.2 The pre-selected suppliers or consultants shall be those appearing in a list maintained by the relevant government authority that has expertise in the type of procurement concerned. The list of pre-selected suppliers or consultants shall be updated periodically. A copy of the list shall be submitted to, and maintained updated with, the GPPB.

49.3 The pre-selection shall be based upon the capability and resources of the bidders to perform the contract taking into account their experience and past performance on similar contracts, capabilities with respect to personnel equipment or manufacturing facilities, and financial position. Pre-selection shall be done in accordance with the following procedures provided in the GPMs.

The BAC of the concerned Procuring Entity shall directly invite all the suppliers or consultants appearing in the pre-selected list. All other procedures for competitive bidding shall be undertaken, except for the advertisement of Invitation to Bid/Request for Expression of Interest under Section 21.2.1 of this IRR.

Section 50. Direct Contracting

Direct Contracting or single source procurement is a method of procurement of Goods that does not require elaborate Bidding Documents. The supplier is simply asked to submit a price quotation or a pro-forma invoice together with the conditions of sale. The offer may be accepted immediately or after some negotiations. Direct contracting may be resorted to by concerned Procuring Entities under any of the following conditions:

- a) Procurement of Goods of proprietary nature which can be obtained only from the proprietary source, *i.e.* when patents, trade secrets, and copyrights prohibit others from manufacturing the same item;

⁸³ Refer to Appendix 12 for the Pre-Selection Procedure in the Conduct of Limited Source Bidding.

The 2016 Revised Implementing Rules and Regulations

- b) When the procurement of critical components from a specific supplier is a condition precedent to hold a contractor to guarantee its project performance, in accordance with the provisions of its contract; or
- c) Those sold by an exclusive dealer or manufacturer which does not have sub-dealers selling at lower prices and for which no suitable substitute can be obtained at more advantageous terms to the GoP.

Section 51. Repeat Order

Repeat Order, when provided for in the APP, is a method of procurement of Goods from the previous winning bidder, whenever there is a need to replenish goods procured under a contract previously awarded through Competitive Bidding. Repeat orders shall likewise be subject to the following conditions:

- a) Unit prices of the repeat order must be the same as or lower than those in the original contract: *Provided*, That such prices are still the most advantageous to the GoP after price verification;
- b) The repeat order will not result in splitting of contracts, requisitions, or purchase orders, as provided for in Section 54.1 of this IRR;
- c) Except in cases duly approved by the GPPB, the repeat orders shall be availed of only within six (6) months from the date of the Notice to Proceed arising from the original contract: *Provided*, That there has been a partial delivery, inspection and acceptance of the goods within the same 6-month period; and
- d) Repeat orders shall not exceed twenty-five percent (25%) of the quantity of each item in the original contract. In order not to exceed the 25% threshold, the goods under the original contract must be:
 - i. Quantifiable
 - ii. Divisible; and
 - iii. Consisting of at least four (4) units per item. ^(a)

Section 52. Shopping

52.1 *Shopping* is a method of procurement of Goods whereby the Procuring Entity simply requests for the submission of price quotations for readily available off-the-shelf goods or ordinary/regular equipment to be procured directly from suppliers of known qualifications. This method of procurement shall be employed in any of the following cases:

- a) When there is an unforeseen contingency requiring immediate purchase: *Provided, however*, That the amount shall not exceed the thresholds prescribed in Annex "H"⁸⁴ of this IRR.
- b) Procurement of ordinary or regular office supplies and equipment not available in the Procurement Service involving an amount not exceeding the thresholds prescribed in Annex "H" of this IRR.

⁸⁴ Consolidated Guidelines for the Alternative Methods of Procurement.

The 2016 Revised Implementing Rules and Regulations

- 52.2 The phrase “ordinary or regular office supplies” shall be understood to include those supplies, commodities, or materials which are necessary in the transaction of official businesses, and consumed in the day-to-day operations.

However, office supplies shall not include services such as repair and maintenance of equipment and furniture, as well as trucking, hauling, janitorial, security, and related or analogous services. ^(a)

- 52.3 Under Section 52.1 (b) of this IRR, at least three (3) price quotations from bona fide suppliers shall be obtained.

- 52.4 The thresholds prescribed in Annex “H” of this IRR shall be subject to a periodic review by the GPPB. For this purpose, the GPPB shall be authorized to increase or decrease the said amount in order to reflect changes in economic conditions and for other justifiable reasons.

Section 53. Negotiated Procurement

Negotiated Procurement is a method of procurement of Goods, Infrastructure Projects and Consulting services, whereby the Procuring Entity directly negotiates a contract with a technically, legally and financially capable supplier, contractor or consultant in any of the following cases:

- 53.1 ***Two Failed Biddings.*** Where there has been failure of competitive bidding or Limited Source Bidding for the second time as provided in Section 35 of the Act and this IRR. ^(a)

The instances or situations where the foregoing conditions may be applied include the provision of immediate response and initial recovery steps to avoid loss of life, injury, disease and other negative effects on human, physical, mental and social well-being, together with damage to property, destruction of assets, loss of services, social and economic disruption and environmental degradation. ^{85 (a)}

In the case of Infrastructure Projects, the Procuring Entity has the option to undertake the project through negotiated procurement or by administration or, in high security risk areas, through the AFP⁸⁶.

- 53.3 ***Take-Over of Contracts.*** Take-over of contracts, which have been rescinded or terminated for causes provided for in the contract and existing laws, where immediate action is necessary to prevent damage to or loss of life or property, or to restore vital public services, infrastructure facilities and other public utilities. ^(a)

- 53.5 ***Agency-to-Agency.*** Procurement of Goods, Infrastructure Projects and Consulting Services from another agency of the GoP, such as the DBM-PS, which is tasked with a centralized procurement of Common-Use Supplies for the GoP in accordance with Letters of Instruction No. 755 and E.O. 359, s. 1989.

Section 54. Terms and Conditions for the use of Alternative Methods

- 54.1 Splitting of Government Contracts is not allowed. The BAC shall decide on the request for reconsideration within seven (7) calendar days from receipt thereof. The bidder shall not be allowed to submit additional documents to correct any defects in the bid submitted.

The 2016 Revised Implementing Rules and Regulations

If a failed bidder signifies his intent to file a request for reconsideration, the BAC shall keep the bid envelopes of the said failed bidder unopened and/or duly sealed until such time that the request for reconsideration has been resolved. ^(a)

- 55.2 In the event that the request for reconsideration is denied, decisions of the BAC may be protested in writing to the HoPE: *Provided, however,* That a prior request for reconsideration should have been filed by the party concerned in accordance with the preceding Section, and the same has been resolved.
- 55.3 The protest must be filed within seven (7) calendar days from receipt by the party concerned of the resolution of the BAC denying its request for reconsideration. A protest shall be made by filing a verified position paper with the HoPE concerned, accompanied by the payment of a non-refundable protest fee, which shall be paid in cash in accordance with the following schedule:^(a)

The position paper is verified by an affidavit that the affiant has read and understood the contents thereof and that the allegations therein are true and correct of his personal knowledge or based on authentic records. An unverified position paper shall be considered unsigned, produces no legal effect, and results to the outright dismissal of the protest.

In addition, the bidder shall likewise certify under oath that:

All survey and investigation works shall be prepared in a manner satisfactory to carry out accurate design and production of plans that will permit quantity estimates to be made within plus or minus ten percent (10%) of the final quantities of the completed structure.
- c) Contract Plans – The following plans shall be prepared for each construction contract in accordance with guidelines and standards adopted by the procuring entity concerned, incorporating at least the following:
 - i) Site development plan
 - ii) Plans and profile sheet
 - iii) Typical sections and details
 - iv) Drainage details where applicable
 - v) Structural plans at appropriate scales indicating all details necessary in order that the complete structure can be set out and constructed
 - vi) Other details which may be required by the head of the agency
- d) Quantities – All construction quantities shall be computed to a reasonable accuracy of not more than plus or minus ten percent (10%) of the final quantities of the as-built structure.
- e) Special Provisions – Specifications shall be prepared for specific terms of work or methods of construction, measurement and payment under each contract, which are not covered by Standard Construction and Material Specifications adopted by the procuring entity concerned.
- f) Unit Prices – These shall be prepared for each contract using costs based on reasonable approved current prices as projected over the proposed construction period, divided into local and foreign exchange costs, as the case may be.
- g) Approved Budget for the Contract – the ABC to be bid shall be prepared by official(s) duly designated by the Head of the Procuring Entity concerned or by his duly authorized official. It shall be approved by the Head of the Procuring Entity or his duly designated official.

Since the contracts are fixed price contracts, the ABC to be bid shall provide for the projected movements of construction costs over the construction period

The 2016 Revised Implementing Rules and Regulations – Annex “A”

considering the projected inflation and foreign exchange rates as issued by the Development Budget Coordination Committee (DBCC). It shall also show the local and foreign currency requirements, as the case may be.

The ABC to be bid shall specify for each major work item, such as earthwork, roadwork, and massive concreting, the components for equipment rentals, fuel, labor, materials and overhead, including the cost of the approved construction safety and health program and warranty premium.

- h) Bidding Documents – These shall be prepared as provided for in the IRR.
- i) Program of Work – Before prosecuting any project, the necessary program of work shall be prepared and submitted for approval. In no case shall construction funds be remitted to field offices or construction work on a project be started before the program of work is approved, in accordance with existing laws.

No program of work for any project shall be approved without detailed engineering. The program of work shall include, among other things, estimates of the work, items, quantities and costs and a PERT/CPM network of the project activities. The program of work shall cover at least a usable portion of the project and no construction shall be started for portions of the project that are less than usable, except projects requiring stage construction, in which case continuity of construction up to the completion of a usable portion must be assured.

- j) Contract Time or Duration – In the preparation of the Bidding Documents, the agency shall make an estimate of the actual number of working days required to complete the project through PERT/CPM analysis of the project activities and corrected for holidays and weekends. Likewise, the agency shall make an estimate of the number of rainy/unworkable days considered unfavorable for the prosecution of the works at the site, based on the records of the Philippine Atmospheric, Geophysical and Astronomical Services Administration (PAGASA), and incorporate the same in the corrected actual number of working days determined above, which shall be made the basis of the total contract time. The estimated number of rainy/unworkable days considered unfavorable for the prosecution of the works at the site shall be made known before the date of bidding through the Instructions to Bidders for the purpose of guiding the contractor in preparing his bid and as reference to both the GOP and winning contractors taking action on the requests for time extensions. Without the estimated number of rainy/unworkable days established before the bidding date and made known to all participating bidders, the contract time is presumed to have excluded the unfavorable conditions.
- k) Warranty Period – Likewise, the Bidding Documents shall specify the type of project and the corresponding warranty period required by the procuring entity.
- l) Value Engineering – For major projects as specified by the agency, value engineering shall be conducted according to accepted standards and practices. Value engineering shall analyze alternative schemes of achieving the projects objectives in order to delete or reduce non-essential features and lessen the

The 2016 Revised Implementing Rules and Regulations – Annex “A”

life cycle costs of the projects without sacrificing the quality and integrity of the structure, while maintaining its essential function, performance, and safety.

- m) Site or Right-of-Way Acquisition Plans and Resettlement Action Plans – These shall be prepared based on parcellary surveys and socio-economic surveys of households affected by the project.
4. For projects to be implemented by phases, the Procuring Entity shall ensure that there is a clear delineation of work for each phase, which must be usable, and structurally sound. It shall also ensure the conduct of the detailed engineering activities for each phase as provided for in Item 2 of this Guidelines. ⁽ⁿ⁾
 5. As a requirement for the procurement of infrastructure works, the concerned consultants/government officials who prepared and approved the detailed engineering shall issue a certification that the detailed engineering surveys and designs have been conducted according to the prescribed agency standards and specifications in conformance with the provisions of this Annex, and that the detailed engineering outputs are adequate for the procurement at hand. The approval by the authorized government officials of detailed engineering surveys and designs undertaken by consultants neither diminishes the responsibility of the latter for the technical integrity of the surveys and designs nor transfer any part of that responsibility to the approving officials.
 6. The above rules shall apply to the implementation of infrastructure projects under normal or ordinary conditions. However, under emergency or extraordinary cases involving major calamities and disasters as declared by the President where time is of the essence to save lives and properties and restore damaged infrastructures, detailed engineering works shall be conducted in accordance with the guidelines and procedures, as prescribed by the head of the appropriate infrastructure agency and approved by the Infrastructure Committee of the National Economic and Development Authority Board, to enable quick response to said cases, while maintaining the safety and integrity of the structure.

ANNEX “B” GENERAL PRINCIPLES ON CONSULTING SERVICES

1. Definition

A natural or juridical person, qualified by appropriate education, training and relevant experience to render any or all of the types and fields of consulting services as defined in this IRR, shall be considered as a “Consultant,” subject to the requirements provided in this IRR for eligibility check and post-qualification.

2. The Need for Consultants

The services of consultants may be engaged by any procuring entity for government projects or related activities of such magnitude and/or scope as would require a level of expertise or attention beyond the optimum in-house capability of the procuring entity concerned and consistent with the Government’s policy not to compete with the private sector.

3. Independence of Consultants

To ensure the consultant’s professional independence, integrity, and objectivity, consultants, as well as key staff working for the consulting entity, who may be directly or indirectly associated with non-consulting firms that may have an interest in or bias towards the project concerned, shall be selected only if they agree to limit their role to that of consultants and will disqualify themselves and their affiliates for bidding for products and services of the same government project.

4. Hiring of Consultants

4.1 Consultants shall be hired on the basis of their proven expertise, experience and capability. Under certain conditions provided herein, cost may be included as a factor in the selection of consultants. In order to manifest trust and confidence in and promote the development of Filipino consultancy, Filipino consultants shall be hired whenever the services required for the project are within the expertise and capability of Filipino consultants: *Provided, however,* That in the event Filipino consultants do not have the sufficient expertise and capability to render the services required under the project, as determined by the Head of the Procuring Entity, foreign consultants may be hired.

4.3 In the hiring of foreign consultants, all pertinent laws and regulations of the Philippines shall be followed.

4.4 Technology and knowledge transfer to the procuring entity shall be required in the provision of consulting services, where applicable.

5. Organization of Consultants¹⁰⁷

5.1 The umbrella organization of consultants recognized by the Government shall be composed of the various organizations of consultants that may be engaged by the Government under this IRR and shall accredit its members on the types of services and fields of professions where the members are technically and financially qualified to offer their services. The umbrella organization shall prepare and certify a list of fields and expertise in such fields available with the names of the accredited local consultants which shall be updated annually or as often as necessary and

¹⁰⁷ Refer to Appendix 19 for the Revised Guidelines on the Recognition of Umbrella Organization of Consultants.

The 2016 Revised Implementing Rules and Regulations – Annex “B”

disseminate such list to concerned agencies of the Government. It shall likewise regulate its members for the development of the industry. The Government may consult and deal with this umbrella organization on matters relating to the industry. The GPPB shall be the appropriate government body that shall recognize the consultants' umbrella organization. The umbrella organization may submit its files of accredited consultants to the BAC of the procuring entity in accordance with the form prescribed by the BAC which can serve as registration of the consultants under the next succeeding Subsection: *Provided, however,* That each such accredited consultant shall comply with the eligibility requirements provided in this IRR. Such qualification statements, together with the list of accredited consultants prepared in accordance with the immediately preceding section, shall guide the BAC in determining the fields where Filipino consultants are already qualified and capable and where foreign consultants may not be required.

ANNEX “D”

**CONTRACT IMPLEMENTATION GUIDELINES FOR THE PROCUREMENT OF GOODS,
SUPPLIES AND MATERIALS**

1. Amendment to Order

- 1.1. Subject to the conditions set forth below, amendments to order may be issued at any time by the procuring entity concerned. If any such order increases or decreases the cost of, or the time required for executing any part of the work under the original contract, an equitable adjustment in contract price and/or delivery schedule shall be mutually agreed upon between the parties concerned, and the contract modified in writing.
- 1.2. An amendment to order may be issued only in emergency cases or during fortuitous events requiring necessary adjustments within the general scope of the contract in any one or more of the following is required in order to fully meet the requirements of the project:
 - a) drawings, design or specifications, if the goods to be furnished are to be specifically manufactured for the Government in accordance therewith;
 - b) method of shipment or packing; or
 - c) place of delivery.
- 1.3. An amendment to order may also be issued by the concerned procuring entity where there are additional items needed and necessary for the protection of the goods, which were not included in the original contract. Payments for these additional items shall be based on the unit prices in the original contract for items of goods similar to those in the original contract. If the contract does not contain any rate applicable to the additional items, then suitable prices shall mutually be agreed upon between the parties. Request for payment by the supplier for any additional items shall be accompanied by a statement with the approved supporting forms, giving a detailed accounting and record of amount for which it claims payment. The contract time shall likewise be extended if the acquisition of such additional items so warrants.
- 1.4. Under no circumstances shall a supplier proceed to commence work under any amendment to order unless the same has been approved by the Head of the Procuring Entity concerned or his duly authorized representative. As an exception to the rule, the Regional Director/Head concerned may authorize the immediate start of work under any amendment to order in the event of emergencies to avoid detriment to public service, or damage to life and/or property or when time is of the essence: Provided, however, That the same is valid only on items up to the point where the cumulative increase in the contract cost which has not yet been duly fully approved by the Head of the Procuring Entity concerned or his duly authorized representative does not exceed five percent (5%) of the original contract cost: Provided, further, That the corresponding amendment to order shall immediately be prepared and submitted for approval to the Head of the Procuring Entity concerned or his duly authorized representative. For an amendment to order involving a cumulative amount exceeding five percent (5%) of the original contract price, no work thereon shall be commenced unless the

The 2016 Revised Implementing Rules and Regulations – Annex “D”

same has been approved by the Head of Procuring Entity concerned or his duly authorized representative: *Provided*, That, the said cumulative amount does not exceed ten percent (10%) of the original contract price.

2. Suspension of Work

- 2.1 The procuring entity may suspend the work wholly or partly by written order for a certain period of time, as it deems necessary due to force majeure or any fortuitous events as defined in the contract. The supplier shall take all reasonable steps to minimize the costs allocable to the work covered by such order during work stoppage.
- 2.2 Before the suspension order expires, the procuring entity concerned shall either lift such order or terminate the work covered by the same. If the suspension order is lifted, or if the period of the order expires, the supplier shall have the right to resume work. Appropriate adjustments shall be made in the delivery or contract schedule, or contract price, or both, and the contract shall be modified accordingly.

3. Liquidated Damages

- 3.1 When the supplier fails to satisfactorily deliver goods under the contract within the specified delivery schedule, inclusive of duly granted time extensions, if any, the supplier shall be liable for damages for the delay and shall pay the procuring entity liquidated damages, not by way of penalty, an amount equal to one-tenth (1/10) of one percent (1%) of the cost of the delayed goods scheduled for delivery for every day of delay until such goods are finally delivered and accepted by the procuring entity concerned. The procuring entity need not prove that it has incurred actual damages to be entitled to liquidated damages. Such amount shall be deducted from any money due or which may become due to the supplier, or collected from any securities or warranties posted by the supplier, whichever is convenient to the procuring entity concerned. In case the total sum of liquidated damages reaches ten percent (10%) of the total contract price, the procuring entity concerned may rescind the contract and impose appropriate sanctions over and above the liquidated damages to be paid.¹¹³

4. Advance Payment

- 4.1 In accordance with Presidential Decree 1445, advance payment shall be made only after prior approval of the President, and shall not exceed fifteen percent (15%) of the contract amount, unless otherwise directed by the President; *Provided, however*, that for cases mentioned under 4.3, 4.4, and 4.5 of these guidelines, no prior approval by the President shall be necessary. All progress payments shall first be charged against the advance payment until the latter has been fully exhausted, unless otherwise approved by the President.
- 4.3 A single advance payment not to exceed fifty percent (50%) of the contract amount shall be allowed for contracts entered into by a procuring entity for the following services where requirement of down payment is a standard industry practice:
 - a) Hotel and restaurant services;
 - b) Use of conference/seminar and exhibit areas; and

¹¹³ As amended by GPPB Resolution No. 02-2020, dated 27 February 2020, published in the Philippine Star on 22 April 2020.

- 4.4 Advance payment not to exceed fifteen percent (15%) of the contract amount, unless otherwise directed by the President, shall also be allowed for procurement of goods required to address contingencies arising from natural or man-made calamities in areas where a “State of Calamity” has been declared by appropriate authorities.
- 4.5 Upon submission of an irrevocable letter of credit or bank guarantee issued by a Universal or Commercial Bank, advance payment not to exceed fifteen percent (15%) of the contract amount shall be allowed and paid within sixty (60) calendar days from signing of the contract. The irrevocable letter of credit or bank guarantee must be for an equivalent amount, shall remain valid until the goods are delivered, and accompanied by a claim for advance payment.

ANNEX “E”

**CONTRACT IMPLEMENTATION GUIDELINES FOR THE PROCUREMENT OF
INFRASTRUCTURE PROJECTS**

1. VARIATION ORDERS - CHANGE ORDER/EXTRA WORK ORDER

- 1.1. Variation Orders may be issued by the procuring entity to cover any increase/decrease in quantities, including the introduction of new work items that are not included in the original contract or reclassification of work items that are either due to change of plans, design or alignment to suit actual field conditions resulting in disparity between the preconstruction plans used for purposes of bidding and the "as staked plans" or construction drawings prepared after a joint survey by the contractor and the Government after award of the contract, provided that the cumulative amount of the positive or additive Variation Order does not exceed ten percent (10%) of the original contract price. The addition/deletion of works under Variation Orders should be within the general scope of the project as bid and awarded. The scope of works shall not be reduced so as to accommodate a positive Variation Order. A Variation Order may either be in the form of either a change order or extra work order.
- 1.2. A Change Order may be issued by the implementing official to cover any increase/decrease in quantities of original work items in the contract.
- 1.3. An Extra Work Order may be issued by the implementing official to cover the introduction of new work necessary for the completion, improvement or protection of the project which was not included as items of work in the original contract, such as, where there are subsurface or latent physical conditions at the site differing materially from those indicated in the contract, or where there are duly unknown physical conditions at the site of an unusual nature differing materially from those ordinarily encountered and generally recognized as inherent in the work or character provided for in the contract.
- 1.4. Any cumulative positive Variation Order beyond ten percent (10%) of the original contract price shall be subject of another contract to be bid out if the works are separable from the original contract. In exceptional cases where it is urgently necessary to complete the original scope of work, the Head of the Procuring Entity may authorize a positive variation order that will make the cumulative value of the positive Variation Orders go beyond ten percent (10%) but not more than twenty percent (20%) of the original contract price, subject to the guidelines to be determined by the GPPB: Provided, however, That appropriate sanctions shall be imposed on the designer, consultant or official responsible for the original detailed engineering design which failed to consider the Variation Order beyond ten percent (10%).
- 1.5. In claiming for any Variation Order, the contractor shall, within seven (7) calendar days after such work has been commenced pursuant to Item 3.2 hereof; or, within twenty eight (28) calendar days after the circumstances or reasons justifying a claim for extra cost shall have occurred, deliver a notice giving full and detailed particulars of any extra cost in order that it may be investigated at that time. Failure to provide either of such notices in the time stipulated shall constitute a waiver by the contractor for any claim. The preparation and submission of Variation Orders are as follows:

- a) If the procuring entity’s representative/Project Engineer believes that a Change Order or Extra Work Order should be issued, he shall prepare the proposed Order accompanied with the notices submitted by the contractor, the plans therefore, his computations as to the quantities of the additional works involved per item indicating the specific stations where such works are needed, the date of his inspections and investigations thereon, and the log book thereof, and a detailed estimate of the unit cost of such items of work, together with his justifications for the need of such Change Order or Extra Work Order, and shall submit the same to the Head of the Procuring Entity for approval.
- b) The Head of the Procuring Entity or his duly authorized representative upon receipt of the proposed Change Order or Extra Work Order shall immediately instruct the appropriate technical staff or office of the procuring entity to conduct an on-the-spot investigation to verify the need for the work to be prosecuted and to review the proposed plan, and prices of the work involved.
- c) The technical staff of appropriate office of the procuring entity shall submit a report of their findings and recommendations, together with the supporting documents, to the Head of the Procuring Entity or his duly authorized representative for consideration.
- d) The Head of the Procuring Entity or his duly authorized representative, acting upon the recommendation of the technical staff or appropriate office, shall approve the Change Order or Extra Work Order after being satisfied that the same is justified, necessary, and in order.
- e) The timeframe for the processing of Variation Orders from the preparation up to the approval by the procuring entity concerned shall not exceed thirty (30) calendar days.

2. ADDITIONAL/EXTRA WORK COSTING

2.1. For Variation Orders, the contractor shall be paid for additional work items whose unit prices shall be derived based on the following:

- a. For additional/extra works duly covered by Change Orders involving work items which are exactly the same or similar to those in the original contract, the applicable unit prices of work items original contract shall be used.
- b. For additional/extra works duly covered by Extra Work Orders involving new work items that are not in the original contract, the unit prices of the new work items shall be based on the direct unit costs used in the original contract (*e.g.*, unit cost of cement, rebars, form lumber, labor rate, equipment rental, etc.). All new components of the new work item shall be fixed prices, provided the same is acceptable to both the Government and the contractor, and provided further that the direct unit costs of new components shall be based on the contractor's estimate as validated by the procuring entity concerned via documented canvass in accordance with existing rules and regulations. The direct cost of the new work item shall

The 2016 Revised Implementing Rules and Regulations – Annex “E”

then be combined with the mark-up factor (*i.e.*, taxes and profit) used by the contractor in his bid to determine the unit price of the new work item.

- 2.2. Request for payment by the contractor for any extra work shall be accompanied by a statement, with the approved supporting forms, giving a detailed accounting and record of amount for which he claims payment. Said request for payment shall be included with the contractor's statement for progress payment.

3. CONDITIONS UNDER WHICH CONTRACTOR IS TO START WORK UNDER VARIATION ORDERS AND RECEIVE PAYMENTS

- 3.1. Under no circumstances shall a contractor proceed to commence work under any Change Order or Extra Work Order unless it has been approved by the Head of the Procuring Entity or his duly authorized representative.
- 3.2. However, under any of the following conditions, the procuring entity's representative/Project Engineer may, subject to the availability of funds and within the limits of his delegated authority, allow the immediate start of work under any Change Order or Extra Work Order:
 - i) In the event of an emergency where the prosecution of the work is urgent to avoid detriment to public service, or damage to life and/or property; and/or
 - ii) When time is of the essence;

Provided, however, That such approval is valid on work done up to the point where the cumulative increase in value of work on the project which has not yet been duly fully approved does not exceed five percent (5%) of the adjusted original contract price;

Provided, further, That immediately after the start of work, the corresponding Change Order or Extra Work Order shall be prepared and submitted for approval in accordance with the above rules herein set. Payments for works satisfactorily accomplished on any Change Order or Extra Work Order may be made only after approval of the same by the Head of the Procuring Entity or his duly authorized representative.

Provided, finally, That for a Change Order or Extra Work Order involving a cumulative amount exceeding five percent (5%) of the original contract price, no work thereon may be commenced unless said Change Order or Extra Work Order has been approved by the Head of the Procuring Entity or his duly authorized representative.

4. ADVANCE PAYMENT

- 4.1. The procuring entity shall, upon a written request of the contractor which shall be submitted as a contract document, make an advance payment to the contractor in an amount not exceeding fifteen percent (15%) of the total contract price, to be made in lump sum or, at the most, two installments according to a schedule specified in the Instructions to Bidders and other relevant Tender Documents.

- 4.2. The advance payment shall be made only upon the submission to and acceptance by the procuring entity of an irrevocable standby letter of credit of equivalent value from a commercial bank, a bank guarantee or a surety bond callable upon demand, issued by a surety or insurance company duly licensed by the Insurance Commission and confirmed by the procuring entity.
- 4.3. The advance payment shall be repaid by the contractor by deducting fifteen percent (15%) from his periodic progress payments a percentage equal to the percentage of the total contract price used for the advance payment.
- 4.4. The contractor may reduce his standby letter of credit or guarantee instrument by the amounts refunded by the Monthly Certificates in the advance payment.

5. PROGRESS PAYMENT

- 5.1. Once a month, the contractor may submit a statement of work accomplished (SWA) or progress billing and corresponding request for progress payment for work accomplished. The SWA should show the amounts which the contractor considers itself to be entitled to up to the end of the month, to cover (a) the cumulative value of the works it executed to date, based on the items in the Bill of Quantities, and (b) adjustments made for approved variation orders executed. Alternatively, the Procuring Entity may require in the Bidding Documents that statement of work accomplished or progress billing and the corresponding request for progress payment may only be submitted upon actual completion of the infrastructure project or a specific portion, segment, milestone or phase thereof.¹¹⁴_(a)
- 5.2. The procuring entity's representative/project engineer shall check the contractor's SWA and certify the amount to be paid to the contractor as progress payment. Except as otherwise stipulated in the Instruction to Bidders, materials and equipment delivered on the site but not completely put in place shall not be included for payment.¹¹⁵_(a)
- 5.3. The procuring entity shall deduct the following from the certified gross amounts to be paid to the contractor as progress payment:
 - a) Cumulative value of the work previously certified and paid for.
 - b) Portion of the advance payment to be recouped.¹¹⁶_(a)
 - c) Retention money in accordance with the condition of contract.
 - d) Amount to cover third party liabilities.
 - e) Amount to cover uncorrected discovered defects in the works.

6. RETENTION MONEY

- 6.1. Progress payments are subject to retention of ten percent (10%) referred to as the "retention money." Such retention shall be based on the total amount due to the contractor prior to any deduction and shall be retained from every progress payment until fifty percent (50%) of the value of works, as determined by the

¹¹⁴ As amended by GPPB Resolution No. 07-2018, dated 18 May 2018, published in the Official Gazette on 20 August 2018.

procuring entity, are completed. If, after fifty percent (50%) completion, the work is satisfactorily done and on schedule, no additional retention shall be made; otherwise, the ten percent (10%) retention shall be imposed.

- 6.2. The total "retention money" shall be due for release upon final acceptance of the works. The contractor may, however, request the substitution of the retention money for each progress billing with irrevocable standby letters of credit of from a commercial bank, bank guarantees or surety bonds callable on demand, of amounts equivalent to the retention money substituted for and acceptable to Government, provided that the project is on schedule and is satisfactorily undertaken. Otherwise, the ten percent (10%) retention shall be made. Said irrevocable standby letters of credit, bank guarantees and/or surety bonds, to be posted in favor of the Government shall be valid for a duration to be determined by the concerned implementing office/agency or procuring entity and will answer for the purpose for which the ten percent (10%) retention is intended, i.e., to cover uncorrected discovered defects and third party liabilities.

7. CONTRACT COMPLETION

Once the project reaches an accomplishment of ninety-five (95%) of the total contract amount, the procuring entity may create an inspectorate team to make preliminary inspection and submit a punch-list to the contractor in preparation for the final turnover of the project. Said punch-list will contain, among others, the remaining works, work deficiencies for necessary corrections, and the specific duration/time to fully complete the project considering the approved remaining contract time. This, however, shall not preclude the procuring entity's claim for liquidated damages.

8. NEGATIVE SLIPPAGE¹¹⁷

The Procuring Entity shall ensure the timely implementation of infrastructure projects by monitoring the performance of the contractors.¹¹⁸

When the contractor incurs negative slippage during the contract duration, the Procuring Entity shall implement the calibrated measures provided under GPPB Circular No. 03-2019 dated 8 March 2019, entitled "Guidance on Contract Termination due to Fifteen Percent (15%) Negative Slippage by the Contractor in Infrastructure Projects."¹¹⁹

9. LIQUIDATED DAMAGES

- 9.1. Once the contract duration expires, including any time extension duly granted, and¹²⁰ the contractor refuses or fails to satisfactorily complete the work, the Procuring Entity shall impose upon the contractor in default liquidated damages. Liquidated damage is an amount equal¹²¹ to at least one tenth (1/10) of one (1) percent of the cost of the unperformed portion of the works for every day of delay.

¹¹⁷ As amended by GPPB Resolution No. 02-2020, dated 27 February 2020, published in the Philippine Star on 22 April 2020.

The 2016 Revised Implementing Rules and Regulations – Annex “E”

- 9.2. In computing for liquidated damages, the Procuring Entity determines the usability of the project.¹²² A project or a portion thereof may be deemed usable when it starts to provide the desired benefits as certified by the targeted end-users and the concerned Procuring Entity.
- 9.3. To be entitled to such liquidated damages, the Procuring Entity does not have to prove that it has incurred actual damages. Such amount shall be deducted from any money due or which may become due the contractor under the contract or collect such liquidated damages from the retention money or other securities posted by the contractor, or a combination thereof,¹²³ whichever is convenient to the Procuring Entity.
- 9.4. In case the total sum of liquidated damages reaches ten percent (10%) of the total contract price, the Procuring Entity has the following options:¹²⁴
- 9.4.1. Terminate the contract pursuant to the Guidelines on Termination of Contract and forfeit the erring contractor’s performance security. After termination, the Procuring Entity may either (i) take over the contract; or (ii) resort to any of other alternative methods of procurement provided under R.A. No. 9184 and its 2016 revised rules and regulations; or¹²⁵
 - 9.4.2. Allow the contractor to continue the works without prejudice to the continued imposition of liquidated damages until the works have been completed. This does not, however, preclude the Procuring Entity in resorting to Termination of Contract under Annex I of the 2016 revised IRR of RA No. 9184.¹²⁶

10. SUSPENSION OF WORK

- 10.1. The procuring entity shall have the authority to suspend the work wholly or partly by written order for such period as may be deemed necessary, due to force majeure or any fortuitous events or for failure on the part of the contractor to correct bad conditions which are unsafe for workers or for the general public, to carry out valid orders given by the procuring entity or to perform any provisions of the contract, or due to adjustment of plans to suit field conditions as found necessary during construction. The contractor shall immediately comply with such order to suspend the work wholly or partly.
- 10.2. The contractor or its duly authorized representative shall have the right to suspend work operation on any or all projects/activities along the critical path of activities after fifteen (15) calendar days from date of receipt of written notice from the contractor to the district engineer/regional director/consultant or equivalent official, as the case may be, due to the following:
- a. There exist right-of-way problems which prohibit the contractor from performing work in accordance with the approved construction schedule.

¹²³ Ibid.

¹²⁴ Ibid.

¹²⁵ Ibid.

¹²⁶ Ibid.

The 2016 Revised Implementing Rules and Regulations – Annex “E”

- b. Requisite construction plans which must be owner-furnished are not issued to the contractor precluding any work called for by such plans.
 - c. Peace and order conditions make it extremely dangerous, if not possible, to work. However, this condition must be certified in writing by the Philippine National Police (PNP) station which has responsibility over the affected area and confirmed by the Department of Interior and Local Government (DILG) Regional Director.
 - d. There is failure on the part of the procuring entity to deliver government-furnished materials and equipment as stipulated in the contract.
 - e. Delay in the payment of contractor's claim for progress billing beyond forty-five (45) calendar days from the time the contractor's claim has been certified to by the procuring entity's authorized representative that the documents are complete unless there are justifiable reasons thereof which shall be communicated in writing to the contractor.
- 10.3. In case of total suspension, or suspension of activities along the critical path, which is not due to any fault of the contractor, the elapsed time between the effective order of suspending operation and the order to resume work shall be allowed the contractor by adjusting the contract time accordingly.

11. EXTENSION OF CONTRACT TIME

- 11.1. Should the amount of additional work of any kind or other special circumstances of any kind whatsoever occur such as to fairly entitle the contractor to an extension of contract time, the procuring entity shall determine the amount of such extension; provided that the procuring entity is not bound to take into account any claim for an extension of time unless the contractor has, prior to the expiration of the contract time and within thirty (30) calendar days after such work has been commenced or after the circumstances leading to such claim have arisen, delivered to the procuring entity notices in order that it could have investigated them at that time. Failure to provide such notice shall constitute a waiver by the contractor of any claim. Upon receipt of full and detailed particulars, the procuring entity shall examine the facts and extent of the delay and shall extend the contract time completing the contract work when, in the procuring entity's opinion, the findings of facts justify an extension.
- 11.2. No extension of contract time shall be granted the contractor due to (a) ordinary unfavorable weather conditions and (b) inexcusable failure or negligence of contractor to provide the required equipment, supplies or materials.
- 11.3. Extension of contract time may be granted only when the affected activities fall within the critical path of the PERT/CPM network.
- 11.4. No extension of contract time shall be granted when the reason given to support the request for extension was already considered in the determination of the original contract time during the conduct of detailed engineering and in the preparation of the contract documents as agreed upon by the parties before contract perfection.

11.5. Extension of contract time shall be granted for rainy/unworkable days considered unfavorable for the prosecution of the works at the site, based on the actual conditions obtained at the site, in excess of the number of rainy/unworkable days pre-determined by the government in relation to the original contract time during the conduct of detailed engineering and in the preparation of the contract documents as agreed upon by the parties before contract perfection, and/or for equivalent period of delay due to major calamities such as exceptionally destructive typhoons, floods and earthquakes, and epidemics, and for causes such as non-delivery on time of materials, working drawings, or written information to be furnished by the procuring entity, non-acquisition of permit to enter private properties within the right-of-way resulting in complete paralization of construction activities, and other meritorious causes as determined by the Government's authorized Engineer and approved by the procuring entity. Shortage of construction materials, general labor strikes, and peace and order problems that disrupt construction operations through no fault of the contractor may be considered as additional grounds for extension of contract time provided they are publicly felt and certified by appropriate government agencies such as DTI, DOLE, DILG, and DND, among others. The written consent of bondsmen must be attached to any request of the contractor for extension of contract time and submitted to the procuring entity for consideration and the validity of the performance security shall be correspondingly extended.

12. ACCREDITATION OF TESTING LABORATORIES

12.1. To help ensure the quality of materials being used in infrastructure projects, the Bureau of Research and Standards (BRS) of the DPWH, Department of Science and Technology (DOST), or Department of Trade and Industry (DTI) shall accredit, in accordance with industry guidelines, the testing laboratories whose services are engaged or to be engaged in infrastructure projects. All government infrastructure project owners must accept results of material test(s) coming only from DOST/BRS accredited laboratories.

13. EVALUATION OF CONTRACTORS PERFORMANCE

13.1. Subject and Scope

All Procuring Entities implementing government infrastructure projects are mandated to evaluate the performance of their contractors using the NEDA-Approved Constructors Performance Evaluation System (CPES) Guidelines for the type of project being implemented. These guidelines cover all infrastructure projects awarded by the government regardless of contract amount and funding source. CPES evaluation shall be done during construction and upon completion of each government project. To ensure continuous implementation of CPES, all Procuring Entities concerned are required to include in their Projects' Engineering and Administrative Overhead Cost the budget for the implementation of CPES pursuant to NEDA Board Resolution No. 18 (s. 2002).

13.2. Evaluation Guidelines

The 2016 Revised Implementing Rules and Regulations – Annex “E”

For project types which do not have specific CPES Guidelines, the Procuring Entities concerned may formulate and adopt their own implementing Guidelines specific to their needs provided the NEDA-INFRACOM poses no objections to their adoption, and provided further that said Guidelines are made known to all prospective bidders.

13.3. Implementation Mechanism for CPES

All Procuring Entities implementing infrastructure projects are required to establish CPES Implementing Units (IUs) in their respective offices/agencies/corporations. The CPES Implementing Units shall be responsible for the implementation of the CPES Implementing guidelines, including but not limited to, the supervision of Constructors Performance Evaluators (CPEs) to be accredited by the Construction Industry Authority of the Philippines (CIAP). The procuring entity's CPES IU shall be responsible for the following: a) pre-screening of applications of CPEs, b) funding for CPEs accreditation training and seminars; and c) yearly evaluation of CPEs.

13.4. Submission and Dissemination of Evaluation Results

All Procuring Entities implementing CPES shall submit the results of their performance evaluation to the CIAP on a monthly basis or as often as necessary. The procuring entity's CPES-IU shall likewise develop and maintain a databank and disseminate the CPES reports to the concerned units/departments within the procuring entity and to other interested users.

13.5. Utilization of Evaluation Results

The CIAP shall consolidate all of the CPES evaluation results received and shall disseminate the same to all Procuring Entities concerned. The CPES rating and other information shall be used by the concerned government agencies for the following purposes: (a) pre-qualification/eligibility screening of constructors; (b) awarding of contracts; (c) project monitoring and control; (d) issuance of Certificate of Completion; (e) policy formulation/review; (f) industry planning; (g) granting of Incentives/Awards, and, in adopting measure to further improve performance of contractors in the prosecution of government projects.

14. OTHER RULES AND GUIDELINES

The rules and regulations for the other aspects of contract implementation shall be included in the manuals to be issued by the GPPB, such as, but not limited to, the following:

- a) Sub-contracting;
- b) Interference with Traffic and Adjoining Properties;
- c) Clearance of Project Site of Obstruction;
- d) Inspection and Testing;
- e) Daywork;
- f) Measurement of Works; and
- g) Other Implementation Aspects.

ANNEX “F”
CONTRACT IMPLEMENTATION GUIDELINES FOR THE PROCUREMENT OF
CONSULTING SERVICES

1. Advance Payment for Mobilization

The Government, as it considers fair and reasonable, may allow advance payment to the Consultant in the amount which shall not exceed fifteen percent (15%) of the contract amount to cover the cost of mobilization, subject to the posting of an irrevocable standby letter of credit issued by an entity acceptable to the agency and of an amount equal to the advance payment. The advance payment shall be repaid by the Consultant by deducting from his progress payments such sum as agreed upon during the contract negotiations until fully liquidated within the duration of the contract.

2. Cost of Consulting Services

All Consultancy contracts shall be fixed price contracts. Any extension of contract time shall not involve any additional cost.

3. Other Rules and Guidelines

The rules and regulations for the other aspects of contract implementation shall be included in the manuals to be issued by the GPPB.

ANNEX “G”

**GUIDELINES FOR THE PROCUREMENT AND IMPLEMENTATION OF CONTRACTS
FOR DESIGN AND BUILD INFRASTRUCTURE PROJECTS**

1. SCOPE AND APPLICATION

These guidelines shall govern the procurement and implementation of contracts for design and build infrastructure projects and shall supplement applicable provisions of Republic Act No. 9184 (RA 9184) and its Revised Implementing Rules and Regulations (IRR) in particular Section 17.6 and Annex E.

2. PURPOSE

These guidelines are formulated to determine the conditions for the use of the design and build scheme for infrastructure projects and the procedures for the implementation thereof.

3. GUIDING PRINCIPLES

The procuring entity, prior to resorting to the design and build scheme, should consider the following advantages and disadvantages of said scheme:

3.1. Advantages:

- a) Since both design and construction are in the hands of the contractor, there is a single point of responsibility for quality, cost, and schedule adherence, including the risks related to design. This precludes buck-passing and finger-pointing between the designer and the builder.
- b) Because design and construction periods can overlap, the total design and construction time, as well as the final project cost, will be significantly reduced.
- c) The procuring entity is assured of quality considering that the larger responsibility implicit in the design-build scheme serves as motivation for high quality of the facility to be provided. Once the requirements of the procuring entity are defined in performance terms, the designer-builder is responsible for producing the results accordingly. The designer-builder warrants to the procuring entity that the design documents are complete and free from error.
- d) The procuring entity does not need to spend much time and money in seeing to it that the work is done by the contractor exactly as indicated by the design documents prepared by the designer, and in coordinating and arbitrating between separate design and construction contracts.

3.2. Disadvantages:

- a) Procuring Entities should, however, take into account that in utilizing the design and build scheme for a particular project, contractors are given too much discretion in determining the project cost and there is difficulty in predicting its final cost until the actual commencement of construction.

The 2016 Revised Implementing Rules and Regulations – Annex “G”

This, however, can be addressed by prescribing that the bid/contract price should not exceed the Approved Budget for Contract (ABC) of the procuring entity and that the contract price is a fixed lump sum amount.

- b) Considering that the extent of the integration of design and construction of the project is exceptionally dependent on the contractor, there may be cases when the end-result may not be exactly in accordance with what the procuring entity has required. These cases can be avoided if the procuring entity adequately defines the output or performance specifications and parameters.

4. DEFINITION OF TERMS

- a. **Approved Budget for the Contract (ABC).** This shall be a lump sum amount that shall cover the cost of design and construction works (*at the option of the procuring entity*) based on the conceptual design and performance specifications and in accordance with applicable provisions of the law or agency guidelines. The ABC shall be calculated based on either the approximate quantities of work of the conceptual design, from standardized designs or from cost records of previous projects of similar kind.
- b. **Bidding Documents for Design and Build Scheme.** These shall basically be similar to the Bidding Documents for infrastructure projects and shall also include the performance specifications and parameters to be followed by the design and build contractors and the method for allocation of risks for the design and build contract, among others.
- c. **Conceptual Design.** This shall describe the general idea of the procuring entity with regard to the completed facility and shall identify the scope or physical components and structures, specific outputs and requirements of the structures and proposed methods of construction, where necessary.
- d. **Design and Build Projects.** This refers to infrastructure projects where the procuring entity awards a single contract for the architectural/engineering design and construction to a single firm, partnership, corporation, joint venture or consortium.
- e. **Performance Specifications and Parameters.** The procuring entity shall define the required performance specifications and criteria and its means of measurement based on the operating outputs and in accordance with appropriate design and construction standards, legal and technical obligations and any other relevant government commitments as required by existing laws and regulations. It shall not be drawn up to favor a particular solution, design and construction method.
- f. **Preliminary Investigations.** These shall include, among others, information on soil, geotechnical, hydrologic, hydraulic, seismic, traffic, and environmental conditions that shall be used to define project design criteria, to set the basis for any changed conditions and establish preliminary project cost estimates.
- g. **Preliminary Survey and Mapping.** These shall determine boundaries and provide stationing along control lines to establish feature and design criteria

The 2016 Revised Implementing Rules and Regulations – Annex “G”

location, and identify existing and future right-of-way limits and construction easements associated with the procuring entity’s conceptual design.

- h. **Project Description.** This shall define the objectives, purpose, limitations or constraints, as well as the allocation of risks between the procuring entity and the winning bidder.
- i. **Utility Locations.** The procuring entity shall provide information on existing utilities in and around the project’s area.

5. CONDITIONS FOR THE USE OF THE DESIGN AND BUILD SCHEME

5.1. The Design and Build scheme shall be applied under any of the following cases:

- a. For flagship, priority and fast track projects that need to be completed on a tight completion schedule, as included in the Medium-Term Public Investment Program (MTPIP) for national projects and in the Regional Development Investment Plan (RDIP) for regional and provincial projects;
- b. For infrastructure projects requiring advanced engineering or construction technologies or whose intellectual property rights belong to private companies;
- c. For infrastructure projects where design, equipment, plant and construction can be provided exclusively by a company or where manufacturer’s know-how is important in the construction of such facility; or
- d. For small projects where there are previously approved drawings or standardized designs and an innovation in design and construction methods under the design and build scheme will result in lower costs and higher quality projects. Examples of these are school buildings, rural health units, among others.

5.2. All design and build projects shall be included in the Annual Procurement Plan (APP) of the procuring entity concerned and shall be subject to prior approval by the Head of the Procuring Entity or his/her duly authorized representative.

6. CREATION OF DESIGN and BUILD COMMITTEE

The procuring entity may create a Design and Build Committee (DBC) composed of highly technical personnel experienced in the field of architecture, engineering and construction in the particular type of project to be bid. The DBC shall assist the project management office (PMO) in the preparation of the conceptual design and performance specifications and parameters, review of detailed engineering design and supervision of the project. It shall, likewise, assist the Bids and Awards Committee (BAC) and the Technical Working Group (TWG) in the evaluation of technical proposals in accordance with the criteria set in the Bidding Documents.

7. PRELIMINARY DESIGN AND CONSTRUCTION STUDIES

No bidding and award of design and build contracts shall be made unless the required preliminary design and construction studies have been sufficiently carried out and duly

The 2016 Revised Implementing Rules and Regulations – Annex “G”

approved by the Head of the Procuring Entity that shall include, among others, the following:

- i. Project Description
- ii. Conceptual Design
- iii. Performance Specifications and Parameters
- iv. Preliminary Survey and Mapping
- v. Preliminary Investigations
- vi. Utility Locations
- vii. Approved Budget for the Contract
- viii. Proposed Design and Construction Schedule
- ix. Minimum requirements for a Construction Safety and Health Program for the project being considered
- x. Tender/Bidding Documents, including Instructions to Bidders and Conditions of Contract

The above data are for reference only. The procuring entity does not guarantee that these data are fully correct, up to date, and applicable to the project at hand. The contractor is responsible for the accuracy and applicability of all data, including the above, that it will use in its design and build proposal and services.

The acquisition of right-of-way and the conduct of eminent domain proceedings shall still be the responsibility of the procuring entity, which shall include a preliminary budget for this purpose.

8. DETAILED ENGINEERING REQUIREMENTS

- 8.1. Upon award of the design and build contract, the winning bidder shall be responsible for the preparation and submission of all necessary detailed engineering investigations, surveys and designs in accordance with the provisions of Annex “A” of this IRR (with the exception of the Bidding Documents and the ABC).
- 8.2. The procuring entity shall ensure that all the necessary schedules with regard to the submission, confirmation and approval of the detailed engineering design and the details of the construction methods and procedures shall be included in the contract documents.
- 8.3. The procuring entity shall review, order rectification, and approve or disapprove – for implementation only - the submitted plans within these schedules. All instructions for rectification shall be in writing stating the reasons for such rectification. The design and build contractor shall be solely responsible for the

The 2016 Revised Implementing Rules and Regulations – Annex “G”

integrity of the detailed engineering design and the performance of the structure irrespective of the approval/confirmation by the procuring entity.

9. ELIGIBILITY REQUIREMENTS

9.1. The eligibility requirements for Design and Build infrastructure projects shall comply with the applicable provisions of Sections 23 to 24 of IRR.

9.2. A modified set of requirements integrating eligibility documents and criteria for infrastructure projects and consulting services shall be adopted, as follows:

i. Class “A” Documents (Legal, Technical and Financial Documents) and Class “B” Documents

The prospective bidder shall submit all the required Class “A” and Class “B” documents for infrastructure projects and the following:

- a) relevant statements of all on-going, completed, awarded but not yet started design/design and build related contracts, curriculum vitae of key staff, partners or principal officers; and
- b) valid licenses issued by the Professional Regulatory Commission (PRC) for design professionals. ^(a)

ii. Eligibility Criteria

- a) The eligibility of design and build contractors shall be based on the legal, technical and financial requirements abovementioned. In the technical requirements, the design and build contractor (as solo or in joint venture/consortia) should be able to comply with the experience requirement under the IRR of R.A. 9184, where one of the parties (in a joint venture/consortia) should have at least one similar project, both in design and construction, with at least 50% of the cost of the ABC.
- b) If the bidder has no experience in design and build projects on its own it may enter into subcontracting, partnerships, or joint venture with design or engineering firms for the design portion of the contract.
- c) The relevant provisions under Section 23.4.2 of the IRR of R.A, 9184 on eligibility requirements shall be observed, with the following exceptions:

Joint ventures/consortia among Filipino contractors and consultants or among Filipino contractors and foreign consultants shall be allowed subject to pertinent laws and the relevant provisions of the IRR of R.A. 9184. The joint venture/consortia shall be jointly and severally responsible for the obligations and the civil liabilities arising from the design and build contract: *Provided, however,* That Filipino ownership or interest thereof shall be at least seventy five percent (75%); *Provided further,* That joint ventures/consortia in which Filipino ownership or

interest is less than seventy-five percent (75%) may be eligible where the structures to be built require the application of techniques and/or technologies which are not adequately possessed by Filipinos and that Filipino ownership or interest shall not be less than twenty-five percent (25%): *Provided, finally*, that when the design services in which the joint venture wishes to engage involve the practice of professions regulated by law, all those who will actually perform the services shall be Filipino citizens and registered professionals authorized by the appropriate regulatory body to practice those professions and allied professions and where foreign designers are required, the foreign designer must be authorized by the appropriate Philippine Government professional regulatory body to engage in the practice of those professions and allied professions.

10. SUBMISSION AND RECEIPT OF BIDS

10.1. In the submission of bids, the first envelope (Technical Proposal) shall contain all the required documents for infrastructure projects under Section 25.2(b) of the IRR of R.A 9184 and the following additional documents:

- i. Preliminary Conceptual Design Plans in accordance with the degree of details specified by the procuring entity;
- ii. Design and construction methods;
- iii. List of design and construction personnel, to be assigned to the contract to be bid, with their complete qualification and experience data; and
- iv. Value engineering analysis of design and construction method.

10.2. The second envelope (Financial Proposal) shall contain all the required documents for infrastructure projects under Section 25.3 of the IRR of R.A 9184 and the following additional documents:

- i. Lump sum bid prices, which shall include the detailed engineering cost, in the prescribed Bid Form;

- iii. Cash flow by the quarter and payments schedule.

11. BID EVALUATION

For the detailed evaluation of the design and build proposals a two-step procedure shall be adopted by the BAC, which may be undertaken with the assistance of the DBC.

11.1. First-Step Procedure:

- i. The first step of the evaluation shall involve the review of the preliminary conceptual designs and track record submitted by the contractor as indicated in the Bidding Documents using a non-discretionary “pass/fail” criteria that involve compliance with the following requirements:
 - a. Adherence of preliminary design plans to the required performance specifications and parameters and degree of details;
 - b. Concept of approach and methodology for detailed engineering, design and construction with emphasis on the clarity, feasibility, innovativeness and comprehensiveness of the plan approach, and the quality of interpretation of project problems, risks, and suggested solutions;
 - c. Quality of personnel to be assigned to the project which covers suitability of key staff to perform the duties of the particular assignments and general qualifications and competence including education and training of the key staff;
- ii. For complex or unique undertakings, such as those involving highly specialized or advanced engineering technology, eligible bidders may be required, at the option of the agency concerned, to make an oral presentation within fifteen (15) calendar days after the deadline for submission of technical proposals.

11.2. Second-Step Procedure:

Only those bids that passed the above criteria shall be subjected to the second step of evaluation.

The BAC shall open the financial proposal of each “passed” bidder and shall evaluate it using non-discretionary criteria - including arithmetical corrections for computational errors - as stated in the Bidding Documents, and thus determine the correct total calculated bid prices. The BAC shall automatically disqualify any total calculated bid price which exceeds the ABC. The total calculated bid prices (not exceeding the ABC) shall be ranked, in ascending order, from lowest to highest. The bid with the lowest total calculated bid price shall be identified as the Lowest Calculated Bid (LCB).

12. POST-QUALIFICATION and AWARD OF THE CONTRACT

- 12.1. The LCB shall be subject to post-qualification in accordance with Section 34, Rule X of this IRR to determine its responsiveness to the eligibility and bid requirements. If after post-qualification the Lowest Calculated Bid is determined to be post-qualified it shall be considered the Lowest Calculated and Responsive Bid (LCRB) and the contract shall be awarded to the bidder. In case of post-disqualification of the LCB, the procedure under Section 34 shall also be followed.

The 2016 Revised Implementing Rules and Regulations – Annex “G”

- 12.2. The Head of the Procuring Entity shall approve or disapprove the recommendations of the BAC within a period not exceeding fifteen (15) calendar days from the determination and declaration by the BAC of the LCRB.
- 12.3. The Head of the Procuring Entity concerned shall award the contract to the said bidder pursuant to the provisions of Section 37, Rule XI of this IRR.

13. CONTRACT IMPLEMENTATION

As a rule, contract implementation guidelines for the procurement of infrastructure projects shall comply with Annex “E” of this IRR. The following provisions shall supplement these procedures:

- 13.3. The Contractor shall submit a detailed program of work within fourteen (14) calendar days after the issuance of the Notice to Proceed for approval by the procuring entity that shall include, among others:
 - i. The order in which it intends to carry out the work including anticipated timing for each stage of design/detailed engineering and construction;
 - ii. Periods for review of specific outputs and any other submissions and approvals;
 - iii. Sequence of timing for inspections and tests as specified in the contract documents;
 - iv. General description of the design and construction methods to be adopted;
 - v. Number and names of personnel to be assigned for each stage of the work;
 - vi. List of equipment required on site for each major stage of the work; and
 - vii. Description of the quality control system to be utilized for the project.
- 13.4. Any errors, omissions, inconsistencies, inadequacies or failure submitted by the contractor that do not comply with the requirements shall be rectified,

The 2016 Revised Implementing Rules and Regulations – Annex “G”

resubmitted and reviewed at the contractor’s cost. If the Contractor wishes to modify any design or document which has been previously submitted, reviewed and approved, the contractor shall notify the procuring entity within a reasonable period of time and shall shoulder the cost of such changes.

- 13.5. As a rule, changes in design and construction requirements shall be limited only to those that have not been anticipated in the contract documents prior to contract signing and approval. The following guidelines shall govern approval for change or variation orders:
 - i. Change Orders resulting from design errors, omissions or non-conformance with the performance specifications and parameters and the contract documents by the contractor shall be implemented by the contractor at no additional cost to the procuring entity.
 - ii. Provided that the contractor suffers delay and/or incurs costs due to changes or errors in the procuring entity’s performance specifications and parameters, he shall be entitled to either one of the following:
 - a. an extension of time for any such delays under Section 10 of Annex “E”; or
 - b. payment for such costs as specified in the contract documents, provided, that the cumulative amount of the variation order does not exceed ten percent (10%) of the original contract price.
- 13.6. The contract documents shall include the manner and schedule of payment specifying the estimated contract amount and installments in which the contract price will be paid.
- 13.7. The contractor shall be entitled to advance payment subject to the provisions of Section 4 of Annex “E”.
- 13.8. The procuring entity shall define the quality control procedures for the design and construction in accordance with agency guidelines and shall issue the proper certificates of acceptance for sections of the works or the whole of the works as provided for in the contract documents.
- 13.9. The contractor shall provide all necessary equipment, personnel, instruments, documents and others to carry out specified tests.
- 13.10. All design and build projects shall have a minimum Defects Liability Period of one (1) year after contract completion or as provided for in the contract documents. This is without prejudice, however, to the liabilities imposed upon the engineer/architect who drew up the plans and specification for a building sanctioned under Article 1723 of the New Civil Code of the Philippines.
- 13.11. The contractor shall be held liable for design and structural defects and/or failure of the completed project within the warranty periods specified in Section 62.2.3.2 of the IRR.

14. AMENDMENTS AND FORMS

In the implementation of these guidelines, the GPPB may issue additional guidelines or introduce modifications thereto through the amendment of its specific provisions as the need arises, as well as, formulate, approve and disseminate standard Bidding Documents, forms and evaluation documents, whenever necessary.

**ANNEX “H”
CONSOLIDATED GUIDELINES FOR THE ALTERNATIVE METHODS OF
PROCUREMENT**

I. POLICY STATEMENT

As a general rule, all procurement shall be through Competitive Bidding. However, whenever justified by the conditions provided in Republic Act No. (R.A.) 9184 and its revised Implementing Rules and Regulations (IRR), the Procuring Entity may, in order to promote economy and efficiency, resort to any of the alternative methods of procurement provided in Rule XVI of the IRR of R.A. 9184.

The Alternative Methods of Procurement shall be resorted to only in the highly exceptional cases provided for in this Guidelines and subject to the prior approval of the Head of the Procuring Entity (HOPE) upon recommendation of the Bids and Awards Committee (BAC). In all instances, the Procuring Entity shall ensure that the most advantageous price for the Government is obtained.

II. PURPOSE

III. SCOPE

This Guidelines shall apply to the national government, its branches, constitutional offices, departments, bureaus, offices and agencies, including state universities and colleges, government-owned and/or -controlled corporations, government financial institutions, and local government units.

Excluded from this Guidelines are the following:

- A. Infrastructure projects undertaken through the Armed Forces of the Philippines Corps of Engineers (AFPCOE), for purposes of Sections 53.2 (Emergency Cases) and 53.5 (Agency-to-Agency) of the IRR of R.A. 9184, which shall continue to be governed by the Guidelines on the Implementation of Infrastructure Projects Undertaken by the AFP Corps of Engineers under GPPB Resolution No. 09-2005.

For infrastructure projects to be implemented by phases, the Procuring Entity shall ensure that there is a clear delineation of work for each phase, which must be usable and structurally sound. It shall also ensure the conduct of the detailed engineering activities for each phase as provided for in Annex “A” of the IRR of R.A. 9184.

- C. Unnecessary, Excessive, Extravagant and Unconscionable Expenditures.** The Procuring Entity shall ensure that the objectives and purpose of the contract do not constitute an unnecessary, excessive, extravagant, or unconscionable expenditure.

V. SPECIFIC GUIDELINES

A. DIRECT CONTRACTING¹³⁷

¹³⁷ Section 50, R.A. No. 9184 and its IRR.

The 2016 Revised Implementing Rules and Regulations – Annex “H”

1. **Definition.** Direct Contracting or single source procurement is a method of procurement of goods that does not require elaborate Bidding Documents. The supplier is simply asked to submit a price quotation or a pro-forma invoice together with the conditions of sale. The offer may be accepted immediately or after some negotiations. Direct Contracting may be resorted to under any of the following conditions:
 - a) Procurement of goods of proprietary nature which can be obtained only from the proprietary source, *i.e.*, when patents, trade secrets, and copyrights prohibit others from manufacturing the same item;
 - b) When the procurement of critical components from a specific supplier is a condition precedent to hold a contractor to guarantee its project performance, in accordance with the provisions of its contract; or
 - c) Those sold by an exclusive dealer or manufacturer which does not have sub-dealers selling at lower prices and for which no suitable substitute can be obtained at more advantageous terms to the government.

To justify the need to procure through the Direct Contracting method, the End-User should conduct a survey of the industry and determine the supply source. In all cases where Direct Contracting is contemplated, the survey must be conducted prior to the commencement of the procurement process. Moreover, the End-User must justify the necessity for an item that may only be procured through Direct Contracting, and it must be able to prove that there is no suitable substitute in the market that can be obtained at more advantageous terms.

2. **Procedure**

- a) The BAC shall prepare the RFQ or pro-forma invoice together with the terms and conditions of sale, and shall send the same to the identified direct supplier.
- b) Simplified negotiations on the terms and conditions of the contract may be conducted by the BAC to ensure that the supplier is technically, legally and financially capable to deliver the goods at the most advantageous price and contract for the Government.
- c) The BAC shall recommend to the HOPE the award of contract in favor of the supplier. Award of contract shall be made in accordance with Section IV(L) of this Guidelines.

B. REPEAT ORDER¹³⁸

1. **Definition.** *Repeat Order* is a method of procurement of goods from the previous winning bidder, whenever there is a need to replenish goods subject to the following conditions:

¹³⁸ Section 51, R.A. No. 9184 and its IRR.

- a) The goods were procured under a contract previously awarded through Competitive Bidding;
- b) Unit prices must be the same as or lower than those in the original contract, provided that such prices are still the most advantageous to the government after price verification;
- c) The repeat order will not result in splitting of contracts, requisitions, or purchase orders, as provided for in Article IV(B) of this Guidelines;
- d) Except in cases duly approved by the GPPB, repeat orders shall be availed of only within six (6) months from the date of the NTP arising from the original contract, provided that there has been a partial delivery, inspection and acceptance of the goods within the same period;
- e) Repeat orders shall not exceed twenty-five percent (25%) of the quantity of each item in the original contract. In order not to exceed the 25% threshold, the goods under the original contract must be:
 - i. Quantifiable;
 - ii. Divisible; and
 - iii. Consisting of at least four (4) units per item.

2. Procedure

- a) Upon determination of the need to replenish the goods earlier procured through competitive bidding, the End-User unit shall prepare the necessary Purchase Request for the procurement of additional goods, after a careful study and confirmation of the prevailing market price of the goods to be re-ordered and comparing this with the price of the goods in the original contract, accompanied by the appropriate justification why the re-ordering is being pursued.
- b) When all the conditions are present, the BAC shall recommend to the HOPE the award of contract through Repeat Order. Award of contract shall be made in accordance with Section IV(L) of this Guidelines.

C. SHOPPING¹³⁹

1. **Definition.** *Shopping* is a method of procurement of goods whereby the Procuring Entity simply requests for the submission of price quotations for readily available off-the-shelf goods or ordinary/regular equipment to be procured directly from suppliers of known qualifications. - vii. The BAC shall validate the technical, legal and financial capability of the supplier to supply and deliver the goods.
- viii. Upon confirmation and ascertainment of such capability, the BAC shall recommend to the HOPE the award of contract in favor of the supplier with the Lowest Calculated and Responsive Quotation. In case of approval, the HOPE shall immediately enter into a contract with the said supplier.

D. **NEGOTIATED PROCUREMENT.**¹⁴⁰ *Negotiated Procurement* is a method of procurement of Goods, Infrastructure Projects and Consulting Services, whereby the Procuring Entity directly negotiates a contract with a technically, legally and financially capable supplier, contractor or consultant in any of the following cases:

1. **TWO FAILED BIDDINGS**¹⁴¹

- a) **Definition.** Where there has been failure of competitive bidding or Limited Source Bidding for the second time as provided for in Section 35 of RA 9184 and its IRR, when:
 - i. No bids are received;
 - ii. All prospective bidders are declared ineligible;
 - iii. All bids fail to comply with all the bid requirements or fail post-qualification, or, in the case of consulting services, there is no successful negotiation; or
 - iv. The bidder with the Lowest/Single Calculated Responsive Bid or Highest/Single Rated Responsive Bid refuses, without justifiable cause, to accept the award of contract, and no award is made in accordance with Section 40 of RA 9184 and its IRR.
- b) **Procedures**
 - i. After conduct of the mandatory review of the terms, conditions, specifications, and cost estimates, as prescribed in Section 35 of the IRR, the BAC, based on its findings, as assisted by its Secretariat, TWG and End-User unit may revise and agree on the technical, legal and financial eligibility requirements and technical specifications or terms of reference, and if necessary, adjust the ABC, subject to the required approvals. However, the ABC cannot be increased by more than twenty percent (20%) of the ABC for the last failed bidding.

¹⁴⁰ Section 53, R.A. No. 9184 and its IRR.

¹⁴¹ Section 53.1, IRR of R.A. No. 9184.

- ii. The BAC shall invite at least three (3) suppliers, contractors or consultants, including those disqualified in previous biddings for the project, for negotiations to ensure effective competition. This, notwithstanding, those who responded through any of the required postings shall be allowed to participate. Even if only one (1) bidder should respond to such invitation or posting, the BAC shall proceed with the negotiation subject to the rules prescribed hereunder.
- iii. Any requirements, guidelines, documents, clarifications, or other information relative to the negotiations that are communicated by the BAC to a supplier, contractor, or consultant shall be communicated on an equal basis to all other suppliers, contractors, or consultants engaging in negotiations with the BAC relative to the procurement. The prospective bidders shall be given equal time and opportunity to negotiate and discuss the technical and financial requirements of the project to be able to submit a responsive quotation or proposal.
- iv. Following completion of the negotiations, the BAC shall request all suppliers, contractors, or consultants in the proceedings to submit, on a specified date, a best offer based on the final technical and financial requirements. Pursuant to Section IV(G) of this Guidelines, the Procuring Entity shall require the submission of a Certificate of PhilGEPS Registration in accordance with Section 8.5.2 of the IRR of RA 9184.
- v. The BAC shall recommend award of contract to the HOPE in favor of the supplier, contractor or consultant determined to have the Single or Lowest Calculated and Responsive Quotation (for goods and infrastructure projects) or Single or Highest Rated and Responsive Proposal (for consulting services). Award of contract shall be made in accordance with Section IV(L) of this Guidelines.

2. **EMERGENCY CASES.**¹⁴²

a) **Instances when Negotiated Procurement under Emergency Cases may be resorted to:**

- i. In case of imminent danger to life or property during a state of calamity, or
- ii. When time is of the essence arising from natural or man-made calamities or
- iii. Other causes where immediate action is necessary:
 - a) to prevent damage to or loss of life or property, or
 - b) to restore vital public services, infrastructure facilities and other public utilities.

¹⁴² Section 53.2, IRR of R.A. No. 9184.

The instances or situations where the foregoing conditions may be applied include the provision of immediate response and initial recovery steps to avoid loss of life, injury, disease and other negative effects on human, physical, mental and social well-being, together with damage to property, destruction of assets, loss of services, social and economic disruption and environmental degradation.¹⁴³

The BAC or the End-user unit or any other appropriate bureau, committee, support or procuring unit shall recommend to the HoPE any revision of the Annual Procurement Plan (APP) to cover the Procurement Project that will be resorting to Negotiated Procurement (Emergency Cases) under Section 53.2 of the 2016 revised IRR subject to the validation by the appropriate office in the Procuring Entity that there are funds in the budget to cover for the same.¹⁴⁴

The proposed APP revision(s) may only be approved by the HoPE upon its confirmation of the existence and veracity of the ground(s) relied upon in resorting to Negotiated Procurement (Emergency Cases) under Section 53.2 of the 2016 revised IRR.¹⁴⁵

Considering that the underlying reason to support a Negotiated Procurement through the Emergency modality relates to “time element” as when there is – a) imminent danger to life or property; or, b) when time is of the essence; or, c) immediate action is necessary, the Procuring Entity, through the HOPE, BAC, its Secretariat and End-User unit, should consider appropriate timing or the proximity of time between the actual procurement activity to be conducted and the emergency sought to be addressed, such that when the reason or cause for the emergency has already been abated, adoption of competitive bidding as the primary mode of procurement shall be considered.

When the ground is based on imminent danger to life during a state of calamity, there must be a declaration by a competent authority of a state of calamity pursuant to existing laws, rules and regulations before any procurement activity may be undertaken.¹⁴⁶

The procurement Projects that may be covered by this Section or Negotiated Procurement (Emergency Cases) under Section 53.2 of the 2016 revised IRR include the lease of real property or venue for use as quarantine centers, evacuation sites, medical relief and aid distribution locations, warehousing facilities, or similar temporary disaster or emergency response facility.¹⁴⁷

b) Procedure

- i. The End-User unit or the duly authorized official or personnel shall submit a request to the BAC or the HOPE, as the case may be, accompanied by appropriate supporting documents identifying the

- ii. The BAC or the End-user unit or any other appropriate bureau, committee, support or procuring unit shall recommend to the HoPE any revision of the Annual Procurement Plan (APP) to cover the Procurement Project that will be subject to Negotiated Procurement (Emergency Cases) under Section 53.2 of the 2016 revised IRR subject to the validation by the appropriate office in the Procuring Entity that there are funds in the budget to cover for the same.¹⁴⁸
- iii. The HoPE may delegate to either the BAC or the End-user unit or any other appropriate bureau, committee, support or procuring unit the authority to directly negotiate with a legally, technically, and financially capable supplier, contractor, or consultant for procurement undertaken through any of the allowable instances of Negotiated Procurement (Emergency Cases) under Section 53.2 of the 2016 revised IRR.¹⁴⁹
- iv. Upon confirmation and ascertainment of such capability to address the emergency, the HoPE, upon recommendation of the BAC or the End-user unit or any other appropriate bureau, committee, support or procuring unit, authorize for the purpose¹⁵⁰ shall immediately award the contract to the Supplier, Contractor or Consultant.

3. TAKE-OVER OF CONTRACTS¹⁵¹

a) Instances when Take-over of contracts may be resorted to:

- i. The contract, previously awarded through Competitive Bidding, has been rescinded or terminated for causes provided for in the contract and existing laws; and
- ii. Where immediate action is necessary:
 - a) to prevent damage to or loss of life or property, or
 - b) to restore vital public services, infrastructure facilities and other public utilities.

b) Procedure

- i. The BAC shall post-qualify and negotiate with the second lowest calculated/highest rated bidder for the project under consideration at the said bidder's own original bid price, applicable to the remaining works to be done. Authority to negotiate contracts for

¹⁴⁸ Ibid.

¹⁴⁹ Ibid.

¹⁵⁰ Ibid.

¹⁵¹ Section 53.3, IRR of R.A. No. 9184.

projects under the foregoing exceptional cases shall be subject to prior approval by the HOPE concerned, within their respective limits of approving authority.

- ii. If negotiation fails, then the BAC shall post-qualify and negotiate with the next lowest calculated/highest rated bidder at the said bidder's own original bid price.
- iii. If the negotiation fails another time, the process is repeated until all the bidders from the previous bidding have been considered.
- iv. If the negotiation fails and there is no bidder left from the previous bidding or if the original awardee is a Single Calculated Responsive Bidder/Single Rated Responsive Bidder, the BAC may either invite at least three (3) suppliers/contractors/consultants to submit their bids, or resort to any other appropriate alternative method of procurement.
- v. In case of successful post-qualification and negotiation, the BAC shall recommend to the HOPE the award of contract with the said supplier, contractor or consultant. Award of contract shall be made in accordance with Section IV(L) of this Guidelines.

4. *ADJACENT OR CONTIGUOUS*¹⁵²

- a) **Definition.** Where the subject contract is adjacent or contiguous to an on-going Infrastructure Project or Consulting Service where the consultants have unique experience and expertise to deliver the required service, subject to the following conditions:
 - i. Original contract is the result of a Competitive Bidding;
 - ii. Subject contract to be negotiated has similar or related scopes of work;
 - iii. It is within the contracting capacity of the contractor/consultant considering the legal, technical (*e.g.*, PCAB license, SLCC) and financial (*e.g.*, NFCC for the contiguous project) requirements for eligibility;
 - iv. In determining the SLCC, NFCC and PCAB license, the sum of the value of the remaining works for the existing contract and the ABC of the contiguous or adjacent work shall be considered;
 - v. The contractor/consultant uses the same prices or lower unit prices as in the original contract less mobilization cost;
 - vi. The ABC of the contiguous or adjacent work involved does not exceed the contract amount of the ongoing project;

¹⁵² Section 53.4, IRR of R.A. No. 9184.

The 2016 Revised Implementing Rules and Regulations – Annex “H”

- vii. The contractor/consultant has no negative slippage/delay in the original contract during the time of negotiation; and
- viii. Negotiations for the procurement are commenced before the expiry of the original contract.

In infrastructure projects, the phrase “adjacent or contiguous” refers to projects that are in actual physical contact with each other or in the immediate vicinity such that the required equipment and other resources can easily be mobilized; while in consulting services, it pertains to the linkage or relationship of the subject matters, outputs or deliverables required.

If there is a necessity to introduce new items which are related to the scope of work of the original contract, the Procuring Entity shall ensure that the unit prices of the new items are equal to or lower than the prevailing market prices.

b) **Procedure**

- i. The BAC shall negotiate with the contractor or consultant for the ongoing infrastructure project or consulting services (*e.g.*, scope of work or terms of reference, unit price and other terms and conditions of the contract).
- ii. In case of successful negotiation, the BAC shall recommend to the HOPE the award of contract in favor of the contractor or consultant. Award of contract shall be made in accordance with Section IV (L) of this Guidelines.

5. **AGENCY-TO-AGENCY**¹⁵³

- a) **Definition.** Procurement from another agency of the government (i.e., Servicing Agency) that has the mandate to deliver goods or services or to undertake infrastructure projects or consultancy services as required by the Procuring Entity.

Agency-to-Agency Agreements shall be governed by the Guidelines, unless otherwise provided by a special law, such as in the case of Procurement of Printing Services from Recognized Government Printers¹⁵⁴ and Procurement of Common-use Supplies and Equipment from the DBM-PS.

All procurement to be undertaken by the Servicing Agency, including those required for the project, shall continue to be governed by the provisions of R.A. 9184.

All projects undertaken through Agency-to-Agency Agreements shall be subject to pertinent budgeting, accounting, and auditing rules and regulations.

¹⁵³ Section 53.5, IRR of R.A. No. 9184.

¹⁵⁴ Refer to Appendix 20 for the Guidelines on the Procurement of Printing Services.

The 2016 Revised Implementing Rules and Regulations – Annex “H”

b) **Conditions.** It is the general policy of government to purchase its requirements from the private sector. However, it acknowledges that, in some exceptional cases, procurement from another agency of the government is more efficient and economical for the government, subject to the following conditions:

- i. The Procuring Entity shall justify that entering into an Agency-to-Agency Agreement with the Servicing Agency is more efficient and economical to the government;
- ii. Servicing Agency has the mandate to deliver the goods and services required to be procured or to undertake the infrastructure project or consultancy required by the Procuring Agency;
- iii. Servicing Agency has the absorptive capacity to undertake the project;
- iv. Servicing Agency owns or has access to the necessary tools and equipment required for the project;
- v. Sub-contracting is not allowed. However, the servicing agency may implement the infrastructure project in-house, by job-order, or through the *pakyaw* contracting system; and
- vi. For procurement of infrastructure projects, the Servicing Agency must have a track record of having completed, or supervised a project, by administration or by contract, similar to and with a cost of at least fifty percent (50%) of the project at hand.

c) **Procedure**

- i. The End-User unit shall justify to the BAC that the resort to Agency-to-Agency is more efficient and economical to the government.
- ii. It shall likewise secure a certificate from the relevant officer of the Servicing Agency that the latter complies with all the foregoing conditions.
- iii. Based on the assessment and recommendation of the End-User unit, the BAC shall issue a Resolution recommending the use of Agency-to-Agency Agreement to the HOPE.
- iv. In case of approval, the HOPE shall enter into a Memorandum of Agreement (MOA) with the Servicing Agency.

6. **SCIENTIFIC, SCHOLARLY OR ARTISTIC WORK, EXCLUSIVE TECHNOLOGY AND MEDIA SERVICES**¹⁵⁵

a) **Definition.** Where Goods, Infrastructure Projects and Consulting Services can be contracted to a particular supplier, contractor, or consultant as determined by the HOPE, for any of the following reasons:

¹⁵⁵ Section 53.6, IRR of R.A. No. 9184.

- i. The requirement is for:
 - a) Work of art; commissioned work or services of an artist for specific artistic skills (*e.g.*, singer, performer, poet, writer, painter, sculptor, etc.)
 - b) Scientific, academic, scholarly work or research, or legal services;
 - c) Highly-specialized life-saving medical equipment, as certified by the Department of Health;
 - d) Scientific, technical, economic, business, trade or legal journal, magazine, paper, subscription, or other exclusive statistical publications and references; or
 - e) Media documentation, advertisement, or announcement through television, radio, newspaper, internet, and other communication media.

Due to the nature of the information to be disseminated, alongside principles of transparency, efficiency and economy, award to more than one (1) supplier may be made by the Procuring Entity.
- ii. The construction or installation of an infrastructure facility where the material, equipment, or technology under a proprietary right can only be obtained from the same contractor.

To justify the need to procure through this negotiated modality, the End-User shall conduct a market study and determine the probable sources. This study should confirm that the supplier, contractor or consultant could undertake the project at more advantageous terms. In all cases, the market study must be conducted prior to the commencement of the procurement process.

b) **Procedure**

- i. The BAC shall undertake the negotiation with a technically, legally and financially capable supplier, contractor or consultant based on the Technical Specifications, Scope of Work or Terms of Reference prepared by the End-User.
- ii. Upon successful negotiation, the BAC shall recommend the award of contract to the HOPE in accordance with Section (IV)(L) of this Guidelines.

7. **HIGHLY TECHNICAL CONSULTANTS**¹⁵⁶

- a) **Definition.** Procurement of consultancy contract involving an individual consultant, subject to the following conditions:

¹⁵⁶ Section 53.7, IRR of R.A. No. 9184.

The 2016 Revised Implementing Rules and Regulations – Annex “H”

- i. The individual consultant will be hired to do work that is either:
 - a) Highly technical or proprietary; or
 - b) Primarily confidential or policy determining, where trust and confidence are the primary consideration.
- ii. The term of the individual consultant shall, at the most, be on a six (6) month basis, renewable at the option of the appointing HOPE, but in no case shall exceed the term of the latter.

b) Procedure

- i. The End-User Unit shall justify to the BAC the engagement of the individual in accordance with the conditions set forth in this Section.
- ii. The BAC shall undertake the negotiation with the individual consultant based on the Terms of Reference prepared by the End-User. Considering the nature of the consultancy work, the negotiations need not be elaborate, it is enough that the BAC has validated that the individual is legally, technically and financially capable to undertake and fulfill the consultancy work based on the Terms of Reference.
- iii. The BAC shall recommend to the HOPE the award of contract to the individual consultant. Award of contract shall be made in accordance with Section (IV)(L) of this Guidelines.

8. SMALL VALUE PROCUREMENT (SVP)¹⁵⁷

- a) **Definition.** Procurement of (a) goods not covered by Shopping under Section 52 of the IRR of RA 9184, (b) infrastructure projects, and (c) consulting services, where the amount involved does not exceed the following threshold:
 - i. For NGAs, GOCCs, GFIs, SUCs, and Autonomous Regional Government, One Million Pesos (₱ 1,000,000)

6 th Class	400,000	200,000	100,000

In the case of *barangays*, Fifty Thousand Pesos (₱ 50,000).

b) Procedure

- i. The End-User shall submit a request for SVP to the BAC, which indicates the technical specifications, scope of work, terms of reference, ABC and other terms and conditions.
- ii. The BAC shall prepare and send the RFQs/RFPs to at least three (3) suppliers, contractors or consultants of known qualifications. This, notwithstanding, those who responded through any of the required postings shall be allowed to participate. Receipt of at least one (1) quotation is sufficient to proceed with the evaluation thereof.
- iii. Except for those with ABCs equal to Fifty Thousand Pesos (₱ 50,000.00) and below, RFQs shall be posted for a period of three (3) calendar days in the PhilGEPS website, website of the Procuring Entity, if available, and at any conspicuous place reserved for this purpose in the premises of the Procuring Entity.

- vi. The BAC shall recommend to the HOPE the award of contract in favor of the supplier or contractor with the Single or Lowest Calculated and Responsive Quotation (for goods or infrastructure projects), or consultant with the Single or Highest Rated and Responsive Proposal (for consulting services). In case of approval, the HOPE shall immediately enter into contract with the said supplier, contractor or consultant.

9. LEASE OF REAL PROPERTY AND VENUE¹⁵⁸

a) **Definition.** Procurement covering lease of real property and venue for official use, where:

- i. **Real Property** refers to land and buildings (office spaces or units) and constructions of all kinds adhered to the soil.

¹⁵⁸ Section 53.10, IRR of R.A. No. 9184.

- ii. **Venue** refers to training centers, convention halls, hotels, and similar establishments catering to trainings, seminars, conferences, conventions, symposia and similar gatherings requiring the official participation of government officials and employees. This may include meals and accommodation depending on the requirements of the Procuring Entity.
- iii. **Lessee** refers to any government agency temporarily occupying a real property on the basis of a contract executed with the private individual, partnership, cooperative, association, or corporation having absolute ownership over such real property.
- iv. **Lessor** refers to any government agency or private individual, partnership, cooperative, association, or corporation having absolute ownership over the real property or venue to be leased.

b) **Policy Considerations**

- i. *Publicly-owned vis-a-vis privately-owned real property and venue*

It is preferred that government agencies lease publicly-owned real property or venue from other government agencies.

If there is an available publicly-owned real property or venue that complies with the requirements of the Procuring Entity, it may enter into a contract of lease with the government-agency owner.

In the event that the Procuring Entity would resort to privately-owned real property or venue, the End-User unit shall justify that the same is more efficient and economical to the government.

- ii. *Location*

The location of the real property or venue to be leased should have been meticulously selected by the Procuring Entity after taking into consideration, among others, the need for prudence and economy in government service and the suitability of the area in relation to the mandate of the office, and its accessibility to its clients. In the lease of venue, other factors such as the nature of the event or the level of security in the proposed location may also be taken into account.

- iii. *ABC and rental rates*

The ABC shall be set using the midpoint of the range obtained from the results of the market analysis on the prevailing lease rates for real property or venue within the vicinity of the selected location complying with the criteria and technical specifications of the End-User Unit. In no case shall the rental rates, including additional

expenses, such as association dues in the case of lease of real property, exceed the ABC.

As a general rule, rental rates are considered reasonable when they represent or approximate the value of what the Lessee gets in terms of accommodation, facility, amenities, and convenience from the leased real property or venue, and the Lessor gets an equitable return of capital or investment.

Rental rates should also be within the prevailing market rates for lease of real property or venue with the same or similar condition or classification and located within the vicinity. Rental rate refers to the amount paid by the Lessee for the use and/or occupancy of the privately-owned real property to the Lessor, where payment is usually made on a monthly basis.

iv. *Technical Specifications*

Technical Specification shall be prepared taking into consideration the rating factors under Appendix B of this Guidelines.

c) **Procedures for Lease of Privately-Owned Real Property and Venue**

i. Real Property

a) The BAC shall invite at least three (3) prospective Lessors to submit sealed price quotations or password-protected price quotations in compressed archive folders, in case of electronic submission of price quotations.¹⁵⁹

On a specified date, submitted price quotations shall be opened to determine the Lowest Calculated Quotation. Receipt of at least one (1) quotation is sufficient to proceed with the evaluation thereof.

For electronic submission of price quotations, the passwords for accessing the same will be disclosed by the prospective Lessors on a specified date which may be done in person or face-to-face through videoconferencing, webcasting or similar technology.¹⁶⁰

b) The real property being offered by the Lessor with the Single or Lowest Calculated Quotation shall be rated in accordance with the technical specifications and the reasonableness of its price quotation shall be determined in accordance with the methodology prescribed in Appendix B.

c) Upon determination of the responsiveness and reasonableness of the quotation, the BAC shall recommend to the HOPE the award of contract in favor of the Lessor with the Single or Lowest Calculated and Responsive Quotation. Award of contract

¹⁵⁹ As amended by GPPB Resolution No. 09-2020, dated 7 May 2020, published in the Philippine Daily Inquirer on 15 May 2020.

¹⁶⁰ Ibid.

shall be made in accordance with Section IV(L) of this Guidelines.

- ii. Venue
 - a) The BAC shall send the RFQ to at least three (3) venues within the vicinity of the selected location. Receipt of at least one (1) quotation is sufficient to proceed with the evaluation thereof.
 - b) The venue being offered by the Lessor with the Lowest Calculated Quotation shall then be rated in accordance with the technical specifications prepared pursuant to Appendix B of this Guidelines. Compliance rating with technical specifications may be conducted through ocular inspection, interviews, or other forms of due diligence.
 - c) Upon determination of the responsiveness of the quotation, the BAC shall recommend to the HOPE the award of contract in favor of the Lessor with the Single or Lowest Calculated and Responsive Quotation. Award of contract shall be made in accordance with Section IV(L) of this Guidelines

d) Renewal of Contract of Lease of Real Property

- i. Prior to the expiration of the lease contract, the end-user of the procuring entity must conduct a cost-benefit analysis to assess the quality of service under the lease contract. For instance, it must compare the rental rates charged by its lessor against other lessors in the area. It must also analyze whether entering into a new contract will be more expensive taking into consideration the cost of transfer and accessibility to the public. In assessing the existing lease, PEs are encouraged to consult relevant government agencies regarding any new policy or directive in the lease of real property.
(n)
- ii. If the results of the CBA, conducted by the end-user, continue to favor the existing lessor, then the Head of the Procuring Entity (HoPE) may simply renew its lease contract. If it does not, then the PE should procure a new lease contract in accordance with Section 53.10 of the IRR of RA 9184 and these guidelines. For efficiency and economy, during the effectivity of the contract, or upon its renewal, the PE may consider the expansion or reduction of the space provided by the existing lessor, provided that the leased premises can accommodate the space requirements of the PE in case of expansion, based on the need of the PE and the best way by which such need may be addressed and satisfied, subject to existing budgeting, accounting and auditing rules.¹⁶¹ (n)

¹⁶¹ As amended by GPPB Resolution No. 06-2018, dated 18 May 2018, published in the Official Gazette on 20 August 2019.

10. *DIRECT RETAIL PURCHASE OF PETROLEUM FUEL, OIL AND LUBRICANT (POL) PRODUCTS AND AIRLINE TICKETS*¹⁶²

a. Policy Considerations. All procurement of POL products and airline tickets shall be done through competitive bidding, except when the Procuring Entity has determined that Direct Retail Purchase is the best modality for the procurement of non-bulk POL products or where fees for additional services or functionalities are charged on top of the payment for the required POL products or airline tickets.⁽ⁿ⁾¹⁶³

In case of competitive bidding, other factors such as value-added or related services may also be taken into account in determining the procurement project's ABC.⁽ⁿ⁾¹⁶⁴

b. Definition. Where Goods and Services are required by a Procuring Entity for the efficient discharge of its principal mandate, governmental functions, or day-to-day operations, direct retail purchase of POL products and airline tickets may be made by end-users delegated to procure the same from identified direct suppliers or service providers.⁽ⁿ⁾¹⁶⁵

c. Conditions. The procurement of POL products and airline tickets can be contracted by the end-user to identified direct suppliers or service providers under the following conditions:⁽ⁿ⁾¹⁶⁶

i. For petroleum fuel (gasoline, diesel, and kerosene), oil and lubricants:⁽ⁿ⁾¹⁶⁷

a.) Direct retail purchase of POL products estimated to be necessary for the operations of the Procuring Entity within the fiscal year, including provisions for foreseeable emergencies based on historical records, shall be reflected in the annual procurement plan (APP) in its entirety including any amendment thereto which shall be reflected in the supplemental APP;⁽ⁿ⁾¹⁶⁸

b.) Direct purchase must be made from any available retailers, dealers or gas stations at retail pump price;⁽ⁿ⁾¹⁶⁹

c.) The requirement must be intended to be used for any official government vehicles and equipment for immediate consumption; and d) Payment may be made through cash advance, reimbursement or other allowable payment modalities subject to pertinent auditing and accounting rules.⁽ⁿ⁾¹⁷⁰

- b.) Direct purchase must be made from any commercial airline at fairly reasonable rates, subject to flight availability at the time of booking, travel days, stopovers, routes, additional visa requirements and other reasonable considerations as determined by the end-user;
- c.) Payment may be made through cash advance, reimbursement or other allowable payment modalities subject to pertinent auditing and accounting rules; and

Taking into account the usual trade and business practices being observed in the industry and the requirements and other reasonable considerations identified by the end-user, direct retail purchase of the required POL products or airline tickets shall be carried out in accordance with pertinent accounting principles and practices as well as of sound management and fiscal administration provided that they do not contravene existing laws and regulations applicable to financial transactions.⁽ⁿ⁾¹⁷¹

FACTOR VALUE			

Note: Weight of each rating factor may be changed as long as total weight per classification is equivalent to 100. Figures in parenthesis are samples. Procuring Entity must determine passing rate before inviting bids from Lessors. A bid is determined to be responsive if it is equal to or higher than the passing rate.

B. DETERMINATION OF REASONABLENESS OF RENTAL RATES

1. The reasonableness of rental rates may be determined using any of the following methods.

1.1. Computation based on Observed Depreciation

This method uses the following formula and a depreciation rate determined after meticulous ocular inspection of the actual condition of the real property:

Reproduction Cost	=	Estimated Unit Construction Cost × (1 – Depreciation Rate)
Formula Rate	=	Reproduction Cost × Monthly Capitalization Rate
Rental Rate	=	Formula Rate × Factor Value
Monthly Rental	=	Rentable Area × Rental Rate

- 1.1.1. The following weights may be used in arriving at the observed depreciation rate:

Status	Depreciation (%)
Good	20
Fair	40
Poor	60
Very poor	80

The 2016 Revised Implementing Rules and Regulations – Annex “H”

- 1.1.2. Reproduction Cost refers to the estimated total cost of replacing the real property with the same utility.
- 1.1.3. Capitalization Rate refers to the interest rate on the cost or value of the property.
- 1.1.4. Rentable Area refers to the total area of the real property in square meters being occupied or to be occupied by the Lessee less the common area like lobby, stairway, elevator hall, common comfort room, machine room for air conditioner, and other areas of common use by the public or upper floor occupants.
- 1.1.5. Factor Value refers to the rating factor where locations and site conditions, neighborhood data and real property structural condition, functionality, facilities and other requirements, including free services and facilities offered by the Lessor are considered. The rating factors and its corresponding weights are provided in Table A of this Appendix.

1.2. *Computation based on Straight Line Depreciation*

This method uses the following formula:

Age of Real Property	=	Current Year – Year of Construction
Depreciation Rate	=	Please See Table of Structural Depreciation
Reproduction Cost	=	Estimated Unit Construction Cost × (1 – Depreciation Rate)
Formula Rate	=	Reproduction Cost × Monthly Capitalization Rate
Rental Rate	=	Formula Rate × Factor Value
Monthly Rental	=	Rentable Area × Rental Rate

- 1.2.1. Depreciation rate shall be determined using the following Table of Structural Depreciation provided by the DPWH:

AGE	ESTIMATED LIFE OF REAL PROPERTY			
	WOODEN FRAME (40 years)	SEMI-CONCRETE (60 years)	REINFORCED CONCRETE (75 years)	STRUCTURAL REINFORCED (100 years)
	Percentage (%) of estimated life

1.2.2. Estimated Unit Construction Cost refers to the estimated prevailing cost of construction per square meter of the real property being appraised. The respective Estimated Unit Construction Cost of types of real property for each region may be obtained from the Bureau of Maintenance of the DPWH.

1.2.3. Reproduction Cost, Capitalization Rate, Rentable Area and Factor Value shall have the same meaning as those referred Items 1.1.2 to 1.1.5.

1.3. Comparative Market Price Analysis

This method is based on the conduct of comparative market analysis on the prevailing lease rates for real properties within the vicinity of the selected location complying with the criteria and technical specifications of the Procuring Entity. In the lease of vacant lot or other land spaces, the Procuring Entity shall likewise consider the zonal valuation issued by the city or municipality having jurisdiction over the property.

2. If the price quotation of the prospective Lessor does not exceed the computed monthly rental or is within the prevailing market rates, the rental rate offered may be regarded as reasonable, and its quotation may then be considered for award.

3. Sample Computations for Observed Depreciation and Straight-Line Depreciation:

8. **Termination in Whole** means the termination of all of the work that has not been completed and accepted under a contract.

9. **Show Cause** refers to a notice which the Procuring Entity is required to issue prior to terminating a contract. The purpose of a show cause notice is to enable the contractor to present its position why the contract should not be terminated.
10. **Verified Report** refers to the report submitted by the Implementing Unit to the Head of the Procuring Entity setting forth its findings as to the existence of grounds or causes for termination and explicitly stating its recommendation for the issuance of a Notice to Terminate.

- b) Pursuant to Sec. 68 of the 2016 revised IRR, the Procuring Entity may terminate the contract when, as a result of *force majeure*, the Supplier is unable to deliver or perform any or all of the Goods, amounting to at least ten percent (10%) of the contract price, for a period of not less than sixty (60) calendar days after receipt of the notice from the Procuring Entity stating that the circumstance of *force majeure* is deemed to have ceased; or^{(a) 179}
- c) The Procuring Entity shall terminate the contract when the Supplier fails to perform any other obligation under the Contract.^{180 (a)}

2. In contracts for Infrastructure Projects:

The Procuring Entity shall terminate a contract for default when any of the following conditions attend its implementation:

2. In contracts for Consulting Services:

The Consultant may terminate its agreement with the Procuring Entity if the latter is in material breach of its obligations pursuant to the contract and has not remedied the same within sixty (60) calendar days following its receipt of the Consultant’s notice specifying such breach.

IV. PROCEDURES FOR TERMINATION OF CONTRACTS

1. **Verification.** Upon receipt of a written report of acts or causes which may constitute ground(s) for termination as aforementioned, or upon its own initiative, the Implementing Unit shall, within a period of seven (7) calendar days, verify the existence of such ground(s) and cause the execution of a Verified Report, with all relevant evidence attached.
2. **Notice to Terminate.** Upon recommendation by the Implementing Unit, the Head of the Procuring Entity shall terminate contracts only by a written notice to the Supplier/Contractor conveying the termination of the contract. The notice shall state:
 - a) that the contract is being terminated for any of the ground(s) aforementioned, and a statement of the acts that constitute the ground(s) constituting the same;
 - b) the extent of termination, whether in whole or in part;
 - c) an instruction to the Supplier/Contractor/Consultant to show cause as to why the contract should not be terminated; and
 - d) special instructions of the Procuring Entity, if any.

If the Supplier/Contractor/Consultant fails to show cause after the lapse of the seven (7) day period, either by inaction or by default, the Head of the Procuring Entity shall issue an order terminating the contract.

4. **Rescission of Notice of Termination.** The Procuring Entity may, at any time before receipt of the Supplier's/Contractor's/Consultant's verified position paper to withdraw the Notice to Terminate if it is determined that certain items or works subject of the notice had been completed, delivered, or performed before the Supplier's/Contractor's/Consultant's receipt of the notice.
5. **Decision.** Within a non-extendible period of ten (10) calendar days from receipt of the verified position paper, the Head of the Procuring Entity shall decide whether or not to terminate the contract. It shall serve a written notice to the Supplier/Contractor/Consultant of its decision and, unless otherwise provided, the Contract is deemed terminated from receipt of the Supplier/Contractor/Consultant of the notice of decision. The termination shall only be based on the ground(s) stated in the Notice to Terminate.

The 2016 Revised Implementing Rules and Regulations – Annex “I”

6. **Contract Termination Review Committee (CTRC).** The Head of the Procuring Entity may create a committee to assist him in the discharge of his function under these Guidelines. All decisions recommended by the CTRC shall be subject to the approval of the Head of the Procuring Entity.

8. **Procuring Entity’s Options in Termination for Convenience in Contracts for Goods.** The goods that have been performed or are ready for delivery within thirty (30) calendar days after the Supplier’s receipt of Notice to Terminate shall be accepted by the Procuring Entity at the contract terms and prices. For goods not yet performed or ready for delivery, the Procuring Entity may elect:
 - a) to have any portion delivered or performed and paid at the contract terms and prices; and/or
 - b) to cancel the remainder and pay to the Supplier an agreed amount for partially completed or performed goods and for materials and parts previously procured by the Supplier.

If the Supplier suffers loss in its initial performance of the terminated contract, such as purchase of raw materials for goods specially manufactured for the Procuring Entity which cannot be sold in open market, it shall be allowed to recover partially from the contract, on a *quantum meruit* basis. Before recovery may be made, the fact of loss must be established under oath by the Supplier to the satisfaction of the Procuring Entity before recovery may be made.

9. **Notice by Contractor/Consultant.** The Contractor/Consultant must serve a written notice to the Procuring Entity of its intention to terminate the contract at least thirty (30) calendar days before its intended termination. The Contract is deemed terminated if it is not resumed in thirty (30) calendar days after the receipt of such notice by the Procuring Entity.

- 9.3. If the on-line bidder sends the original bid security through registered mail or private courier, the indicated date of receipt by the postal service or private courier shall be considered as the date of submission to the BAC concerned, without prejudice to any verifications during post-qualification.

10.0 EXTENSION OF BID CLOSING DATE

- 10.1. In case of system failure, the rules provided for in Annex 1 shall automatically apply regarding extension of the bid closing date.

11.0 OPENING OF BIDS

- 11.1. Upon receipt of manually-filed bids, the Bid Opener, before the Bid Opening, but immediately after the deadline for submission of bids, shall record and input into PhilGEPS E-bidding module the date and time each of the bid was manually received, including the name of the bidder's authorized representative.
- 11.2. The BAC shall open the bids immediately after the deadline for submission and receipt of bids, and on the bid opening date.

- 11.3. Before the decryption of electronic bids, the Bid Opener must first login to PhilGEPS and only then can BAC members input their respective USER IDs and PASSWORDS, *provided however*, that PhilGEPS decryption will not take place unless all the members present and logging-in constitute quorum.
- 11.4. The Bid Opener shall publicly open the first bid envelopes of bidders who submitted bids manually to determine each bidder's compliance with the documents required to be submitted for eligibility, that is, legal, technical and financial eligibility documents; and for the technical requirements. For this purpose, the BAC shall check the submitted documents of each bidder against a checklist of required documents to ascertain if they are all present, using a non-discretionary "pass/fail" criterion. If a bidder submits the required document, it shall be rated "passed" for that particular requirement. In this regard, bids that fail to include any requirement or are incomplete or patently insufficient shall be considered as "failed". Otherwise, the BAC shall rate the bidder "passed" in relation to the eligibility and technical documents in the first envelope.
- 11.5. After all the manually submitted first envelopes of bidders were opened, and the results and findings were encoded in the PhilGEPS Preliminary Examination Report facility, the Bid Opener shall thereafter proceed to decrypt the electronic First Bid Envelopes submitted by the On-line Bidders to determine each bidder's compliance with the required eligibility and technical documents following the steps and procedures outlined in Section 11.4 hereof. Thereafter, the Bid Opener shall input the findings and results into the PhilGEPS' Preliminary Examination Report facility.
- 11.6. Immediately after determining compliance with the requirements in the first envelope, the Bid Opener shall forthwith open the manually submitted second bid envelope of each eligible bidder whose first bid envelope was rated "passed." The second envelope of each complying bidder shall be opened within the same day.
- 11.7. After all the manually submitted second envelopes of bidders were opened, and the results and findings were encoded in the PhilGEPS Preliminary Examination Report facility, the Bid Opener shall thereafter proceed to decrypt the electronic Second Bid Envelopes of each On-line Bidders whose electronic first bid envelope was rated "passed" to determine each bidder's compliance with the required financial documents following the steps and procedures outlined in Section 11.6 hereof.
- 11.8. In case one or more of the requirements in the second envelope of a particular bid is missing, incomplete or patently insufficient, and/or if the submitted total bid price exceeds the ABC, the BAC shall rate the bid concerned as "failed". The Bid Opener shall then input the findings and results into the PhilGEPS' Preliminary Examination Report facility.

Only bids that are determined to contain all the bid requirements for both components shall be rated "passed" and shall immediately be considered for evaluation and comparison.

- 11.9. PhilGEPS shall automatically send an electronic mail to all bidders who failed

in the preliminary examination of the first and/or second envelope.

12.0 BID EVALUATION

Goods and Infrastructure

For the procurement of goods and infrastructure projects, the purpose of bid evaluation is to determine the Lowest Calculated Bid using the following steps:

- 12.1. The BAC shall immediately conduct a detailed evaluation of all bids using non-discretionary criteria in considering the following:
 - a) Completeness of the bid. Unless the Instructions to Bidders specifically allow partial bids, bids not addressing or providing all of the required items in the Bidding Documents including, where applicable, bill of quantities, shall be considered non-responsive and, thus, automatically disqualified. In this regard, where a required item is provided, but no price is indicated, the same shall be considered as non-responsive, but specifying a "0" (zero) or dash (-) for the said item would mean that it is being offered for free to the Government; and
 - b) Arithmetical corrections. Correct computational errors and omissions to enable proper comparison of all eligible bids. It may also consider bid modifications if expressly allowed in the Bidding Documents. Any adjustment shall be calculated in monetary terms to determine the calculated prices. ^(a)
- 12.2. The BAC shall evaluate all bids on an equal footing to ensure fair and competitive bid comparison. For this purpose, all bidders shall be required to include the cost of all taxes, such as, but not limited to, value added tax (VAT), income tax, local taxes, and other fiscal levies and duties which shall be itemized in the bid form and reflected in the detailed estimates. Such bids, including said taxes, shall be the basis for bid evaluation and comparison.
- 12.3. In case of discrepancies between: (a) bid prices in figures and in words, the latter shall prevail; (b) total price of the item and unit price of the item as extended or multiplied by the quantity of that item, the latter shall prevail; (c) stated total price and the actual sum of prices of component items, the latter shall prevail; (d) unit cost in the detailed estimate and unit cost in the bill of quantities, the latter shall prevail.
- 12.4. Bids shall then be ranked in the ascending order of their total calculated bid prices, as evaluated and corrected for computational errors, and other bid modifications, to identify the Lowest Calculated Bid. Total calculated bid prices, as evaluated and corrected for computational errors, and other bid modifications, which exceed the ABC shall be disqualified.
- 12.5. After all bids have been received, opened, examined, evaluated, and ranked, the BAC shall prepare the corresponding Abstract of Bids. All members of the BAC shall sign the Abstract of Bids and attach thereto all the bids with their corresponding bid securities and the minutes or proceedings of the bidding. The Abstract of Bids shall contain the following:

- a) Name of the contract and its location, if applicable;
- b) Time, date and place of bid opening; and
- c) Names of bidders and their corresponding calculated bid prices arranged from lowest to highest, the amount of bid security and the name of the issuing entity.

The entire evaluation process for the procurement of goods and infrastructure projects shall be completed within seven (7) calendar days from the deadline for receipt of proposals. However, for infrastructure projects costing Fifty Million Pesos (₱ 50,000,000) and below, the entire evaluation process shall be completed in not more than five (5) calendar days from the deadline for receipt of proposals.

- 12.6. After conducting the detailed evaluation of all bids using non-discretionary criterion, the Bid Opener shall input and record the results of the evaluation into the PhilGEPS' Evaluation Summary Report facility.
- 12.7. The PhilGEPS shall automatically rank the bidders in ascending order based on their total calculated bid prices to identify the LCB as evaluated and corrected for computational errors, and other bid modifications. Total calculated bid prices, as evaluated and corrected for computational errors, and other bid modifications, which exceed the ABC shall be disqualified. After all bids have been received, opened, examined, evaluated, and ranked, the system shall thereafter generate the Abstract of Bids in the form of PhilGEPS Evaluation Summary Report.
- 12.8. The BAC shall manually prepare a Resolution whether approving or denying the Abstract of Bids generated by the system. However, after the BAC Resolution approving the Abstract of Bids is uploaded in the PhilGEPS, an electronic message shall be automatically sent to all bidders who participated informing them that the Abstract of Bids is available for downloading.

Consulting Services

- 12.9. To determine the Highest Rated Bid (HRB), the BAC shall immediately conduct a detailed evaluation of all bids using the steps provided for under Section 33 of the IRR of RA 9184.
- 12.10. After conducting the detailed evaluation of all bids using non-discretionary criteria, the Bid Opener shall input and record the results of the evaluation into the PhilGEPS' Summary Report facility.
- 12.11. The PhilGEPS shall automatically rank the bidders in descending order based on their total score to identify the HRB. After all bids have been received, opened, examined, evaluated, and ranked, the system shall thereafter generate the Abstract of Bids.
- 12.12. The BAC shall manually prepare a Resolution whether approving or denying the Abstract of Bids generated by the system. However, after the BAC

Resolution approving the Abstract of Bids is uploaded in the PhilGEPS, an electronic message shall be automatically sent to all bidders who participated informing them that the Abstract of Bids is available for downloading.

13.0 POST QUALIFICATION

- 13.1 The Lowest Calculated Bid ("LCB")/Highest Rated Bid ("HRB") shall undergo post-qualification pursuant to Rule X of the IRR in order to determine whether the bidder concerned complies with and is responsive to all the requirements and conditions as specified in the Bidding Documents.
- 13.2 Within one (1) day after the approval of the Abstract of Bids, the bidder with the LCB/HRB should be notified through electronic mail that the bidder shall undergo post-qualification and submit the post-qualification requirements within three (3) calendar days as provided for under Section 34.2 of the IRR.
- 13.3 If the BAC determines that the bidder with the LCB/HRB passes all the criteria for post-qualification, it shall declare the said bid as the Lowest Calculated Responsive Bid (LCRB)/ Highest Rated Responsive Bid (HRRB), and recommend to the Head of the Procuring Entity the award of contract to the said bidder at its submitted bid price or its calculated bid price, whichever is lower or, in the case of quality-based evaluation procedure, submitted bid price or its negotiated price, whichever is lower.
- 13.4 If, however, the BAC determines that the bidder with the LCB/HRB fails the criteria for post-qualification, it shall immediately notify the said bidder electronically in writing of its post-disqualification and the grounds for it.
- 13.5 Immediately after the BAC has electronically notified the first bidder of its post-disqualification, and notwithstanding any pending request for reconsideration thereof, the BAC shall initiate and complete the same post-qualification process on the bidder with the second LCB/HRB. If the second bidder passes the post-qualification, and provided that the request for reconsideration of the first bidder has been denied, the second bidder shall be post-qualified as the bidder with the LCRB/HRRB.
- 13.6 If the second bidder, however, fails the post-qualification, the procedure for post-qualification shall be repeated for the bidder with the next LCB/HRB, and so on until the LCRB or HRRB, as the case may be, is determined for award, subject to Section 37 of the IRR.
- 13.7 The post-qualification process shall be completed in not more than seven (7) calendar days from the determination of the LCB/HRB. In exceptional cases, the post-qualification period may be extended by the Head of the Procuring Entity, but in no case shall the aggregate period exceed thirty (30) calendar days.
- 13.8 The BAC or its Bid Opener shall record and encode the post-qualification results of manually submitted documents in the PhilGEPS. For electronic documents submitted online, the BAC or its Bid Opener shall decrypt the documents and the results recorded automatically.

- 13.9 After recording the post-qualification summary and uploading the BAC resolution declaring the bidder with the LCRB/HRRB in the PhilGEPS, an electronic message shall be automatically sent to all bidders who participated informing them that the Notice of LCRB/HRRB is available for downloading.

14.0 AWARD

- 14.1 The BAC shall recommend to the Head of the Procuring Entity the award of contract to the bidder with the LCRB/HRRB or the Single Calculated/Rated Responsive Bid after the post-qualification process has been completed.

To facilitate the approval of the award, the BAC shall submit the following supporting documents to the Head of the Procuring Entity:

- a) Resolution of the BAC recommending award;
 - b) Abstract of Bids;
 - c) Duly approved program of work or delivery schedule, and Cost Estimates;
 - d) Document issued by appropriate entity authorizing the procuring entity to incur obligations for a specified amount; and
 - e) Other pertinent documents required by existing laws, rules, and/or the procuring entity concerned.
- 14.2 In case of approval, the Head of the Procuring Entity (HOPE) shall immediately issue the Notice of Award to the bidder with the LCRB/HRRB. In the event the Head of the Procuring Entity shall disapprove such recommendation, such disapproval shall be based only on valid, reasonable, and justifiable grounds to be expressed in writing, copy furnished the BAC.
- 14.3 Upon approval by the HOPE of the BAC recommendation to award the contract to the LCRB/HRRB, the Notice of Award ("NOA") shall be created by the Bid Notice Creator in the PhilGEPS upon instruction of the HOPE, *provided however*, that the NOA shall only be created and issued to the LCRB/HRRB if no request for reconsideration or protest is received by, or inputted in PhilGEPS.
- 14.4 Upon issuance of the NOA to the LCRB/HRRB, an electronic message shall be automatically sent to all bidders who participated informing them of the results of the bidding process.
- 14.5 Notwithstanding the issuance of the Notice of Award, the award of the contract shall be subject to the following conditions:
- a) Submission of the following documents within the prescribed period:

- i) Valid JVA, if applicable, within ten (10) calendar days from receipt by the bidder of the notice from the BAC that the bidder has the LCRB or HRRB, as the case may be; or
 - ii) In the case of infrastructure projects, valid PCAB license and registration for the type and cost of the contract to be bid for foreign bidders, within thirty (30) calendar days from receipt by the bidder of the notice from the BAC that the bidder has the LCRB, when the Treaty or International or Executive Agreement expressly allows submission of the PCAB license and registration for the type and cost of the contract to be as a pre-condition to the Notice of Award;
- b) Posting of performance security in accordance with Section 39 of this IRR;
 - c) Signing of the contract as provided in Section 37.2 of the IRR; and
 - d) Approval by higher authority, if required, as provided in Section 37.3 of the IRR.
- 14.6 Contract award shall be made within the bid validity period provided in Section 28 of the IRR.
- 14.7 The BAC, through the Secretariat, shall post, within three (3) calendar days from its issuance, the Notice of Award in the PhilGEPS, the website of the procuring entity, if any, and any conspicuous place in the premises of the procuring entity.
- 14.8 After the contract signing and submission of the Performance Bond, the Bid Notice Creator shall update the "proceed date" and the "contract start and end dates" and upload a copy of the Notice to Proceed and approved Contract in the PhilGEPS.

15.0 APPLICATION OF RA 9184 AND ITS REVISED IRR

In case of silence, ambiguity, or vagueness of the provision embodied in this Guidelines, the procedures and processes contained in RA 9184 and its revised IRR shall suppletorily apply.

GUIDELINES FOR THE USE OF THE GOVERNMENT OF THE PHILIPPINES - OFFICIAL MERCHANTS REGISTRY (GoP-OMR)

1.0 POLICY STATEMENT

To promote transparency and efficiency, information and communications technology shall be utilized in the conduct of procurement procedures. Accordingly, there shall be a single portal that shall serve as the primary source of information on all government procurement. (*Section 8, Republic Act No. 9184 (R.A. 9184); Section 8.1.1, Rule III, Revised Implementing Rules and Regulations (Revised IRR)*)

The Philippine Government Electronic Procurement System (PhilGEPS) shall serve as the primary and definitive source of information on government procurement. (*Sec. 8.1.1, Rule III, Revised IRR*)

2.0 SCOPE AND PURPOSE

These Guidelines shall govern the general procedures for the use of the Government of the Philippines-Official Merchants Registry ("GoP-OMR"), the electronic database developed and maintained by PhilGEPS pursuant to Section 8.2.2 of the Revised IRR of R.A. 9184.

3.0 DEFINITION OF TERMS

3.1. For purposes of these Guidelines, the following terms, or words and phrases shall mean or be understood as follows:

3.1.1. **Government of the Philippines-Official Merchants Registry (GoP-OMR)** – refers to the centralized electronic database of manufacturers, suppliers, distributors, contractors, and consultants developed and maintained by the PhilGEPS office pursuant to Section 8.2.2 of the Revised IRR of R.A. 9184.

3.1.2. **Merchant** – refers to manufacturers, suppliers, distributors, contractors, and consultants already registered or still applying for registration in the GoP-OMR.

3.2. Terms, words, and phrases used in these Guidelines shall have the same meaning as those that are defined in R.A. 9184 and its Revised Implementing Rules and Regulations.

4.0 GENERAL PROVISIONS

4.1 The GoP-OMR shall be the centralized electronic database of merchants for purposes of government electronic procurement.

Subject to Sections 7 to 9 herein, all existing registries of merchants, electronic or manual, used and maintained by procuring entities for government procurement shall be integrated with the GoP-OMR.

4.2 The PhilGEPS office shall not determine the eligibility of merchants. The PhilGEPS office's evaluation of the eligibility requirements shall be for the sole

purpose of determining the approval or disapproval of the merchant's application for registration.

- 4.3 A merchant's registration and membership in the GoP-OMR is neither contract-specific nor understood to be tantamount to a finding of eligibility. Neither shall the merchant's successful registration in the GoP-OMR be relied upon to claim eligibility for the purpose of participation in any public bidding.
- 4.4 The determination of the eligibility of merchants, whether registered with the GoP-OMR or not, shall remain with the Bids and Awards Committee (BAC). The BAC's determination of validity of the eligibility requirements shall be conclusive to enable the merchant to participate in the public bidding process.

5.0 REGISTRATION AND MEMBERSHIP OF MERCHANTS

- 5.1 The PhilGEPS office shall develop and implement the necessary procedures for the registration and membership of merchants in the GoP-OMR.
- 5.2 Subject to Section 6, the procedures for registration of merchants shall prescribe the following requirements:
 - 5.2.1 duly accomplished PhilGEPS Registration Form;
 - 5.2.2 an account number with a bank duly licensed by the Bangko Sentral ng Pilipinas (BSP), which shall be used to facilitate financial transactions such as, but not limited to, the payment of fees; charges; bid, performance, and warranty securities; and similar costs;
 - 5.2.3 a secure e-mail address, which shall be used for all communications between the BAC and the PE;
 - 5.2.4 a digital certificate secured from the government-accredited certification authority, once such facility becomes available.
 - 5.2.5 eligibility requirements as provided in R.A. 9184 and its Revised IRR; and,
 - 5.2.6 a certification, stating that (a) the eligibility requirements filed in connection with registration in the GoP-OMR, are authentic copies of the original; (b) the same requirements are complete; and (c) all statements and information provided in these are true and correct.
- 5.3 Merchants shall submit their registration documents either by sending electronic copies of the requirements using the PhilGEPS website; or by sending printed copies to the PhilGEPS office.

Failure to submit the registration requirements prescribed in Section 5.2 herein shall result in the disapproval of the application for registration.
- 5.4 The PhilGEPS office shall receive and process all applications for registration, and shall have the sole power to approve or disapprove any application in accordance with its registration procedures, subject to existing laws, rules and regulations, and these Guidelines.

- 5.5 Approval of the application shall amount to the registration of the merchant in the GoP-OMR. Disapproval shall prevent the registration of the merchant in the GoP-OMR until such time that it satisfactorily complies with the requirements.
- 5.6 The PhilGEPS office shall deny registration to or exclude from the GoP-OMR any merchant (a) that is found to have willfully misrepresented any of the information provided in the application for registration, or (b) that is in the "blacklist" of a PE. For this purpose, exclusion from the registry shall result in the cancellation of the merchant's account in the PhilGEPS website.
- 5.6.1 This exclusionary rule also applies to any merchant that has been subjected to the blacklisting rules of foreign governments, and foreign or international financing institutions, if such rules have been recognized by the Government Procurement Policy Board (GPPB).
- 5.6.2 The PE shall immediately notify the PhilGEPS office and the GPPB regarding its "blacklisting" of a merchant by forwarding a copy of the Blacklisting Order to PhilGEPS and GPPB. Upon receipt of the Blacklisting Order, the PhilGEPS office shall exclude the merchant from the GoP-OMR.

6.0 MEMBERSHIP CLASSIFICATION

- 6.1 The PhilGEPS office shall develop a merchants' membership classification that will define the extent of a merchant's access to and use of the PhilGEPS website, and include the rules and procedures for acquiring, maintaining, relinquishing, changing, or renewing a membership status in the registration procedure mentioned in Section 5.1 hereof.
- 6.2 Merchants shall have the option to choose its membership classification based on the categories provided by the PhilGEPS office. Merchants shall be entitled to a Certificate of Registration and Membership depending on the chosen classification and payment of the corresponding membership fee determined by the PhilGEPS office.
- 6.3 A Certificate of Registration and Membership shall be valid and effective for a period of one (1) year from the date of issuance as indicated therein. This Certificate may be renewed; *provided*, that the merchant maintains its records in the GoP-OMR current and updated at least once a year or more frequently as may be necessary; *provided further*, that the merchant's failure to maintain its records current and updated shall result in the downgrading of the merchant's membership classification in accordance with the procedures of the PhilGEPS office, notwithstanding the fact that the one-year validity of the Certificate of Membership has not yet expired.

7.0 INTEGRATION OF EXISTING ELECTRONIC REGISTRIES

- 7.1 The following rules shall apply only to electronic registries that simultaneously allow submission and/or recording/entry of eligibility requirements with registration:
- 7.2 All existing electronic merchant registries used and maintained by PEs shall be integrated into the GoP-OMR. Upon integration, the PE shall henceforth

use the GoP-OMR for government procurement purposes, and shall cease using the prior registry.

- 7.3 The PE shall coordinate with the PhilGEPS office to determine whether the existing registry is compatible with the GoP-OMR.
- 7.4 After a finding of compatibility, the PE shall integrate its registry with the GoP-OMR.

If the registries are incompatible, the PE shall cease using its registry and use the GoP-OMR. The PE shall be given sufficient amount of time to effect the shutdown of its electronic registry and the shift to the use of the GoP-OMR. The PE and the PhilGEPS office shall coordinate with each other for this purpose.

8.0 REGISTRIES WITH OTHER FUNCTIONALITIES

If a PE uses and maintains an electronic registry with functionalities aside from submission and/or recording of eligibility requirements, it shall use the GoP-OMR as its merchant registry but may be allowed to continue using the other functionalities of its system.

9.0 MANUAL REGISTRIES

PEs that maintain manual registries shall be encouraged to shift to the use of the GoP-OMR. If the PE decides to retain the use of its manual registry, it may do so; provided, however, that when the PE shifts to an electronic registry, it shall use the facilities of the GoP-OMR. After the shift, the PE shall henceforth use the GoP-OMR for government procurement purposes.

10.0 AMENDMENTS

In the implementation of these Guidelines, the Government Procurement Policy Board (GPPB) may introduce modifications through the amendment of its provisions as the need arises.

11.0 EFFECTIVITY

These Guidelines shall take effect fifteen (15) days after its publication in the Official Gazette or in a newspaper of general nationwide circulation, and upon filing with the University of the Philippines Law Center of three (3) certified copies of these guidelines.¹⁹²

¹⁹² Issued through GPPB Resolution 12-2012, dated 1 June 2012, and published in The Daily Tribune on 28 December 2012.

**APPENDIX 7
GUIDELINES ON THE GRANT OF HONORARIA TO GOVERNMENT PERSONNEL
INVOLVED IN GOVERNMENT PROCUREMENT**

DBM BUDGET CIRCULAR 2004-5A¹⁹⁵

1.0 Background

Budget Circular (BC) No. 2004-5A, dated March 23, 2004, provides the guidelines on the grant of honoraria to government personnel involved in government procurement consistent with Republic Act 9184 (Government Procurement Reform Act). Certain provisions thereof need further clarification particularly on the entitlement to honoraria when alternative modes of procurement are used, the definition of a "successful procurement project", and the funding source for payment of honoraria.

2.0 Purpose

To amend BC No. 2004-5 and reissue the guidelines on the grant of honoraria to qualified personnel.

3.0 Coverage

This circular shall apply to all national government agencies (NGAs), and its instrumentalities, including state universities and colleges (SUCs), government-owned or -controlled corporations (GOCCs) and local government units (LGUs).

4.0 Rationale

Honoraria is a form of compensation granted to individuals for the performance of tasks or involvement in activities beyond their regular functions. Equity calls for equal compensation for performance of substantially similar duties, with substantially similar degrees of responsibility. Propriety dictates that only persons who have successfully completed their tasks or participated in accomplished activities ought to be accomplished.

5.0 Guidelines

5.1 The chairs and members of the Bids and Awards Committee (BAC) and the Technical Working Group (TWG) may be paid honoraria only for successfully completed procurement projects. In accordance with Section 7 of the Implementing Rules and Regulations Part A (IRR-A) of RA No. 9184, a procurement project refers to the entire project identified, described, detailed, scheduled and budgeted for in the Project Procurement Management Plan prepared by the agency.

A procurement project shall be considered successfully completed once the contract has been awarded to the winning bidder.

5.2 The payment of honoraria shall be limited to procurement that involves competitive bidding. Competitive bidding activities are present only in:

¹⁹⁵ Issued on 7 October 2005.

- Open and competitive;
- Limited source bidding;

As such, it is the policy of the Government to engage the services of the AFPCOE in directly implementing projects as provided in these guidelines.

2.0 PURPOSE AND COVERAGE

These guidelines shall streamline and provide rules governing the implementation of infrastructure projects undertaken by the AFPCOE.

3.0 DEFINITION OF TERMS

- 3.1 **End-User Agency** – The agency that is the beneficiary of the project or source of funds of the project to be implemented by the AFPCOE.
- 3.2 **Implementing Unit** – The AFPCOE unit tasked to undertake the project as covered by a Construction Directive issued by the AFP Chief of Engineers or the Chief Engineers of the major services, namely: Army, Navy, and Air Force.
- 3.3 **Job Order** – The hiring of laborers for piece work or intermittent job of short duration not exceeding six (6) months and pay is on a daily or hourly basis. The Implementing Unit may recruit workers from the locality and directly hire them to provide the required labor for the project being undertaken, subject to applicable laws, rules and regulations. The Implementing Unit prepares a payroll that serves as the basis for the payment of wages to the workers.
- 3.4 **“Pakyaw” system** – The system of hiring laborers where the Implementing Unit invites, through appropriate procurement procedures, “pakyaw” groups to submit price quotations for the labor component required for a specified piece of work. The “pakyaw” groups shall comprise a group of laborers residing within the vicinity of the project site, and shall not be a regular licensed contractor.
- 3.5 **Projects Undertaken by Administration** - An infrastructure project is said to be undertaken by administration, from the point of view of the AFPCOE, if the Implementing Unit undertakes the project using its organic personnel through force account and/or “pakyaw” system, equipment and tools, as well as procures the construction supplies and materials necessary for project completion, and manages the project implementation.

4.0 TYPES OF PROJECTS THAT MAY BE UNDERTAKEN BY ADMINISTRATION

The following types of projects may be undertaken by administration by the AFPCOE:

- 4.1. DND-AFP infrastructure projects – Projects involving the construction, maintenance, and repair of facilities and utilities of the Department of National Defense (DND), Armed Forces of the Philippines (AFP), and other DND bureaus and agencies. These include infrastructure projects funded out of the DND appropriations and the proceeds of the disposition of military camps/stations under Republic Act 7227 which are intended for the replication of AFP facilities affected by such disposition.
- 4.2. End-User Agency infrastructure projects in high security risk areas – Projects funded by other government agencies and covered by a Memorandum of Agreement between them and the DND-AFP, to be implemented by the AFPCOE through funds transferred from the end-user agency to the DND-AFP. These include, but are not limited to, the construction and rehabilitation of roads, bridges, school buildings, housing and resettlement sites, irrigation and electrification projects and other vital facilities and utilities. However, these projects may only be undertaken by the AFPCOE in areas which are considered as high security risk areas or in areas with potential conflict or peace and order problem, as determined by the authorized officials of the DND/AFP.

- 5.1. Endorsement. The head of the procuring entity concerned shall endorse the request for price escalation to the NEDA, through its Director-General, accompanied by the following documents:
- a. A certification from the head of the procuring entity stating that the request for price escalation is justified in accordance with R.A. 9184, its IRR, and these Guidelines;
 - b. A description of the nature of the requested price escalation as well as the identification of the specific legal and technical parameters stated in these Guidelines that have been complied with by the request. For the technical requirements, supporting documents shall contain information/data in accordance with Section 5.2.2 hereof;
 - c. Certified copy of the original contract including the original scope of work and the original contract price, as awarded;
 - d. Original cost estimates and/or bill of materials of the items, goods or components affected by the request for price escalation and the proposed escalated prices thereof, as applicable to the type of contract, including a summary computation by the requesting entity of the proposed escalated prices in accordance with Sections 5.2.2 or 5.3, as deemed applicable; Provided, however, that the procuring entity shall maintain a detailed computation of the proposed price escalation;
 - e. Original and, if applicable, revised schedule of contract implementation;
 - f. Original request for price escalation submitted by the

contractor/supplier to the procuring entity, including information on the quantity of materials/components and/or scope of work being proposed for price escalation;

- g. Data on the price indices of the materials or goods, including the source of data used in the detailed computation of the proposed price escalation as referred to in item (d) above, covering a historical thirty (30)-month period reckoned from the date of bid opening; and
- h. Other information/documents as may be required by NEDA/GPPB.

5.2. Two-Stage Review Process. The review process shall commence only after the NEDA has acknowledged the completeness of the request in accordance with this Section. A request for price escalation shall only be granted if it satisfies both the First and Second Stage reviews.

5.2.1. First Stage: Legal Parameters. This stage shall establish the legal basis for extraordinary circumstances that will allow contract price escalation. The determination shall strictly be in accordance with any of the extraordinary circumstances mentioned in Section 4 of these Guidelines.

5.2.2. Second Stage: Technical Parameters. After establishing the legal basis under the First Stage review, the request for price escalation shall be further reviewed in accordance with the technical parameters stipulated herein.

(i) The prevailing monthly price index to be used in computing the mean shall be determined based on the volatility of the price concerned. Data for a locally available good, item, or component shall be those issued/published by the appropriate entity.

(ii) In case of an international good, item, or component wherein appropriate data is not available from domestic sources, data shall be those issued/published by the appropriate foreign entity.

(iii) In case of variation orders involving work items exactly the same or similar to those in the original contract, the applicable price indices for said work items prevailing on the date of bid opening of the original contract shall be used.

(iv) In case of variation orders involving new work items, the applicable price indices for said new work items prevailing on the date the variation order was approved shall be used.

a. Ten Percent (10%) Increase. If there are no available historical data for the appropriate price indices such that Section 5.2.2 (a) above becomes inapplicable, the request for price escalation of an item, good or component shall be

reviewed pursuant to this section wherein the subject applicable price index of a request should have registered an increase of more than ten percent (10%), as determined from the prevailing price index on the date of bid opening.

In case there are no applicable price indices for the item, good, or component, the applicable general wholesale price index shall be used.

5.2.3. Detailed Technical Parameters/Applicable Price Indices for Goods.

The detailed computation and validation of price escalation for goods as described in Section 5.2.2 above shall use the most appropriate price index of the commodity group under the three types of price indices, WPI, CPI, and PPI; Provided that, based on availability and applicability, the WPI for the commodity group shall first be utilized, followed by the CPI, and lastly the PPI. The indices for commodity groups shall be those presented under Annex A, as classified and issued by the National Statistics Office (NSO). For an item, good or component wherein the prevailing price index cannot be established, the review shall be conducted utilizing the most relevant and applicable index.

5.2.4. Detailed Technical Parameters/Applicable Price Indices for Infrastructure Projects.

The detailed computation and validation of price escalation for infrastructure projects as described in Section 5.2.2 above shall use the fluctuation factor K representing the increase or decrease of the value of an item as a result of price fluctuation.

- a. The value K varies for each item of work and is represented by the following:

$$K = a + b (X_i/X_o) + c (Y_i/Y_o) + d (Z_i/Z_o) + \dots + n (N_i/N_o)$$

Where:

a = is a 0.15 fixed coefficient representing contractor's profit, and other non-adjustable items.

b, c, d, ... n = are the coefficients representing the proportionate value of each pay item to the total. $b + c + d + \dots + n = 0.85$.

$X_i, Y_i, Z_i, \dots N_i$ = are variables representing the current price indices of the cost of labor, materials and other components of the contract during the period under consideration at the time of the request for price escalation, based on the original or duly

approved revised schedule of contract implementation, subject to Section 8 hereof.

$X_o, Y_o, Z_o, \dots N_o$ = are variables representing the current price indices of the cost of labor, materials and other components of the contract on the date of bid opening or approval of variation order.

The sum of $a + b + x + \dots n$ must be equal to 1 (100%)

b. The fluctuation factor and its application in the parametric formula shall include, among others, those listed in Annex B.

5.3. Amount of Price Escalation to be Granted. After this determination, the amount of escalation to be granted in the case of goods should only be the remaining amount over and above the thresholds as computed under Sections 5.2.2 (a) or 5.2.2 (b) hereof. In the case of infrastructure projects, the amount to be granted shall be determined based on the following:

Where	$K > 1.05,$	$P = P_o (K - 0.05)$
Where	$0.95 \leq K \leq 1.05,$	$P = P_o$
Where	$K < 0.95,$	$P = P_o (K + 0.05)$

Where	P	-	escalated bid/unit price
	P_o	-	original bid/unit price
	K	-	fluctuation factor

5.4. Period and Frequency of Requests for Price Escalation. Requests for price escalation shall only be made for cost items already incurred by the contractor/supplier, as supported by official receipts, sales invoices, or other documentary evidence. No request for price escalation shall be made for prospective application. Further, price escalation shall only be granted to those items included in a specific request; Provided further, that requests for price escalation shall be made not less than six (6) months reckoned from the date of the effectivity of the contract, and not less than six (6)-month period thereafter, except for price escalation being requested at the completion of the contract.

5.5. Misrepresentation. Any misrepresentation made by the procuring entity or the contractor/supplier in any stage of the processing of a particular request for price escalation shall cause the automatic denial/disapproval of said claim.

5.6. Recommendation/Approval. Pursuant to Section 61.3 of the IRR²⁵⁵ of R.A. 9184, the burden of proving the occurrence of extraordinary circumstances that will allow for price escalation shall rest with the procuring entity requesting for such escalation. NEDA shall only respond to such request after receiving the necessary proof and documentation. Upon completion of its review pursuant to Section 5.2 hereof, NEDA shall submit its

²⁵⁵ As amended by GPPB Resolution 03-2011, dated 28 January 2011, published in the Manila Times on 6 April 2011.

recommendations to the GPPB for appropriate action. The GPPB shall then approve/act upon the request for price escalation during one of its meetings, to be attended by the head of the procuring entity concerned or his duly authorized representative/s.

6.0 REVIEW OF CONTRACT PRICES AFTER COMPLETION OF THE CONTRACT

Upon completion of the contract, the procuring entity shall calculate the amount of price escalation supposedly due the contractor/supplier/consultant to consider likewise any downward movement in prices during the entire contract implementation period. If the resulting amount of price escalation is lower than the amount of price escalation already paid, the amount of overpayment shall be deducted by the procuring entity from the retention money, in case of infrastructure projects, or the warranty security, in case of goods, on or before its expiration.

7.0 AUTHORITY TO APPROVE CONTRACT PRICE ESCALATION

- 7.1. The head of the procuring entity shall not pay any contract price escalation until after the GPPB has approved the claim.
- 7.2. The approval by the GPPB of the request for contract price escalation shall in no way be construed as an approval or validation of any irregularity committed by the requesting entity during the procurement process.

8.0 OTHER CONDITIONS FOR APPROVAL

- 8.1. In case the project is behind schedule based on the approved Project Evaluation Review Technique/Critical Path Method (PERT/CPM) network or schedule, price escalation on the portion of work that should have been, but was not, actually accomplished within the period shall be based on the applicable price index for the period in which it should have been accomplished. Payment of the computed amount shall not be made until said unaccomplished portion of the work is completed and upon prior approval of the GPPB and the head of the procuring entity.
- 8.2. Where advance payment has been made, no price escalation shall be granted for the following:
 - a. That portion of work accomplished during the period corresponding to a value equal to the amount of recoupment of advance payment; and
 - b. The amount of materials for which advance payment was made.

9.0 AMENDMENT AND ADDENDA

The GPPB may amend these Guidelines as may be necessary. Nevertheless, the GPPB may formulate supplemental guidelines in the form of addenda or annexes for the review process as stipulated in Section 5.2 hereof without need of amending these Guidelines.

10.0 TRANSITORY CLAUSE

- 10.1. Claims for price escalation for contracts completed after the effectivity of these Guidelines shall be filed within two (2) years from completion of the contract concerned.
- 10.2. Claims for price escalation for contracts the Invitation to Apply for Eligibility and to Bid (IAEB) for which were issued after the effectivity of R.A. 9184 and completed before the effectivity of these Guidelines shall be filed not later than two (2) years from the date of effectivity of these Guidelines.
- 10.3. The thirty (30) – month historical data prescribed in computing for two (2) standard deviations as provided in Section 5.2.2.a shall apply to price escalation claims for contracts the IAEB for which were issued after the effectivity of these Guidelines.

11.0 EFFECTIVITY CLAUSE

These Guidelines or any amendments thereof shall take effect immediately after publication in the Official Gazette or a newspaper of general nationwide circulation and upon filing with the University of the Philippines Law Center of three (3) certified copies of these Guidelines.²⁵⁶

I. FACTS

1. There is legal basis to claim for price escalation in accordance with Section 4 of these Guidelines.
2. The work item identified to have been affected by the extraordinary circumstance is Reinforcing Steel Bars or K19 of Annex B of these Guidelines.

$$K19 = 0.15 + 0.06 (L_i/L_o) + 0.67 (R_i/R_o) + 0.04 (F_i/F_o) + 0.08 (E_i/E_o)$$

Where

- L ~ refers to labor index
- R ~ refers to reinforcing steel bars wholesale price index
- F ~ refers to automotive fuel price index
- E ~ refers to equipment price index
- i ~ refers to the value of the index for the month under consideration
- o ~ refers to the value of the index during opening of bid

3. The date of bid opening for the subject contract was December 2007 and the contract was implemented starting January 2008.
4. The six (6) – month period under consideration for contract price escalation is from January to June 2008.
5. The thirty (30) – month historical data for the components of K19 necessary for testing compliance with the Technical Parameters under Section 5.2.2 of these Guidelines is from July 2005 to December 2007 (*Please refer to Table 1 of this Annex for the relevant price indices provided under Annex B of these Guidelines*).

II. COMPUTATION FOR GRANT OF PRICE ESCALATION

The following steps illustrate how to determine whether request for price escalation may be granted using the 2 Standard Deviation (STDEV) rule under Section 5.2.2.a:

1. Compute the Mean for each component of K19 using the data in Table 1 for the entire thirty (30) month period (July 2005 to December 2007).

Table 1: Computation for the Mean

K19 Component	Formula for Mean	Mean
Labor (L)	$\frac{\Sigma L \text{ from Jul05 to Dec07}}{30}$	343.7
Reinforcing Steel (R)	$\frac{\Sigma R \text{ from Jul05 to Dec07}}{30}$	524.7
Automotive Fuel (F)	$\frac{\Sigma F \text{ from Jul05 to Dec07}}{30}$	536.9
Equipment (E)	$\frac{\Sigma E \text{ from Jul05 to Dec07}}{30}$	321.4

2. Compute the 2 STDEV above Mean ($2\sigma+\mu$) of each K19 component by adding the Mean computed under Step 1 to the 2 STDEV. The 2 STDEV is computed by getting the STDEV of the thirty (30) – month historical data of each K19 component and multiplying it by 2.²⁵⁷

Table 2: Computation for the 2 STDEV above Mean

K19 Component	STDEV [STDEV (Jul05 to Dec07)]	2 STDEV [(STDEV) * 2]	2σ+μ [2 STDEV + Mean]
Labor (L)	14.1	28.2	371.87
Reinforcing Steel (R)	19.2	38.4	563.02
Automotive Fuel (F)	32.3	64.6	501.50
Equipment (E)	10.5	20.9	342.31

3. Establish the K19 Threshold by substituting the values of the 2 STDEV above Mean computed in Step 2 into the K19 work item formula as follows:

$$\begin{aligned}
 \text{K19 Threshold} &= 0.15 + 0.06 (2\sigma+\mu)_L + 0.67 (2\sigma+\mu)_R + 0.04 (2\sigma+\mu)_F + 0.08 (2\sigma+\mu)_E \\
 &= 0.15 + 0.06 (371.87) + 0.67 (563.02) + 0.04 (501.50) + 0.08 (342.31) \\
 &= \mathbf{447.13}
 \end{aligned}$$

4. Compute the Average Value of each price index for the six (6) – month period (January to June 2008) under consideration for contract price escalation. (Please refer to Table 1 of this Annex)

Table 3: Computation for Average Value of Price Index (Jan to Jun 2008)

K19 Component	Average Value
Labor (L)	364.8
Reinforcing Steel (R)	625.1
Automotive Fuel (F)	542.1
Equipment (E)	328.7

5. Establish K19 Average by computing the six (6) – month Average Value of the work item for the period under consideration for price escalation (January to June 2008) as follows:

$$\text{K19 Average} = 0.15 + 0.06 (\text{Ave. Value})_L + 0.67 (\text{Ave. Value})_R + 0.04 (\text{Ave. Value})_F + 0.08 (\text{Ave. Value})_E$$

²⁵⁷ Computation of the STDEV is easily done using spreadsheet applications such as Apple Numbers, Microsoft Excel, and OpenOffice.org Calc.

$$\text{K19 Average} = 0.15 + 0.06 (364.8) + 0.67 (625.1) + 0.04 (542.1) + 0.08 (328.7)$$

$$\text{K19 Average} = \mathbf{488.8}$$

6. To determine whether request for price escalation may be granted, the K19 Average should be compared to the K19 Threshold. If K19 Average is greater than K19 Threshold, price escalation may be granted; otherwise, the request for price escalation should be denied.
7. In the above example, K19 Average is greater than K19 Threshold. Therefore, price escalation may be granted for the period of January to June 2008.

III. COMPUTATION FOR AMOUNT OF PRICE ESCALATION

After determining that price escalation may be granted for the period under consideration, the computation for the amount to be granted is done for each month of said period.

1. Compute the Monthly Rates of Increase for the period under consideration (January to June 2008) in accordance with Section 5.2.4.a of these Guidelines as follows:

$$\begin{aligned} \text{K19 June} &= 0.15 + 0.06 (L_i/L_o) + 0.67 (R_i/R_o) + 0.04 (F_i/F_o) + 0.08 (E_i/E_o) \\ &= 0.15 + 0.06 (1.05) + 0.67 (1.31) + 0.04 (1.25) + 0.08 (1.12) \\ &= \mathbf{1.23} \end{aligned}$$

$$\begin{aligned} \text{K19 May} &= 0.15 + 0.06 (L_i/L_o) + 0.67 (R_i/R_o) + 0.04 (F_i/F_o) + 0.08 (E_i/E_o) \\ &= 0.15 + 0.06 (1.00) + 0.67 (1.16) + 0.04 (1.11) + 0.08 (1.12) \\ &= \mathbf{1.12} \end{aligned}$$

$$\begin{aligned} \text{K19 April} &= 0.15 + 0.06 (L_i/L_o) + 0.67 (R_i/R_o) + 0.04 (F_i/F_o) + 0.08 (E_i/E_o) \\ &= 0.15 + 0.06 (1.00) + 0.67 (1.10) + 0.04 (1.04) + 0.08 (1.12) \\ &= \mathbf{1.08} \end{aligned}$$

$$\begin{aligned} \text{K19 Mar} &= 0.15 + 0.06 (L_i/L_o) + 0.67 (R_i/R_o) + 0.04 (F_i/F_o) + 0.08 (E_i/E_o) \\ &= 0.15 + 0.06 (1.00) + 0.67 (1.05) + 0.04 (1.01) + 0.08 (1.12) \\ &= \mathbf{1.04} \end{aligned}$$

$$\begin{aligned} \text{K19 Feb} &= 0.15 + 0.06 (L_i/L_o) + 0.67 (R_i/R_o) + 0.04 (F_i/F_o) + 0.08 (E_i/E_o) \\ &= 0.15 + 0.06 (1.00) + 0.67 (1.03) + 0.04 (0.98) + 0.08 (1.12) \\ &= \mathbf{1.03} \end{aligned}$$

$$\begin{aligned} \text{K19 Jan} &= 0.15 + 0.06 (L_i/L_o) + 0.67 (R_i/R_o) + 0.04 (F_i/F_o) + 0.08 (E_i/E_o) \\ &= 0.15 + 0.06 (1.00) + 0.67 (1.03) + 0.04 (1.00) + 0.08 (1.12) \\ &= \mathbf{1.03} \end{aligned}$$

2. Compute the Percentage Rate of Increase for the work item for each month of the period under consideration in accordance with Section 5.3 as follows:

$$\begin{aligned} P_{\text{June}} &= P_o (1.23 - 0.05) \\ &= \mathbf{P_o (1.18)} \end{aligned}$$

$$\begin{aligned}
 P_{\text{May}} &= P_o (1.12 - 0.05) \\
 &= \mathbf{P_o (1.07)} \\
 P_{\text{April}} &= P_o (1.08 - 0.05) \\
 &= \mathbf{P_o (1.03)} \\
 P_{\text{Mar}} &= \mathbf{P_o} \\
 P_{\text{Feb}} &= \mathbf{P_o} \\
 P_{\text{Jan}} &= \mathbf{P_o}
 \end{aligned}$$

This shows that the Escalated Value of the work item for the months of June, May, and April is 18%, 7%, and 3%, respectively, higher than the original value of the work item.

3. Compute the Escalated Value to be granted for the work item by applying the Percentage Rate of Increase for each month to the monthly billing, which should be supported by official receipts, sales invoices, and other acceptable documentary evidence, as follows:

Table 4: Computation for the Escalated Value

Month	Percentage Rate of Increase	Monthly Billing	Escalated Value
January	0	P1 Million	0
February	0	P1 Million	0
March	0	P1 Million	0
April	3	P1 Million	P30,000
May	7	P1 Million	P70,000
June	18	P1 Million	P180,000

**APPENDIX 16
GUIDELINES ON PROCUREMENTS INVOLVING FOREIGN-DENOMINATED BIDS,
CONTRACT PRICES AND PAYMENT USING LETTERS OF CREDIT**

1.0 POLICY STATEMENT

Pursuant to Section 61 of Republic Act No. 9184 and its counterpart provision in the Implementing Rules and Regulations (IRR),²⁵⁸ for the given scope of work in procurement contracts as awarded, all bid prices shall be considered as fixed prices and, therefore, not subject to price escalation during contract implementation, except under extraordinary circumstances. Thus, to ensure that this policy is carried out, it is required, as a matter of general rule and procedure, that all contracts be denominated and paid in Philippine currency; except when the procuring entity agrees that obligations shall be settled in any other currency at the time of payment, subject to conditions provided for under these guidelines.

2.0 SCOPE AND APPLICATION

These guidelines shall apply to procurement of goods involving foreign denominated bids, contract prices in foreign and local currencies, and payments for such contracts when done through Letters of Credit (LCs).

3.0 PURPOSE

These guidelines are formulated: (1) to implement the policy on fixed-pricing under Section 61 of Republic Act No. 9184 (R.A. 9184), otherwise known as "Government Procurement Reform Act," (2) to provide procedural details in the submission and evaluation of bids when the bidders are all-foreign or mixed local and foreign; and finally, (3) to address situations where, by the use of letters of credit as mode of payment to manufacturers, suppliers and/or distributors, there is a resulting increase/decrease of the actual amount of expenditure of the procuring entity resulting from the appreciation/depreciation of the peso from the day of bid opening through the time of the opening of LC until the time of its negotiation, including the accrual of expenses by reason of the opening of letters of credit.

4.0 PREPARATION OF BIDDING DOCUMENTS

4.1. The procuring entity shall include in the Bidding Documents, as a separate item in the Schedule of Requirements and in the Special Conditions of Contract, a provisional sum to cover the possible increase of the actual amount of expenditure of the procuring entity resulting from the appreciation/depreciation of the peso from the day of bid opening through the time of the opening of LC until the time of its negotiation, including the accrual of expenses by reason of the opening of letters of credit.

4.1.1. The provisional sum shall be a fixed nominal amount as may be determined by the procuring entity depending on the type of goods to be procured. However, the provisional sum shall not exceed ten percent (10%) of the Approved Budget for the Contract (ABC). The provisional sum shall be included in the Annual Procurement Plan.

²⁵⁸ As amended by GPPB Resolution 03-2011, dated 28 January 2011, published in the Manila Times on 6 April 2011.

The same shall revert to the fund of the procuring entity as savings in case of non-use.

- 4.1.2. In the preparation of the Annual Procurement Plan, the procuring entity shall disaggregate, when applicable, the funds allocated for the project and the provisional sum. The sum total of both funds shall be the ABC.
- 4.2. The face value of the LC shall be determined in accordance with the following procedures which shall be stated in the bidding documents:
 - 4.2.1. The amount of the foreign-denominated portion of the bid stated in the contract shall be converted to Philippine peso based on the foreign exchange rate at the date of the LC opening.
 - 4.2.2. If at the date of LC opening, the said peso equivalent is lower than the peso amount stated in the contract, the face value of the LC shall be the full amount of the foreign-denominated portion of the bid stated in the contract.
 - 4.2.3. If at the date of LC opening, the said peso equivalent is higher than the peso amount stated in the contract, the face value of the LC shall be the full amount of the foreign-denominated portion of the bid stated in the contract, in which case, the provisional sum shall be used to cover the difference.
 - 4.2.4. If the effect of the foreign exchange fluctuation exceeds the provisional sum, the excess thereof shall be borne by the bidder; and the face value of the LC shall be the foreign equivalent of the peso contract price plus the provisional sum.
- 4.3. All charges for the opening of the LC and/or incidental expenses thereto (i.e., bank commission, documentary stamp tax, cable, etc.) shall be for the account of the supplier and shall be so stated in the bidding documents.

5.0 SUBMISSION AND EVALUATION OF BIDS

- 5.1. All bids may be denominated wholly in local currency or wholly in foreign currency, which shall be accepted or tradeable by the Bangko Sentral ng Pilipinas,²⁵⁹ or a combination thereof; provided, however, that foreign component of bids shall cover only imported goods as supported by import documents.
- 5.2. For purposes of bid evaluation and comparison, bids denominated, in whole or in part, in foreign currency shall be converted to Philippine currency based on the exchange rate prevailing on the day of the bid opening.

6.0 CONTRACT PRICES

- 6.1. As a general rule, Contracts shall be denominated and paid in Philippine currency, except when the procuring entity agrees that obligations shall be

²⁵⁹ As amended by GPPB Resolution No. 15-2020, dated 28 July 2020, published in the Official Gazette on 21 September 2020.

settled in any ~~other~~ currency, which shall be accepted or tradeable by the Bangko Sentral ng Pilipinas,²⁶⁰ subject to conditions provided for under these guidelines.

- 6.1.1. In case procurement is done through competitive bidding and offers are received in foreign currency, the foreign bid shall, in determining the contract price, be converted to Philippine Peso based on the prevailing rate on the date of bid opening.
- 6.1.2. In case procurement is made through any of the alternative methods prescribed in the IRR²⁶¹ of R.A. 9184 that do not require the conduct of competitive bidding, and offers are received in foreign currency, the Philippine Peso amount of the contract shall be computed based on the exchange rate prevailing on the day of the signing of the contract.
- 6.1.3. In case of repeat order under Section 51 of the IRR²⁶² of R.A. 9184, the contract price, either in Philippine Peso or in foreign currency, must be the same as or lower than that in the original contract; Provided, however, that the price is still the most advantageous to the Government, after price comparison and verification.

7.0 PAYMENTS USING LETTERS OF CREDIT (LCs)

- 7.1. For procurement projects fully utilizing domestic or foreign²⁶³ funds, where the goods will be supplied by a foreign supplier, the procuring entity, may open LCs or similar instruments in favor of such foreign supplier from a Government Servicing Bank. Payment/s shall be made on the letter of credit only after the delivery and acceptance of the goods as certified by the Procuring Entity.²⁶⁴
- 7.2. In cases where the procuring entity has to incur additional expenses resulting from the opening of LC where it assumes the risk of foreign currency fluctuation from time of LC opening with the issuing bank until it is eventually negotiated with the foreign negotiating bank in the place of the foreign supplier, said expenses shall be covered by the provisional sum.

8.0 EFFECTIVITY

These Guidelines or any amendments hereto shall take effect fifteen (15) days after publication in the Official Gazette or in a newspaper of general nationwide circulation and upon filing with the University of the Philippines Law Center of three (3) certified copies of these guidelines.²⁶⁵

Non-posting of the Blacklisting Order or the non-inclusion of the name of the Blacklisted Entity in the GPPB Consolidated Blacklisting Report does not affect the status of the Blacklisted Entity in as much as the operative act of the blacklisting is the issuance of the Blacklisting Order by the Procuring Entity concerned, and not the posting in the Online Blacklisting Portal.³³⁴ (n)

2.0 PURPOSE

These guidelines are formulated to meet the following objectives:

- 2.1 Prescribe the appropriate method under R.A. 9184 that applies to the procurement of water, electricity, telecommunications, and internet service providers; and
- 2.2 Provide additional guidelines to ensure that contractual arrangements with service providers continue to be favorable to the interest of the government applying cost-benefit analysis and, thus, remain consistent with the principles of R.A. 9184.

3.0 PROCEDURES AND GUIDELINES

3.1 *Water and Electricity Services*

Considering that water and electricity service providers are granted exclusive franchises to operate within a specific territory, procurement of water and electricity services shall be done through direct contracting under Section 50 (c) of the Implementing Rules and Regulations (IRR)³⁴⁴ of R.A. 9184. This provision does not apply to the purchase of bottled water or to the procurement by any agency of the government, whether national or local, in its operation as water or electric concessionaire (e.g. repair of pumping stations).

3.2 *Telecommunications (Landline and Cellular Phones)*

3.2.1 *Existing Lines*

Telephone and cellular lines are critical in the day-to-day pursuit of public business. Their continuity ensures proper coordination within the organization and the efficient delivery of public service. Further,

³⁴⁴ As amended by GPPB Resolution 03-2011, dated 28 January 2011, published in the Manila Times on 6 April 2011.

telephone and cellular numbers are usually identified with certain government agencies or a range of public services that the government may offer (e.g., 117). As such:

- 3.2.1.1 Contractual agreements previously entered into with telecommunication companies shall be respected.
- 3.2.1.2 At the end of each year, however, the procuring entity must assess the quality of service provided by its telecommunication service provider. For instance, it must compare the cost charged by its existing telephone or cellular phone service provider and the range of services it offers as against other service providers in the area.
- 3.2.1.3 If results of said assessment or cost-benefit analysis, conducted by the end-user,³⁴⁵ continue to favor the existing service provider, then the Head of the Procuring Entity³⁴⁶ may simply renew its services. If it does not, then the procuring entity should bid said services in accordance with Subsection 3.2.2 of these guidelines. For efficiency and economy, during the effectivity of the contract, or upon its renewal, the PE may consider the expansion or reduction of the services provided by the existing service provider subject to the need of the PE and the best way by which such need may be addressed and satisfied, subject to existing budgeting, accounting and auditing rules.^{347 (a)}
- 3.2.1.4 Repeat order under Section 51 of R.A. 9184 may be resorted to by the procuring entity if additional lines are needed during the year. For this purpose, the requirement under Section 51 (c) of the IRR that the repeat order may only be availed of within six (6) months from the effectivity period stated in the Notice to Proceed arising from the original contract may be dispensed with.³⁴⁸

3.2.2 *New Lines*

If the procuring entity does not have an existing telephone service contractor or, after conduct of a cost-benefit analysis as required in the preceding subsection, is not satisfied with the performance of its previous service contractor, the following procurement methods are prescribed:

³⁴⁵ As amended by GPPB Resolution No. 41-2017 dated 21 December 2017, published in the Philippine Daily Inquirer on 24 April 2018.

³⁴⁶ Ibid.

³⁴⁷ Ibid.

³⁴⁸ As amended by GPPB Resolution 03-2011, dated 28 January 2011, published in the Manila Times on 6 April 2011.

3.2.2.1 If there is more than one service contractor operating within the area, competitive public bidding or any of the applicable alternative methods of procurement.³⁴⁹ (a)

3.2.2.2 If there is only one service contractor operating within the area, direct contracting.

3.3 *Internet Service Providers (ISP)*

3.3.1 *Existing ISPs*

ISPs provide the initial infrastructure requirements (e.g., cabling) necessary in the provision of internet access. Changing ISPs every year may therefore prove to be more costly to government as every new ISP would have to charge the procuring entity for this initial investment. Further, changing ISPs entails interruption of internet access and, thus, any public service dependent on such access. Thus:

3.3.1.1 Contractual agreements previously entered into with ISPs shall be respected.

3.3.1.2 At the end of each year, however, the procuring entity must assess the quality of service provided by its ISP. For instance, it must compare the cost charged by said ISP and the range of services it offers as against other service providers in the area. It may also consider new technologies that may prove less costly or those that are more advantageous to the government in terms of use, capacity and services offered, e.g. bandwidth, speed, platform, additional services, such as, but not limited to cloud computing, cloud storage, etc.³⁵⁰ (a)

In assessing the quality of service provided by its ISP, procuring entities are encouraged to consult the Department of Information and Communications Technology or³⁵¹ National Telecommunications Commission or other relevant government agencies regarding any new policy or directive in the implementation or use of new technology. (a)

3.3.1.3 If the results of said assessment or cost-benefit analysis, conducted by the end-user,³⁵² continue to favor the existing ISP, then the procuring entity may simply renew its services. If it does not, then the Head of the Procuring Entity³⁵³ should bid said services in accordance with subsection 3.3.2 of these guidelines. For efficiency and

economy, during the effectivity of the contract, or upon its renewal, the PE may consider the expansion or reduction of the services provided by the existing service provider subject to the need of the PE and the best way by which such need may be addressed and satisfied, subject to existing budgeting, accounting and auditing rules.³⁵⁴(a)

3.3.2 *New ISPs*

If the procuring entity does not presently engage an ISP or, after conduct of a cost-benefit analysis as required in the preceding subsection, is not satisfied with the performance of its existing ISP, the following procurement methods are prescribed:

3.3.2.1 If there are more than one service contractor operating within the area, public bidding or any of the applicable alternative methods of procurement.³⁵⁵(a)

3.3.2.2 If there is only one service contractor operating within the area, direct contracting.

4.0 REPORTORIAL REQUIREMENT

Procurement of water, electricity, telecommunications, and internet service shall be stated in the Annual Procurement Plan of the procuring entity. It shall include the estimated budget for each service and the procurement method employed.

5.0 EFFECTIVITY

These guidelines shall take effect immediately.³⁵⁶

The procuring entity may provide the delivery schedule of the supplier to DOE.³⁷⁰ (n)

6.0 INDEX-BASED PRICING FOR PETROLEUM, OIL AND LUBRICANT PRODUCTS

6.1. The WPP index shall be used in the procurement of the following products:

- i. Premium, Unleaded or Regular Gasoline;
- ii. Automotive Diesel Oil

6.2. The MOPS index shall be used in the procurement of the following products:

- ii. Low Sulfur Fuel Oil;
- iii. Industrial Diesel Oil;
- iv. Jet A-1;³⁷¹
- v. AVGAS; and³⁷²
- vi. Aviation Fuel Additives.³⁷³

6.3. In the procurement of all types of lubricant products, the procuring entity may adopt either a fixed or index-based pricing. If its assessment or cost-benefit analysis indicates that index-based pricing is more advantageous, then it shall adopt the ICIS-LOR index.

6.4. The foregoing list shall be subject to annual review, modification or re-classification by the GPPB, or as often as it deems necessary.

7.0 SPECIFIC GUIDELINES³⁷⁴

7.1. The Procuring Entity shall indicate in its ITB among others the ABC per product with indicative volume for bidding purposes only. Regardless of the index used, the bid price shall be determined by the prospective supplier's bid, less discounts given plus delivery cost.

³⁶⁹ As amended by GPPB Resolution No. 26-2019, dated 30 October 2019, published in the Official Gazette on 30 December 2019.

³⁷⁴ As amended by GPPB Resolution No. 26-2019, dated 30 October 2019, published in the Official Gazette on 30 December 2019.

- 7.2. Cost for E-VAT and other governmental costs are presumed to be included in the computation of the bid price by the prospective suppliers.
- 7.3. For purposes of bid evaluation and/or comparison of bids, regardless of the index used, the Lowest Calculated Bid shall be determined by identifying the bidder that offered the lowest bid price.
- 7.4. For purposes of payment, the bid price, discount and the delivery cost stated in the contract shall be fixed from the time of the bidding through the term of the contract. Delivery should be done at the end of the week. The amount to be paid by the procuring entity for POL requirements actually delivered and duly received by it shall be:
 - 7.4.1. For the WP index, the bid price, less the discounts offered, if any, plus or minus the weekly price adjustments duly posted by the Oil Industry Management Bureau (OIMB) of the Department of Energy (DOE) in its Price Watch / Price Adjustments / Fuel page in the DOE's website, and the delivery cost stated in the contract, at the date of actual delivery [Payment = (bid price – discounts) +/- (DOE) weekly price adjustments for gasoline and diesel)+ (delivery cost or DC)];

 - 7.4.3. For the ICIS-LOR Index, the bid price, less the discounts offered, if any, plus or minus the ICIS-LOR pricing adjustment, the delivery cost stated in the contract, at the date of actual delivery [Payment =(bid price –discounts) +/- (ICIS pricing adjustments) + (DC)].
- 7.5. The supplier will provide a detailed price adjustment for its POL products actually delivered, as part of its billing (weekly price adjustments for WP index, daily traded MOPS pricing, and ICIS pricing adjustment), together with its certification under oath that:
 - 7.5.1. The supplier's price adjustments are those reported and duly posted at DOE's website for products using the WP index;
 - 7.5.2. The supplier's week on week price adjustments are based on the daily prices traded in MOPS for products using the MOPS index; or
 - 7.5.3. The supplier's price adjustment is based on ICIS-LOR pricing for the month for lubricant products.

7.6. Illustrative Example Computation

7.6.1. Illustrative Example of the First Delivery for Diesel ⁽ⁿ⁾

- a. Bid opening was 2nd week January. Winning bidder offered bid price of P25.00/liter for diesel, already with discount. Delivery cost is 5c/liter (fixed).
- b. Total Contract Price is P7,500,000.00 for estimated 200,000 liters of diesel.
- c. Staggered deliveries. PE has ordered for 16,000-22,000 liters to be delivered at the scheduled deliveries (i.e. monthly delivery, but end of the week), subject to adjustment of the volumes.
- d. End user may verify the price adjustments by checking the DOE’s website, www.doe.gov.ph, go to Price Watch, then Price Adjustments tab/menu, then Fuels.

For example, first delivery is at 3rd week of February for diesel.

7.6.2. Illustrative Example of the Computation for First Delivery of AVGAS

- a. Bid opening was 2nd week January. Winning bidder offered bid price of P20.00/liter for AVGAS, already with discount. Delivery cost is 5c/liter (fixed).
- b. Total Contract Price is P2,200,000.00 for estimated 120,000 liters of diesel.
- c. Staggered deliveries. PE has ordered for 10,000-12,000 liters to be delivered at the scheduled deliveries (i.e. bi-monthly delivery, but end of the week), subject to adjustment of the volumes.

For example, first delivery is on the end of 2nd week February (i.e. February 15) for AVGAS.

1. Bid price at 3rd week Jan (i.e. Jan. 18) P20.00/liter (fixed)
2. MOPS week on week Price Adjustments: difference between average of the past week and the average of present week; check daily traded MOPS pricing which is in US dollars per Barrel (bbl):
 - 2.1. Week 0, Jan. 18: Monday MOPS price at \$60/bbl+ Tue MOPS price at \$63/bbl + Wed MOPS price at \$64/bbl+ Thurs MOPS price at \$62/bbl + Friday MOPS price at \$60/ bbl, divide by 5, to get the average.
 - 2.2. Week 1, Jan. 25: Monday MOPS price at \$61/bbl+ Tue MOPS price at \$63/bbl + Wed MOPS price at \$64/bbl+ Thurs MOPS price at \$64/bbl + Friday MOPS price at \$62/bbl, divide by 5, to get the average.
 - 2.3. Thus: week 0 ave. \$61.8/bbl – week 1 ave. of \$62.8/bbl, = increase of \$1/bbl for week 1 (Jan.25).
 - 2.4. Get weekly average for week 2. Get difference from week 1 (Jan. 25) against week 2 (Feb. 1). The difference is the week on week price adjustment for week 2. Repeat process on getting week on week price adjustments until first delivery date (Feb.15).
 - 2.5. Convert the peso to dollar and the barrel to liters (1 Oil Barrel to 159 liters) per week. Use the Bangko Sentral ng Pilipinas (BSP) exchange rate at the end of the week.

3. MOPS week on week price adjustments:

+	(0.33/liter	Jan	25)

Feb. 15		$(\$61+63+64+64+65) / 5 = \63.40	Increase by \$0.80	$(52.735* 0.80) / 159 = P0.27$					
Total	P20.00		Increase by \$1.60	P0.53	P20.53	10,000 liters	P208,700	P500	P209,200

7.7. For staggered deliveries, the end- user or acceptance team shall make, after every delivery, an accounting of the amount actually payable based on the date of the delivery receipt to determine the allowable unit/volume that may be ordered from the remaining amount allotted for each POL product. The procuring entity shall be allowed to make adjustments in the units/volume to be delivered per type of product to conform to the remaining amount in the total contract price.

APPENDIX 23**GUIDELINES ON THE PROCUREMENT OF SECURITY AND JANITORIAL SERVICES****1.0 POLICY STATEMENT**

Under Section 5 (h) of Republic Act No. 9184 (R.A. 9184), as reiterated in Section 5 (r) of its Implementing Rules and Regulations (IRR)³⁷⁷, procurement of general support services, including non-personal or contractual services, such as security and janitorial services, falls under the definition of goods. Thus, in the procurement of security or janitorial services, the winning bid is determined by the lowest calculated and responsive bid.

It is recognized, however, that the proper and efficient procurement of security and janitorial services should be based not solely on cost, but should also take into consideration a range of other factors, such as, but not limited to, length of contract, standards of internal governance, adequacy of resources, levels of training, and adherence to labor and other social legislation.

2.0 SCOPE AND APPLICATION

These guidelines shall govern the procurement of security and janitorial services by government agencies.

These guidelines shall not apply to the procurement of other general support services, such as, repair and maintenance of equipment and furniture, trucking, hauling, and other services.

3.0 PURPOSE

These guidelines are formulated to meet the following objectives:

- 3.0. To prescribe an objective set of parameters in the evaluation of technical proposals for security and janitorial services;
- 3.1. To provide conditions on the use of multi-year contracts for security and janitorial services.

4.0 ADDITIONAL SET OF TECHNICAL PARAMETERS

- 4.1 Procuring entities are highly encouraged to evaluate the technical proposal of bidders using the additional set of parameters prescribed in Appendix A of these guidelines. However, considering that procuring entities have different needs and requirements, the minimum standard for each parameter shall be determined by the procuring entity.

Additional technical parameters and minimum standard for each parameter must be expressly stated under *Section VII. Technical Specifications* of the Philippine Bidding Documents for the Procurement of Goods (PBDs).

³⁷⁷ As amended by GPPB Resolution 03-2011, dated 28 January 2011, published in the Manila Times on 6 April 2011.

- 4.2 To determine compliance with these parameters, procuring entity may require additional documents or materials as part of the bidder's technical proposal. These additional documents or materials must be expressly stated in Section VII: Technical Specifications of the PBDs for the Procurement of Goods consistent with Section 25.2 (a) (vii) of the IRR of R.A. 9184.³⁷⁸
- 4.3 The procuring entity shall check compliance with the technical parameters using a non-discretionary "pass/fail" criteria

5.0 MULTI-YEAR CONTRACTS

Procuring entities may enter into multi-year contracts, but not to exceed three (3) years, in the procurement of security and janitorial services, subject to the following conditions:

- 5.1. The Invitation to Apply for Eligibility and to Bid must expressly state the following:
 - 5.1.1. Duration of the contract to be bid, which should not exceed three (3) years;
 - 5.1.2. The Approved Budget for the Contract (ABC) for the first year only.
- 5.2. All bid prices for a duration of three (3) years shall be fixed and shall not be adjusted during contract implementation, except for the following:
 - 5.2.1. Increase in minimum daily wage pursuant to law or new wage order issued after date of bidding,
 - 5.2.2. Increase in taxes; and
 - 5.2.3. If during the term of the contract the procuring entity sees the need for an increase or decrease in the number of security guards or janitorial attendants, the resulting cost of said increase or decrease, provided that the ABC for the relevant year is not exceeded.

The procuring entity shall ensure that the foregoing allowable price adjustments are specified under Section 8.1 of the Special Conditions of Contract of the PBDs.
- 5.3. The Financial Proposal shall contain a breakdown of all costs, including cost of supplies and equipment, necessary for the execution of the contract.
- 5.4. Procuring entities shall expressly provide, under *Section VII. Technical Specifications*, which shall form part of the contract under Section 13.1 of the General Conditions of the Contract of the PBDs, that the service provider/contractor shall maintain a satisfactory level of performance throughout the term of the contract based on a prescribed set of performance criteria.

³⁷⁸ *Ibid.* (As amended by the 2016 Revised IRR of R.A. No. 9184.)

The performance criteria to be applied shall include, among others, the following: (i) quality of service delivered; (ii) time management; (iii) management and suitability of personnel; (iv) contract administration and management; and (v) provision of regular progress reports.

- 5.5. Before end of each year, procuring entities shall conduct an assessment or evaluation of the performance of the service provider/contractor based on the set of performance criteria prescribed under *Section VII. Technical Specifications*.
- 5.6. Based on its assessment, the procuring entity may pre-terminate the contract for failure by the service provider/contractor to perform its obligations thereon following the procedure prescribed under the Guidelines on Termination of Contracts issued by the Government Procurement Policy Board under Resolution No.018-2004 dated 22 December 2004.

- 1.2. In view of the prevalence of instances when procuring entities are unable to claim on surety bonds submitted by bidders, there exists pressing need to protect procuring entities and ensure the reliability of surety bonds as an acceptable form of bid security.
- 1.3. The GPPB shall prepare, maintain, and update a Negative List based on the submitted names by different procuring entities, and shall be posted in the GPPB website, which shall include the name/s of the erring surety and/or insurance companies and the effectivity of their suspension.

2. PURPOSE

- 1.1. These Guidelines are formulated to provide the necessary steps and procedures on the establishment of a list of surety and/or insurance companies that have failed to honor their obligations on the surety bond they issued as bid, performance, and/or warranty securities of bidders participating in public procurement.
- 1.2. It may also serve as the first step and/or basis of government agencies in filing of complaints against erring surety and/or insurance companies with the Insurance Commission.

3. SCOPE AND APPLICATION

7. EFFECT OF INCLUSION IN THE NEGATIVE LIST

- 7.2. The BAC shall ensure that surety bonds issued as bid, performance, or warranty security submitted are not issued by surety companies included in the list. Any bidder who submits a surety bond issued by a surety company in the Negative List shall be declared ineligible.
- 7.3. Considering that surety companies are subject to the jurisdiction and supervision of the Insurance Commission, the list may serve as basis for the pursuit of complaint/s filed before the Insurance Commission, if any.

8. DELISTING

The GPPB-TSO shall remove a surety company from the Negative List even before the expiration of the period upon the advice of the PE or by the IC in cases where the IC had amicably settled the matter or adjudicated the issue with finality, unless the surety or insurance company remains in default, and/or the PE has duly elevated the matter to a higher authority or court on appeal or certiorari.

In case of approval, the HoPE shall issue the Notice of Award to the Lowest Calculated Responsive Bid or Highest Rated Responsive Bid, as the case may be, and thereafter sign the contract.

In case of disapproval, the HoPE shall notify the BAC and the bidder in writing of such decision and the grounds thereof which shall be any of the grounds provided for under Section 41 of the 2016 revised IRR of RA No. 9184.

6.3 The final approved APP shall be submitted to the GPPB on or before the end of January of the budget year, and shall be posted in accordance with Executive Order No. 662, series of 2007, as amended (refer to Appendix 1 for the revised APP form for the conduct of EPA).

7.1 Notwithstanding the mandatory procurement timelines provided in Section 37 of RA No. 9184, Procurement Projects undertaken through EPA may be awarded upon approval and effectivity of the GAA, reenacted budget, appropriations ordinance, corporate budget or loan agreement, as the case may be.

For example:

Agency A's Approved Budget for the Contract (ABC) for its procurement of heavy-duty shredders is 1 Million Pesos as authorized in the NEP and after undertaking EPA the contract price to be awarded amounts to 1 Million Pesos, Agency A may award the contract upon approval and effectivity of the GAA. However, in the case of a reenacted budget, the PE may only award the contract for Recurring Procurement Projects and not for new Procurement Projects. Recurring Procurement Projects shall refer to Procurement Projects included in the previous year's budget which has been reenacted in or for the current year.

- 7.2 If the amount authorized for a Procurement Project has been reduced, the PE may still make an award if the contract price to be awarded is within the amount authorized in the GAA, reenacted budget, appropriations ordinance, corporate budget, or loan agreement regardless of the posted ABC.

For example:

Agency A's ABC for its procurement of printers is 1.2 Million Pesos as authorized in the NEP and after undertaking EPA the contract price to be awarded is 1 Million Pesos. If the budget is reduced to 1 Million Pesos, Agency A may award the contract because the contract price to be awarded is within the amount authorized.

- 7.3 The HoPE shall not award any Procurement Project if the amount therefor has been withdrawn or in the event the amount authorized in the GAA, reenacted budget, appropriations ordinance, corporate budget, or loan agreement is lower than the amount of contract to be awarded.

For example:

- a. Agency A's ABC for its procurement of LED lighting system for its auditorium is 1.5 Million Pesos as authorized in the NEP and after undertaking EPA the contract price to be awarded is 1.3 Million Pesos. If the budget is withdrawn, Agency A shall NOT award the contract pursuant to Sec. 41(c) (iii) of the 2016 revised IRR of RA No. 9184.
- b. Agency A's ABC for its procurement of desktop computers is 1 Million Pesos as authorized in the NEP and after undertaking EPA the contract price to be awarded is PhP 900,000. If the budget is reduced to PhP 800,000, Agency A shall NOT award the contract pursuant to Sec. 41(c) (iii) of the 2016 revised IRR of RA No. 9184.

- 7.4 In all instances, the HoPE has the authority to exercise the reservation clause under Section 41 of RA No. 9184, which grants the HoPE the right not to award the contract if, for any justifiable and reasonable ground, the award of the contract will not redound to the benefit of the government.

- 7.5 Notwithstanding the approval and effectivity of the GAA, reenacted budget, appropriations ordinance, corporate budget or loan agreement, as the case may be, PEs shall not award contracts for Procurement Projects requiring

Special Allotment Release Order or Sub-Allotment Release Order until the same has been issued, secured or released.

8. TOLLING OR SUSPENSION OF THE PERIOD

8.1. Pursuant to Section 85 of Presidential Decree No. 1445 or the State Audit Code, no contract involving the expenditure of public funds shall be entered into unless there is an appropriation. Accordingly, pending approval and effectivity of the GAA, corporate budget or appropriations ordinance, or the loan agreement in the case of FAPs, the following periods shall be tolled or suspended:

8.1.1 the fifteen-day (15 day) period for the HoPE to approve the Resolution of the BAC and to issue the Notice of Award provided under Section 37; and

8.1.2 the three-month (3-month) period within which to complete the procurement process, from the opening of bids up to the award of contract, under Section 38 of RA No. 9184.

8.2. The period of time for the award of contract and termination of the procurement process, as the case may be, shall begin to run again upon the approval and effectivity of the GAA, reenacted budget, appropriations ordinance, corporate budget or loan agreement, as the case may be.

It shall not commence anew but rather, grants the HoPE the balance of the remaining period to award the contract or terminate the procurement process.

For example:

The BAC conducted the Bid Opening on 30 July and the BAC issued a Resolution recommending award of the contract on 11 October.

The 3-month period to complete the procurement process and the 15-day period for the HoPE to approve the contract are suspended beginning 12 October.

The HoPE has seventeen (17) days to complete the procurement process from the approval and effectivity of the funding source. This is the period remaining from the 3-month period to complete the procurement process, i.e., 90 days less 73 days (or the period covering July 30 to October 11).

If the approval and effectivity of the GAA is 1 January, the 3month period to complete the procurement process and the 15day period for the HoPE to approve the contract shall run again and the HoPE has (i) 15 days or until 16 January to award; and (ii) 17 days or until 18 January to complete the procurement process.

9. MONITORING

9.1 Annual Procurement Plan.

Projects undertaken through EPA shall be reported in the APP under a column separate from the regular procurement activities (refer to Appendix 1 for the revised APP form for the conduct of EPA).

9.2 Procurement Monitoring Report.

Awards made under EPA shall be reported in the Procurement Monitoring Report (PMR) under a column separate from the regular procurement activities (refer to Appendix 2 for the revised PMR form for the conduct of EPA).

9.3 Agency Procurement Compliance and Performance Indicators (APCPI).

Under Indicator 9 on Compliance with Procurement Timeframes under Pillar III of the APCPI, the PE's compliance shall be adjusted considering the tolling of the periods as allowed.

10. EFFECTIVITY

This Circular shall take effect immediately.

**APPENDIX 32
GUIDELINES ON THE USE OF FRAMEWORK AGREEMENT BY ALL PROCURING
ENTITIES ³⁹¹**

1. PURPOSE

This Guidelines shall prescribe the rules for the use of Framework Agreement, including the procedure in the conduct of public bidding that will be subject of Framework Agreement.

2.3 Framework agreement may be utilized by procuring entities in the following:

2.2.1 for the procurement of goods and services which are repeatedly required but by their nature, use, or characteristic, the quantity or exact time of need cannot be accurately predetermined; and

2.2.2 for the procurement of goods which are not advisable to be carried in stock.

3. DEFINITION OF TERMS

3.1 **Call-Off.** Refers to a specific procurement request or order made by the procuring entity exercising the option and requiring a supplier or service provider to deliver the goods or render the services agreed upon under the terms of the Framework Agreement.

3.2 **Call for Mini Competition.** Refers to a written request from the procuring entity inviting all parties to a multi-year Framework Agreement to submit their best price proposal for items or services subject of Mini Competition.

3.3 **Framework Agreement.** Refers to a written agreement between a procuring entity and a supplier or service provider that identifies the terms and conditions, under which specific purchases, otherwise known as "Call-Offs", are made for the duration of the agreement.

³⁹¹ Issued through GPPB Resolution No. 27-2019 dated 10 December 2019, published in the Official Gazette on 30 December 2019 and supersedes the Revised Guidelines on Ordering Agreement.

The Framework Agreement is in the nature of an option contract between the procuring entity and the bidder(s) granting the procuring entity the option to either place an order for any of the goods or services identified in the Framework Agreement List or not buy at all, within a minimum period of one (1) year to a maximum period of three (3) years. The Framework Agreement shall have a fixed period of either one (1), two (2) or three (3) year(s).

- 3.4 **Framework Agreement List.** Refers to the list of goods or services, and their corresponding technical specifications, scope of work, projected quantities, and estimated prices, subject of the Framework Agreement.

This shall be limited to repeatedly required goods or services that are identified to be necessary and desirable, but, by its nature, use, or characteristic, the quantity and/or exact time of need cannot be accurately pre-determined and are not advisable to be carried in stock.

- 3.5 **Mini Competition.** Refers to the process by which the parties to a multi-year Framework Agreement bid as to their lowest price, prior to the issuance of a Call-Off by the procuring entity.

- 3.6 **Multi-Year Contracting Authority (MYCA).** Refers to the document issued by the Department of Budget and Management (DBM) either for locally-funded projects or foreign-assisted projects authorizing agencies to undertake the procurement of multi-year projects for the full project cost.

4. GENERAL CONDITIONS

- 4.1 Procuring entities may use Framework Agreement if the Bids and Awards Committee (BAC) determines that entering in a Framework Agreement is more practical, economical, and advantageous for the procuring entity, based on the study or evaluation conducted by the end-user unit representative showing that:

- 4.1.1 Efficiency in procurement is attained as repetitive conduct of procurement or the occasions of failures of biddings are minimized;
- 4.1.2 Stockholding or warehousing of goods and the costs and risks accompanying it will be significantly reduced or avoided;

³⁹² Item 4.2 of the Uniform Guidelines for Blacklisting of Manufacturers, Suppliers, Distributors, Contractors and Consultants issued through GPPB Resolution No. 40-2017 dated 21 December 2017, published in the Official Gazette on 20 August 2017. As amended by GPPB Resolution 16-2020, dated 16 September 2020, published in the Philippine Star on 26 September 2020

- 4.1.3 Incurrence of additional cost will be lessened as the possibility of delay in the acquisition of the goods or services is minimized;
 - 4.1.4 The commitment by the supplier or service provider to immediately deliver at short notice will translate to a more efficient means of supplying goods and services;
 - 4.1.5 Procuring entity will benefit from the fixed price or lower price for the duration of the Framework Agreement;
 - 4.1.6 Call-Offs at the time of actual need will result in the optimum usage of the ABC; or
 - 4.1.7 The benefits and advantages of lean and just-in-time procurements are achieved.
- 4.2 The procurement of goods and services under a Framework Agreement shall be conducted following the procedure for competitive bidding provided in RA No. 9184 and its revised IRR, subject to Item 6 of this Guidelines.

5. FRAMEWORK AGREEMENT BY ELECTRONIC MEANS

A special facility on electronic Framework Agreement system shall be developed, subject to the approval of the GPPB.

6. PROCUREMENT PLANNING

- 6.1 The Framework Agreement List shall be prepared in the most practical and efficient manner that will encourage participation and competition among interested suppliers or service providers in the relevant industry. The Framework Agreement List shall be prepared taking into consideration the following:
- 6.1.1 End-user unit's determination that the goods or services to be included in the Framework Agreement List are necessary and desirable for the operations of the procuring entity, supported by a document establishing the need for the acquisition of the goods in the Framework Agreement List, such as, but not limited to historical data, needs analysis, or market study establishing the Approved Budget for the Contract (ABC) for each of the goods in the Framework Agreement List including budgetary allotments per type of product or service.
 - 6.1.2 The maximum quantity of items or services to be indicated in the Framework Agreement List shall be determined based on the expected number or outputs to be required by the procuring entity should the need arises. The maximum quantity shall be considered as the maximum quantity allowed to be purchased by the procuring entity, which the supplier or service provider is bound to deliver or

perform pursuant to the Call-Off or aggregate of all the Call-offs issued for the purpose.

6.1.3 The Framework Agreement List shall indicate the following information:

6.1.3.1 Type and nature of each item or service;

6.1.3.2 Technical Specifications or Scope of Work;

6.1.3.3 Maximum quantity of items or services;

6.1.3.4 Estimated cost per item or service;

6.1.3.5 Total ABC including budgetary allotments per type of product or service;

6.1.3.6 Expected delivery timeframe after receipt of a Call-Off; and

6.1.3.7 Other appropriate information as may be necessary.

6.1.4 The cost per item or service shall be determined and prepared after careful consideration of variables and factors that may affect future market prices using, whenever applicable, historical data, market study, feasibility study, net present value of money, foreign exchange rate, inflation rate, cost of money, assessment of Total Cost of Ownership, Life Cycle Costing and Value for Money analysis taking into consideration the timeframe and period for the implementation of the Framework Agreement.

6.1.5 Based on the results of market study and procurement planning, the BAC may identify different procurement projects for a given fiscal year that will adopt Framework Agreement as a contractual arrangement. Each procurement project shall have a separate Framework Agreement List as the latter is specific to a particular procurement project.

6.2 No procurement shall be undertaken under this Guidelines unless the same is in accordance with the Annual Procurement Plan (APP) and the Project Procurement Management Plan (PPMP) prepared by the procuring entity. The procuring entity, in the preparation of its APP, shall include procurement projects that will be subjected to Framework Agreements, and attach all Framework Agreement Lists as part of the APP.

6.3 In the event a MYCA or equivalent document is necessary to support a contractual obligation on a multi-year basis, the procuring entity should secure such document from the relevant government authority before commencement of the relevant procurement activity in compliance with applicable law, rules, circulars and issuances.

The issuance of MYCA shall be subject to existing budgeting and auditing rules and regulations.

7. COMPETITIVE BIDDING

- 7.1 The procuring entity shall conduct competitive bidding using a single stage, two-envelope procedure as prescribed in Sections 23 and 25 of RA No. 9184 and its revised IRR. For this purpose, the procuring entity, through its BAC, shall prepare, separate technical specifications or scope of work for every item to be bid out and indicate, among others, total cost for each item, the maximum quantity it may procure when needed, and the requested delivery or performance lead time from issuance of the Call-Off or from any date determined by the procuring entity.
- 7.2 The Invitation to Bid shall indicate that the procurement will be subject to a Framework Agreement pursuant to this Guidelines, and shall state whether the Framework Agreement is for a single or multi-year Framework Agreement.
- 7.3 For multi-year Framework Agreement, the ABC for the first year shall be the basis in computing for the required amount of the single largest completed contract, net financial contracting capacity, bid security, bidding documents fee and protest fee.
- 7.4 The procedure and requirements for Competitive Bidding provided in RA No. 9184 and its revised IRR shall apply while the Lowest Calculated and Responsive Bidder (LCRB) shall be determined as follows:
 - 7.4.1 For single-year Framework Agreement. If the Framework Agreement is for a duration of one (1) year, outright determination of the LCRB shall be conducted by the BAC and the recommendation to enter into a Framework Agreement with the LCRB shall be submitted to the HoPE. Upon receipt of the BAC recommendation, the HoPE shall award the option contract in the form of a Notice to Execute Framework Agreement to the bidder with the LCRB. This notwithstanding, actual purchase of the procuring entity shall only be made upon issuance of Call-Off;
 - 7.4.2 For multi-year Framework Agreement. When the Framework Agreement is for a duration of two (2) to three (3) years, the bidders shall make initial submission of their eligibility requirements and financial bid offer and the BAC shall make an initial determination of the eligibility and the compliance of bidders with the technical and financial aspects of the project. The BAC shall then recommend the execution of a Framework Agreement among the eligible, technically and financially compliant bidders and the procuring entity. The HoPE shall then issue a Notice to Execute a Framework Agreement to all complying bidders. The determination of the LCRB shall not be performed by the BAC until a Mini-Competition is conducted among the bidders which were earlier

determined to be eligible and compliant with the technical and financial aspects of the project. When Call for Mini Competition is made, the BAC shall allow the bidders to submit their best financial proposals on such pre-scheduled date, time and place, to determine the bidder with the LCRB; and

- 7.4.3 Single Calculated and Responsive Bid (SCRB). A SCRB shall be considered for award in accordance with Section 36 of the 2016 revised IRR of RA No. 9184; however, if the procurement is for a multi-year framework agreement and only one (1) passed the preliminary examination or evaluation, the multi-year Framework Agreement shall be converted to a single-year Framework Agreement.
- 7.5 Prices quoted by the bidder must be within the total cost per item as provided in the Framework Agreement List. Financial bid offer that provides price quotations that exceeds the total cost per item shall be automatically disqualified.

8. FRAMEWORK AGREEMENT

- 8.1 Within ten (10) calendar days from receipt by the participating bidder(s) of the Notification to Execute a Framework Agreement with the procuring entity, the bidder or its duly authorized representative shall formally enter into a Framework Agreement with the procuring entity for an amount of One Peso (Php 1.00) to be paid by the procuring entity as a consideration for the option granted to the procuring entity to procure the items in the Framework Agreement List when the need arises.
- 8.2 Framework Agreements shall include the following: (a) Framework Agreement List; (b) a provision that the perfection of the actual procurement contract shall be reckoned from the execution of the Call-Offs; and (c) statement that upon the execution of the Call-Offs, all rules and guidelines governing implementation of procurement contracts under RA No. 9184 and its revised IRR shall be applicable.
- 8.3 Prices indicated in the Framework Agreement corresponding to the subject goods or services in the Framework Agreement List shall be fixed price per item or identified service. For a single-year Framework Agreement, the price shall be based on the actual bid price of the bidder, while for a multi-year Framework Agreement, it shall be based on the price offered in the Mini Competition.
- 8.4 Framework Agreements shall not state or imply any agreement by the procuring entity to place future contracts or make orders with the supplier or service provider.
- 8.5 No modification of the Framework Agreement during its period shall be allowed.

- 8.6 Framework Agreements shall be valid only for the period stated in the bidding documents which, shall not exceed three (3) years from the time the Framework Agreement was entered into and executed by the parties, and shall not be extended beyond its lifetime.
- 8.7 To guarantee the faithful performance by the supplier or service provider of its obligations under the Framework Agreement, it shall submit a performance security in accordance with Section 39 of the revised IRR of RA No. 9184 or a Performance Securing Declaration as defined under this Guidelines prior to the signing of the Framework Agreement.
- 8.8 The basis for the computation of the performance security shall be the total contract price whether the procurement is for a single or multi-year framework agreement.
- 8.9 Notwithstanding the eligibility of a bidder, the BAC reserves the right to review the qualifications of the supplier or service provider. If there has been any change in the capability of the supplier or service provider to undertake its obligations under the framework agreement so that if it fails the eligibility criteria set thereon, the procuring entity shall consider the said supplier or service provider as ineligible and shall disqualify it from obtaining any award or contract.
- 8.10 Bidders executing the Framework Agreement either for single or multi-year shall ensure the continuing validity of their eligibility documents during the implementation of the contract.

9. CALL OFF

- 9.1. When the procuring entity has determined that an item or service covered in the Framework Agreement is needed, it shall require the delivery of the item or rendition of the service identified in the Framework Agreement List in such quantity or scope and at the price for which it was awarded by executing a Call-Off.
- 9.2. For a single-year Framework Agreement, Call-off may be executed and issued to the winning supplier or service provider immediately upon determination that an item or service is needed.
- 9.3. For a multi-year Framework Agreement, Call-off shall be issued after conduct of mini competition in favor of the supplier or service provider that provided the lowest calculated and responsive bid.
- 9.4. The BAC may execute as many Call-Offs for the same item as may be needed within the period of the Framework Agreement as long as the total quantity for all Call-Offs do not exceed the maximum quantity in the Framework Agreement List and the aggregate amount of all executed Call-Offs do not exceed the total contract price specified in the Framework Agreement.

- 9.5. The succeeding Call-Offs shall have the same unit price based on the financial bid offer in case of single-year Framework Agreement. For multi-year Framework Agreement with multiple qualified bidders, the price depends on the result of each Mini-Competition but not to exceed the price submitted during the initial submission of the bidders' financial bid as provided in Section 7.4.2 of this Guidelines.
- 9.6. The BAC may execute Call-Offs requiring delivery to multiple destinations or performance at multiple locations.
- 9.7. For purposes of participation in other public bidding activities, the aggregate of the Call-Offs for a particular item or similar items satisfactorily completed by the supplier or service provider shall be considered as one (1) completed contract with the cumulative amount thereof as the total contract amount. In such case, the date appearing in the Certificate of Acceptance issued by the procuring entity for the last delivery will be considered as the date of completion of the contract. On the other hand, only those undelivered items in the Call-Offs executed by the procuring entity shall be included in the Statement of All Ongoing Government and Private Contracts for purposes of participating in other bidding activities.
- 9.8. For purposes of the Certificate of Availability of Funds requirement, it shall be issued only every Call-Off subject to existing auditing and budgeting rules and regulations.

10. IMPLEMENTATION AND TERMINATION OF FRAMEWORK AGREEMENTS

- 10.1 After receipt by the supplier or service provider of the Call-Off from the procuring entity, it shall deliver or perform the items within the period specified in the Framework Agreement, unless a different time is provided in the Call-Off.
- 10.2 Any extension of time for the delivery or performance shall be made in writing and prior to the date of deliver or performance indicated in the Framework Agreement or Call-Off and subject to prior approval by the procuring entity after consideration of reasonable and justifiable causes.
- 10.3 If the supplier or service provider fails to deliver or perform within the agreed period, including any time extension, it shall be liable to the procuring entity for liquidated damages of at least equal to one-tenth of one percent (.001) of the cost of the unperformed portion of the total amount of the items ordered per Call-Off for every day of delay.
- 10.4 Once the cumulative amount of liquidated damages reaches ten percent (10%) of the total amount of the items ordered per Call-Off, the procuring entity may rescind the same, without prejudice to other courses of action and remedies open to it.
- 10.5 The Warranty provision for goods under Section 62 of RA No. 9184 and its revised IRR shall be observed under the Framework Agreement, and shall be required for each Call-Off.

10.6 Without prejudice to the provisions of applicable laws, rules, and guidelines, the Framework Agreement shall automatically terminate under any of the following conditions:

10.6.1 When the total maximum quantity specified in the Framework Agreement has been exhausted; or

10.6.2 When the specified duration of the Framework Agreement has expired.

10.7 All other rules governing contract implementation and termination under RA No. 9184, its revised IRR, and relevant procurement policies shall be applicable.

11. REPEAT ORDER

11.1 No Repeat Order for an item in the Framework Agreement List shall be allowed until after the procuring entity has exhausted the maximum quantity for the same item specified therein or after the Framework Agreement has expired, whichever comes first and subject to the conditions provided in Section 51 of RA No. 9184 and its revised IRR. For this purpose, the Repeat Order may only be availed of within six (6) months from the date of the last or final Call-Off for a specific item where the maximum quantity has been exhausted or from the expiration of the Framework Agreement.

11.2 In case Repeat Order is allowed and resorted to, the twenty five percent (25%) maximum allowable quantity shall be based on the aggregate quantity of actual items ordered and delivered.

12. REPEALING CLAUSE

This Guidelines repeal GPPB Resolution Nos. 06-2005 and 01-2012, dated 01 April 2005 and 27 January 2012, respectively.

13. EFFECTIVITY

This Guidelines shall take effect immediately.
