

1 SEC. 2. *Declaration of Policies and Principles.* – It is the policy of
2 the State to:

3 (a) Provide for a rational, holistic and just allocation, utilization,
4 management, and development of the country's land and water resources so
5 that their use is consistent with the principles of equity, social justice,
6 environmental integrity and sustainable development for the common good;

7 (b) Hold owners and users of land responsible for developing and
8 conserving their lands, thereby making these productive and supportive of
9 sustainable development and environmental stability in accordance with the
10 principle that the use of land bears a social function and that all economic
11 agents shall contribute to the common good;

12 (c) Treat groups of islands, including parts of islands, interconnecting
13 waters and other natural features which are so closely interrelated, as forming
14 an intrinsic geographical, economic and political entity, or which historically
15 have been regarded as such entity; and

16 (d) Strengthen the capacity of the local government units (LGUs) to
17 manage and maintain ecological balance within their territorial jurisdiction, in
18 partnership with the national government in accordance with the Philippine
19 Constitution and Republic Act No. 7160 or the Local Government Code of
20 1991.

21 Towards these ends, the State shall institutionalize land use and physical
22 planning as a mechanism for identifying, determining, and evaluating
23 appropriate land use and allocation patterns that promote and ensure:

24 (1) Maintenance and preservation of environmental integrity and
25 stability;

26 (2) Sustainable and just management and utilization of natural
27 resources;

28 (3) Disaster risk reduction and climate risk-based planning;

1 (4) Protection of prime agricultural lands for food security, with
2 emphasis on self-sufficiency through efficient and sustainable use of land
3 resources consistent with the principles of sound agricultural development,
4 natural resources development, and agrarian reform;

5 (5) Protection and conservation of the country's natural heritage,
6 permanent forestlands, natural forests, critical watersheds and key biodiversity
7 areas to ensure adequate forest cover to maintain ecological processes in the
8 country;

9 (6) Sustainable development and management of water resources;

10 (7) Settlements, transportation and other infrastructure development in
11 support of inclusive growth and rural, urban and regional development;

12 (8) Improved access to affordable housing by increasing its supply
13 through direct allocation, better access to unutilized lands, and multiple use
14 and higher densities, where appropriate;

15 (9) Respect for and protection of the traditional resource right of the
16 Indigenous Cultural Communities/Indigenous Peoples (ICCs/IPs) to their
17 ancestral domains; compliance with free and prior informed consent of
18 ICCs/IPs; and recognition of customary laws and traditional resource use and
19 management, knowledge, and practices in ancestral domains;

20 (10) Equitable access to land through State intervention that guarantees
21 its affordability to the basic sectors;

22 (11) Energy security or energy self-sufficiency;

23 (12) Preservation and conservation of parks and protected areas to keep
24 the scenery, the natural and historic objects, and the biodiversity therein in
25 their natural state and prevent them from being damaged for purposes of public
26 recreational use and enjoyment; and

27 (13) Meaningful participation of the basic sectors.

1 SEC. 3. *Scope.* – This Act shall apply to all lands and all resources
2 therein, whether public, private, government-owned and/or in the possession of
3 any person, whether natural or juridical, and shall guide the rational, holistic
4 and just allocation, utilization, development and management of the country's
5 land and water resources including such activities that bear impact on said
6 resources.

7 SEC. 4. *Definition of Terms.* –

8 (a) *Agricultural land* refers to the subclass of classified agricultural
9 lands devoted to or suitable for the cultivation of the soil, planting of crops,
10 growing of trees, raising of livestock, poultry, fish or aquaculture production,
11 including the harvesting of such farm products and other farm activities and
12 practices performed in conjunction with such farming operations, by persons
13 whether natural or juridical, and not classified as residential land, commercial
14 land or industrial land;

15 (b) *Agricultural land use conversion* refers to the undertaking of any
16 development activity which modifies or alters the physical characteristics of
17 agricultural lands to render them suitable for nonagricultural purposes under an
18 approved order of conversion issued by the appropriate government agency;

19 (c) *Alienable and disposable lands of the public domain* refer to lands
20 of the public domain which have been delineated, classified, and certified as
21 such and available for disposition under Commonwealth Act No. 141,
22 otherwise known as the Public Land Act, as amended;

23 (d) *Ancestral domains* refer to all areas generally belonging to
24 ICCs/IPs as defined in Republic Act No. 8371, otherwise known as the
25 Indigenous Peoples Rights Act (IPRA) of 1997;

26 (e) *Ancestral Domain Sustainable Development and Protection Plan*
27 (*ADSDPP*) refers to a plan formulated and pursued in accordance with the
28 rights of ICCs/IPs to manage and develop the land as well as natural and

1 human resources within their ancestral domains based on their indigenous
2 knowledge systems and practices on the principle of self-determination;

3 (f) *Classified agricultural land* refers to one of the four (4)
4 classifications of land under the Constitution not classified by law as mineral
5 land, forestland or national park and the only land classification subject to
6 alienation;

7 (g) *Coastal area/zone* refers to a band of dry land and the adjacent
8 ocean space (water and submerged land) in which terrestrial processes and uses
9 directly affect oceanic processes and uses, and vice versa. Its geographic extent
10 may include areas within a landward limit of one (1) kilometer from the
11 shoreline at high tide to include mangrove swamps, brackish water ponds, nipa
12 swamps, estuarine rivers, sandy beaches and other areas within a seaward limit
13 of two hundred (200) meters isobath to include coral reefs, algal flats, seagrass
14 beds, and other soft-bottom areas;

15 (h) *Comprehensive Land Use Plan (CLUP)* refers to a document
16 embodying a set of policies, accompanied by maps and similar illustrations that
17 serve as a policy guide for determining the future use of lands and natural
18 resources within the territorial jurisdiction of the LGUs. It represents the
19 community-desired pattern of population distribution and proposes future
20 allocation of land and resources to various activities. It includes the processes
21 and criteria employed in such determination of allocation of land and
22 resources. It is a plan for the long-term management of the local territory
23 covering a period of minimum of ten (10) years, reviewable not earlier than
24 every five (5) years based on the four (4) categories of land use planning
25 provided in Section 6 of this Act;

26 (i) *Comprehensive land use planning* refers to the act of defining the
27 allocation, utilization, development, and management of all lands within a
28 given territory or jurisdiction according to the inherent characteristics of

1 the land itself and supportive of sustainable, economic, demographic,
2 sociocultural and environmental objectives as an aid to decision-making and
3 legislation;

4 (j) *Critical watershed* refers to watersheds or forestlands that have
5 been identified and evaluated to provide critical and vital natural, ecological,
6 environmental and physical beneficial services such as water, biodiversity,
7 energy, irrigation, social and cultural, among others, to a specific area or
8 community and whose existing biophysical condition demands immediate
9 rehabilitation, protection and management to prevent its further denudation,
10 deterioration and exploitation;

11 (k) *Cultural heritage* refers to the totality of cultural properties,
12 whether natural or human-made, preserved and developed through time, and
13 passed on for posterity;

14 (l) *Customary laws* refer to a body of written and/or unwritten rules,
15 usages, customs and practices traditionally and continually recognized,
16 accepted, and observed by respective ICCs/IPs consistent with the IPRA;

17 (m) *Danger zones* refer to areas with high level of threat to the lives and
18 well-being of people that cannot be addressed through scientific, physical and
19 engineering methods, and are therefore not suitable for settlement and
20 permanent structures. Areas can only be declared as danger zones after
21 conducting proper technical studies and public consultations with affected
22 families;

23 (n) *Development plan* refers to a document that defines the activities
24 and measures that the national government or LGUs intend to implement over
25 a specified period of time in order to achieve the defined set of development
26 goals identified in the national or local physical framework plans. It integrates
27 socioeconomic, financial, fiscal, legal and legislative, institutional and sectoral
28 plans of the national government or any of its instrumentality or a particular

1 LGU, consistent with the objectives identified in spatial plans such as land use
2 plans or physical framework plans. It may include an analysis of problems and
3 resources, definition of goals and objectives, policy guidelines, project and
4 target achievements, and an implementation mechanism which defines the roles
5 and contributions expected from the government and the private sector;

6 (o) *Disaster-prone areas* or *geo-hazard areas* refer to areas frequented
7 by and/or vulnerable to experience weather, climatic, hydrologic, geologic, and
8 other natural disturbances or calamities;

9 (p) *Disaster risk reduction* refers to the concept and practice of
10 reducing disaster risks through systematic efforts to analyze and manage the
11 causal factors of disasters, including reduced exposure to hazards, lessened
12 vulnerability of people and property, wise management of land and the
13 environment, and improved preparedness for adverse events;

14 (q) *Ecologically-fragile lands* refer to lands within critical watersheds,
15 brackish and freshwater wetlands, pasture lands, inland rivers and waterways,
16 coastal and settlement areas, and croplands which require rehabilitation,
17 protection and whose continued unsustainable use would result in physical
18 risks and threats to life and property, public health and safety, as well as
19 adversely affect the productivity of lowland agricultural areas and stability of
20 the upland system;

21 (r) *Ecotourism* refers to a form of sustainable tourism within a natural
22 and/or cultural heritage area where community participation, protection and
23 management of natural resources, culture and indigenous knowledge and
24 practices, environmental education and ethics, as well as economic benefits are
25 fostered and pursued for the enrichment of host community and satisfaction of
26 visitors;

27 (s) *Energy resources* refer to surface or subsurface substances that
28 serve as energy sources. These are traditionally mineral fuel deposits such as

1 coal, petroleum, natural gas or renewable resources from geothermal, hydro
2 reservoirs, or nonconventional sources including ocean waves, solar, wind,
3 biomass, and other similar resources which serve the same purpose;

4 (t) *Energy resource lands* refer to lands where naturally occurring or
5 indigenous energy resources exist in sufficient quantity and/or quality as to be
6 economically viable for exploration, development, production, utilization, and
7 distribution purposes;

8 (u) *Environmentally-critical areas* refer to areas declared by law as
9 (i) areas for natural parks, watershed reserves, wildlife preserves, and
10 sanctuaries; (ii) areas set aside for aesthetic and visual value; (iii) areas that
11 constitute the habitat for any endangered or threatened species of indigenous
12 Philippine wildlife, both flora and fauna; (iv) areas of unique historic,
13 archaeological, or scientific interests; (v) areas that are traditionally occupied
14 by ICCs/IPs; (vi) areas with critical slopes; (vii) areas frequented and/or hard
15 hit by natural calamities such as, but not limited to, geologic hazards, floods,
16 typhoons and volcanic activities; (viii) recharge areas of aquifers; (ix)
17 mangrove areas; (x) coral reefs; (xi) mossy and virgin forests; (xii) rivers and
18 riverbanks; (xiii) swamp forest and marshlands; (xiv) foreshore lands; (xv)
19 protected areas pursuant to Republic Act No. 7586 or the NIPAS Act of 1992;
20 and (xvi) areas set aside as aesthetic potential tourist spots. This term shall also
21 include other terrestrial, aquatic and marine areas that need special protection
22 and conservation measures because they are ecologically fragile or they are
23 needed for food security and food self-sufficiency as determined by concerned
24 agencies and LGUs in consultation with the concerned stakeholders;

25 (v) *Exhausted mineral resources* refer to a situation where the mineral
26 resources in specific sites are no longer in sufficient quantity or quality to
27 justify additional expenditure for extraction or utilization;

1 (w) *Flood plain* refers to the portion of a river valley adjacent to a river
2 channel which is covered with water when the river overflows its banks at
3 flood stages, and which usually consists of silt deposited by the stream;

4 (x) *Flood-prone areas* refer to low lying areas usually adjacent to large
5 or active water bodies and which therefore experience regular or seasonal
6 inundation as a result of changes in the mean water level of these bodies or
7 because of land reclamation and other artificial interference with the natural
8 processes;

9 (y) *Food security* refers to the policy objective of meeting the food
10 availability, accessibility, and affordability requirements of the present and
11 future generations of Filipinos in a sustainable manner, through local
12 production or importation in cases of shortage based on a micro level situation,
13 or both, and taking into account the country's existing and potential resource
14 endowments and related production advantages, and consistent with the overall
15 national development objectives and policies;

16 (z) *Food self-sufficiency* refers to the policy objective of meeting the
17 food requirements through intensive local food production in a sustainable
18 manner based on the country's existing and potential resources and related
19 production advantages;

20 (aa) *Foreshore land* refers to a string of land margining a body of
21 water, the part of a seashore between the low-water line usually at the seaward
22 margin of a low tide terrace and the upper limit of wave wash at high tide often
23 marked by a beach scarp or berm;

24 (bb) *Forest* refers to an ecosystem or an assemblage of ecosystems
25 dominated by trees and other woody vegetation; a community of plants and
26 animals interacting with one another and its physical environment;

27 (cc) *Forestlands* refer to one of the four (4) classifications of land
28 under the Constitution under the public domain classified and/or determined as

1 suitable for forest purposes not classified as mineral land, national park and
2 classified agricultural land. These include all permanent forest, forest reserves,
3 forest reservations, and all the remaining unclassified lands of the public
4 domain;

5 (dd) *Forest Land Use Plan (FLUP)* refers to the allocation of
6 forestlands into their appropriate uses consistent with existing biophysical
7 conditions such as topography, soil type, land use, climate, water sources and
8 socioeconomic, cultural and political realities. Forestland use planning should
9 be able to delineate protection and production forests;

10 (ee) *Forestland subclassification* refers to the process of determining
11 the most appropriate and sustainable use of forestlands primarily as protection
12 forest and production forest. They may be further subclassified as
13 grazing/pasture land, recreational areas and other uses, taking into account
14 ecological, social and economic considerations;

15 (ff) *Free, Prior and Informed Consent (FPIC)* means the consensus of
16 all members of the ICCs/IPs to be determined in accordance with their
17 respective customary laws and practices, free from any external manipulation,
18 interference and coercion, and obtained after fully disclosing the intent and
19 scope of the activity, in a language and process understandable to the
20 community;

21 (gg) *Geo-hazards* refer to nature and human-induced geological
22 processes that have potential to cause destruction and which pose a threat or
23 risk to a person's life and property. These may include, but are not limited to,
24 ground, water and weather-related conditions, volcanic and earthquake induced
25 hazards such as ground shaking, ground rupture, earthquake-induced
26 landslides, liquefaction and *tsunami*;

27 (hh) *Indigenous Cultural Communities/Indigenous Peoples (ICCs/IPs)*
28 refer to groups of people or homogenous societies identified by self-ascription

1 and ascription by others, who have continuously lived as organized community
2 on communally bounded and defined territory, and who have, under claims of
3 ownership since time immemorial, occupied, possessed and utilized such
4 territories, *sharing common bonds of language, customs, traditions and other*
5 *distinctive cultural traits*, or who have, through resistance to political, social
6 and cultural inroads of colonization, nonindigenous religions and cultures,
7 became historically differentiated from the majority of Filipinos. ICCs/IPs
8 shall likewise include peoples who are regarded as indigenous on account of
9 their descent from the populations which inhabited the country, at the time of
10 conquest or colonization, or at the time of inroads of nonindigenous religions
11 and cultures, or the establishment of present State boundaries, who retain some
12 or all of their own social, economic, cultural and political institutions, but who
13 may have been displaced from their traditional domains or who may have
14 resettled outside their ancestral domains;

15 (ii) *Inland waters* refer to waters, which are not coastal and marine
16 waters, and not subject to acquisitive prescription consistent with the
17 *provisions of Presidential Decree No. 1067 or the Water Code of the*
18 *Philippines*;

19 (jj) *Integrated watershed management* refers to a planning strategy or
20 program for watershed areas that complement environmentally-sound soil and
21 water management practices with mechanisms for ensuring greater
22 responsibility, involvement, or participation of individuals, groups,
23 communities and other stakeholders benefiting from these areas and
24 water-related infrastructure;

25 (kk) *Key Biodiversity Areas (KBAs)* represent the most important sites
26 for biodiversity conservation worldwide. These are places of international
27 importance for the conservation of biodiversity through protected areas and

1 other governance mechanisms. They are identified nationally using simple,
2 standard criteria, based on their importance in maintaining species populations;

3 (ll) *Land* refers to resources, both artificial and natural, found on the
4 surface, below, and above the ground including inland waters and the air
5 therein;

6 (mm) *Land subclassification* refers to the act of determining and
7 assigning specific uses of classified lands such as forestlands, classified
8 agricultural lands, mineral lands and national parks in accordance with existing
9 laws and this Act;

10 (nn) *Land use* refers to the manner of allocation, utilization,
11 management and development of land;

12 (oo) *Land use classification* refers to the act of delineating or allocating
13 lands according to protection land use, production land use, settlements
14 development and infrastructure development as defined and provided for in
15 this Act;

16 (pp) *Mandatory public hearings/consultations* refer to the mechanism
17 to ensure the involvement of concerned stakeholders and communities in land
18 use planning, from the barangay to the national level, to ensure the social
19 acceptability of the plans. It should involve giving notice of
20 hearing/consultation to concerned stakeholders through publication or posting
21 in conspicuous places, conduct of a reasonable number of hearings, solicitation
22 of positions to arrive at a consensus. Public presentation and validation of the
23 planning results shall also be undertaken before the final adoption of the plans;

24 (qq) *Marine Protected Area (MPA)* refers to a defined area of the sea
25 established and set aside by law, administrative regulation or any other
26 effective means in order to conserve and protect a part of or the entire enclosed
27 environment, through the establishment of management guidelines. It includes

1 all declared areas governed by specific rules or guidelines in order to protect
2 and manage activities within the enclosed area;

3 (rr) *Mineral exploration* refers to the systematic searching or
4 prospecting for mineral resources including energy resources;

5 (ss) *Mineral lands* refer to lands of the public domain, excluding those
6 in permanent forestlands and protection lands, where mineral resources are
7 found in sufficient quantity and quality for extraction, development and
8 utilization;

9 (tt) *Multiple use of land resources* refers to the utilization or
10 management strategy for any land which allows any activity involving one or
11 more of its resources, depending on the result of prior evaluation on its
12 numerous beneficial use, that will produce the optimum benefits to the
13 development and progress of the country and the public welfare without
14 impairment or with the least injury to its other resources;

15 (uu) *Municipal waters* include not only streams, lakes, inland bodies of
16 water and tidal waters within the municipality which are not included within
17 the protected areas as defined under Republic Act No. 7586 of the National
18 Integrated Protected Areas System or the NIPAS Act of 1992, public forest,
19 timberlands, forest reserves or fishery reserves, but also marine waters
20 included between two (2) lines drawn perpendicular to the general coastline
21 from points where the boundary lines of the municipality touch the sea at low
22 tide and a third line parallel with the general coastline including offshore
23 islands and fifteen (15) kilometers from such coastline. Where the territory of a
24 municipality includes several islands, the outermost points of such islands shall
25 be used as base points and connected by archipelagic baselines, irrespective of
26 the lengths of such baselines from the main coastlines. Where two (2)
27 municipalities are situated on opposite shores that there is less than thirty (30)

1 kilometers of marine waters between them, the third line shall be equally
2 distant from opposite shore of the respective municipalities;

3 (vv) *National Integrated Protected Areas System (NIPAS)* refers to the
4 classification and administration of all designated protected areas to maintain
5 essential ecological processes and life-support systems, to preserve genetic
6 diversity, to ensure sustainable use of resources found therein, and to maintain
7 their natural conditions to the greatest extent possible;

8 (ww) *National Land Use Policy Council (NLUPC)* refers to the
9 administrative, policy-making, and regulatory body created under this Act;

10 (xx) *National park* refers to forest reservation essentially of natural
11 wilderness character which has been withdrawn from settlement, occupancy or
12 any form of exploitation except in conformity with approved management plan
13 and set aside as such exclusively to conserve the area or preserve the scenery,
14 natural and historic objects, wild animals and plants therein and to provide
15 enjoyment of these features in such areas. It shall also refer to lands and waters
16 of the public domain classified as such in the 1987 Constitution which include
17 all areas under the NIPAS pursuant to the NIPAS Act of 1992, primarily
18 designated for the conservation of native plants and animals and associated
19 habitats and cultural diversity;

20 (yy) *Network of Protected Areas for Agriculture and Agro-industrial*
21 *Development (NPAAAD)* refers to agricultural areas identified by the
22 Department of Agriculture (DA) through the Bureau of Soils and Water
23 Management (BSWM), in coordination with the National Mapping and
24 Resource Information Authority (NAMRIA), in order to ensure the efficient
25 utilization of land for agriculture and agro-industrial development and promote
26 sustainable growth. The NPAAAD covers all irrigated areas; all irrigable lands
27 already covered by irrigation projects; all alluvial plains; lands highly suitable
28 for agriculture whether irrigated or not; agro-industrial croplands or lands

1 planted to industrial crops that support the validity of existing agricultural
2 infrastructure and agro-based enterprises; highlands or areas located at an
3 elevation of five hundred (500) meters or above and have the potential for
4 growing semi-temperate and high value crops; all agricultural lands that are
5 ecologically fragile, the conversion of which will result in serious
6 environmental degradation; and all mangrove areas and fish sanctuaries;

7 (zz) *Permanent forests or forest reserves* refer to lands of the private or
8 public domain which have been identified and determined to be needed for
9 protection, conservation, preservation and management as forests and shall be
10 reserved, conserved and protected into perpetuity for such purpose;

11 (aaa) *Permanent forestlands* refer to forestlands, within public lands,
12 that have been identified, determined and demarcated on the ground by the
13 State to serve such purpose and shall be protected, conserved, preserved,
14 maintained and managed as forestlands free from any form of utilization,
15 exploitation or development, and reserved permanently as such for the benefit
16 and use of future generations;

17 (bbb) *Physical framework plans* refer to the national, regional or
18 provincial indicative plans that outline the overall and macro-level physical
19 development objectives, priorities, directions and strategies in its respective
20 levels as prepared, reviewed, integrated and finalized by the national, regional
21 and provincial land use councils/boards, respectively, based on the CLUPs of
22 the LGUs and the national policy guidelines relating to land use and
23 environmental management to prevent or mitigate the adverse effects of
24 inappropriate resource utilization on food security, the people's welfare, and
25 their environment;

26 (ccc) *Premature or illegal conversion* refers to any activity that
27 modifies or alters the physical characteristics of agricultural lands to render

1 them suitable for nonagricultural purposes without an approved order of
2 conversion from the Department of Agrarian Reform (DAR) Secretary;

3 (ddd) *Prime agricultural lands* refer to all contiguous irrigated areas
4 and irrigable lands already covered by irrigation projects; all alluvial plain
5 lands highly suitable for agriculture, whether irrigated or not, that have been
6 identified to satisfy the country's needs for food self-sufficiency and security;
7 agro-industrial croplands or lands presently planted and suitable to industrial
8 and high value crops; highlands, or areas located at elevation of five hundred
9 (500) meters or above and have the potential for growing semi-temperature and
10 high value crops outside of declared permanent forestlands and protection
11 forests and not located in ecologically-fragile and environmentally-critical
12 areas;

13 (eee) *Production forest* refers to forestland located in production lands
14 managed primarily for the production of timber and other tree products;

15 (fff) *Production land use* refers to the direct and indirect utilization of
16 land to generate outputs resulting from the following activities: agricultural,
17 fish farming or aquaculture, timber or agro-forestry, grazing and pasture,
18 mining, indigenous energy resource development, industry, and tourism;

19 (ggg) *Protected areas* refer to portions of land and water set aside by
20 reason of their unique physical and biological significance, managed to
21 enhance biological diversity, and protected against human exploitation. For
22 purposes of this Act, these shall also include all natural forests and agricultural
23 lands identified and delineated under this Act;

24 (hhh) *Protection forests* refer to forests and forestlands, in both public
25 and private lands, that have been identified and determined by the State for the
26 beneficial use of present and future generations and shall be preserved,
27 conserved, protected and maintained as such free from any form of utilization,
28 exploitation or development;

1 (iii) *Protection land use* refers to the use of land primarily reserved
2 for rehabilitation, conservation, and protection purposes and the promotion of
3 the country's ecological and life-support systems;

4 (ijj) *Public domain* refers to lands belonging to the State which may
5 be classified as agricultural, forest or timber, mineral, or national park as
6 provided for in the Constitution;

7 (kkk) *Reclassification of agricultural lands* refer to the act of
8 specifying how agricultural lands shall be utilized for nonagricultural uses such
9 as for residential, industrial, or commercial purposes, through the local
10 planning and zoning processes, pursuant to the Local Government Code of
11 1991, and subject to the requirements and procedures for conversion;

12 (III) *Resettlement sites* refer to areas identified by the appropriate
13 national agency or by the LGU, with respect to areas within its jurisdiction,
14 which shall be used for the relocation of the underprivileged and homeless, as
15 defined under Republic Act No. 7279 or the Urban Development and Housing
16 Act (UDHA);

17 (mmm) *Restoration* refers to returning forestland to its original forested
18 state in terms of species' composition, structure, function and productivity;

19 (nnn) *Restoration zones* refer to forest areas where activities are
20 conducted to restore its forested state;

21 (ooo) *River basin* refers to the horizontal projection of area from which
22 a river and its tributaries receive surface water originating from precipitation;

23 (ppp) *Settlements* refer to communities or built-up environment areas
24 where people prefer to live in;

25 (qqq) *Settlements development* refers to any improvement on existing
26 settlements or any proposed development of certain areas for settlement
27 purposes. It also involves the spatial distribution of population, identification
28 of the roles and functions of key urban centers, determination of relationships

1 among settlement areas, and the provision of basic services and facilities of
2 identified major settlement areas or growth centers;

3 (rrr) *Shoreline* refers to a strip of land covering at least one (1)
4 kilometer from the point where seawater reaches during the highest high tide;

5 (sss) *Spatial data infrastructure* refers to a system consisting of spatial
6 data, technology, policies, practices, relationships, people and resources
7 necessary to acquire, process, store and distribute spatial information to
8 improve sharing and use throughout all levels of the government and private
9 sector, among others, which shall be operationalized through electronic system
10 that provides access to a network of spatial data sources and users and shall
11 serve as the official linkage of the government to international and regional
12 spatial data infrastructure;

13 (ttt) *Socialized housing* refers to housing programs and projects
14 covering homelots, houses and lots, or low-rise to medium-rise buildings, or
15 high density housing projects undertaken by the government or the private
16 sector for the underprivileged and homeless citizens which shall include sites
17 and services development, long-term financing, direct subsidy programs,
18 liberalized terms on interest payments, and such other benefits in accordance
19 with the UDHA and Batas Pambansa Blg. 220;

20 (uuu) *Socialized housing sites* refer to lands identified and designated
21 by LGUs as sites for socialized housing pursuant to Article IV of the UDHA
22 and its implementing guidelines;

23 (vvv) *Strategic Agriculture and Fisheries Development Zones*
24 (*SAFDZs*) refer to areas within the NPAAAD identified for production,
25 agro-processing and marketing activities to help develop and modernize, with
26 the support of government, the agriculture and fisheries sectors in an
27 environmentally and socioculturally sound manner;

1 (www) *Subclassification or reclassification of agricultural lands*
2 refers to the process undertaken by the LGUs of allocating declared
3 agricultural lands in their respective territorial jurisdictions to specific uses
4 such as residential, industrial or commercial purposes and may be used as a
5 basis for application for land conversion by the owners thereof;

6 (xxx) *Sustainable development* refers to the development objective of
7 meeting the needs of the present generation without compromising the ability
8 of future generations to meet their own needs consistent with the principles of
9 social equity, efficiency, and environmental integrity;

10 (yy) *Sustainable traditional resource rights* refer to the rights of
11 ICCs/IPs to sustainably use, manage, protect and conserve: (1) land, air, water,
12 and minerals; (2) plants, animals and other organisms; (3) collecting, fishing
13 and hunting grounds; (4) sacred sites; and (5) other areas of economic,
14 ceremonial and aesthetic value in accordance with their indigenous knowledge,
15 beliefs, systems and practices;

16 (zzz) *Tourism development areas* refer to specific sites for tourism
17 development located in areas identified as priorities in the national and
18 regional tourism master plans as well as those designated through legislative
19 and executive issuances as tourist spots and tourist zones which can be
20 developed into tourism estates or integrated resort, leisure, recreation
21 complexes, and other tourism-related facilities;

22 (aaaa) *Tourism ecozone* refers to tourism development areas, outside
23 protection lands, which have been granted Special Economic Zone status,
24 through the Philippine Export Zone Authority (PEZA) registration and
25 issuance of the required Presidential Proclamation, with its metes and bounds
26 delineated by said Proclamation, pursuant to Republic Act No. 7916 or the
27 Special Economic Zone Act of 1995 (SEZA), as amended;

1 (bbbb) *Tourism estates* refer to large tracts of land with well-defined
2 boundaries in any area, excluding those in protection lands, identified in the
3 Philippine tourism master plan and regional tourism master plan, by
4 proclamation of the President of the Philippines and/or by acts of Congress
5 and/or by local legislation and declared suited for the development of an
6 integrated tourism and resort complex with prescribed carrying capacities and
7 limits for its facilities and activities;

8 (cccc) *Tourist spot* refers to a particular area/site/spot, man-made or
9 natural, known for its unique tourist/visitor-drawing attributes and activities
10 and which may be classified according to its social, cultural, natural, historical,
11 aesthetic, visual, scientific, religious, and recreational significance;

12 (dddd) *Tourist zone* refers to a geographic area with well-defined
13 boundaries proclaimed as such by the President of the Philippines and/or by
14 acts of Congress. No development projects for any purpose shall be initiated
15 and introduced within the zone prior to the formulation of a tourism master
16 development plan which shall be undertaken in coordination with the
17 Department of Tourism (DOT) and the Tourism Infrastructure and Enterprise
18 Zone Authority (TIEZA). A tourist zone is established for the enhancement
19 and/or the conservation of cultural and historical heritage and for the
20 appreciation and enjoyment of the local population and its visitors;

21 (eeee) *Urban areas* refer to all cities regardless of their population
22 density and to municipalities with a population density of at least five hundred
23 (500) persons per square kilometer;

24 (ffff) *Urbanizable areas* refer to sites and lands which, considering
25 present characteristics and prevailing conditions, display marked and great
26 potential of becoming urban areas within a period of five (5) years;

27 (gggg) *Urban forestry or green space* refers to the establishment or
28 setting-up of areas for mini-forests, ecoparks or small nature parks, in both

1 public and private lands: wetlands, man-made lagoons and lakes systems,
2 riverbanks and shores, grasslands, roof and rock gardens: lining roads and
3 highways with trees, shrubs, or ornamental plants, and ground landscaping of
4 schools, hospitals, and other government agencies in order to improve the
5 environment in urban areas;

6 (hhhh) *Water security* refers to the sufficient access throughout the year
7 to the minimum daily requirement of clean water to maintain a healthy life;

8 (iiii) *Water use* refers to the appropriation of water for domestic,
9 municipal, irrigation, power generation, inland fisheries, poultry and livestock,
10 industrial and commercial, environmental, and recreational use;

11 (jjjj) *Watershed* refers to a topographically delineated area of land
12 from which rainwater can drain as surface runoff *vis-a-vis* a specific stream or
13 river system to a common outlet point which may be a dam, irrigation system
14 or urban water supply take-off point, or where the stream discharges into a
15 river, lake, or the sea;

16 (kkkk) *Zoning* refers to the regulatory tool for delineating the specific
17 land uses in accordance with the approved CLUP within the territorial
18 jurisdiction of a city/municipality and specifying the conditions for their
19 regulation, subject to the limitations imposed by law and competent authority;
20 and

21 (llll) *Zoning ordinance* refers to a local law passed by the sangguniang
22 bayan or sangguniang panlungsod approving the development control/zoning
23 plan in accordance with an approved or adopted CLUP of the
24 city/municipality, providing for the regulations and other conditions on the
25 land uses including the limitation on the infrastructure that may be placed
26 within the city's/municipality's territorial jurisdiction. It incorporates the
27 protected areas, protected agricultural lands and ancestral lands as provided for
28 in this Act.

CHAPTER II

FRAMEWORK FOR LAND USE PLANNING

1
2
3 SEC. 5. *Basic Land Use Considerations.* – Various land uses as
4 categorized in the succeeding section shall be determined in a manner that
5 promotes the policies and principles defined in Section 2 of this Act and shall
6 consider the following elements of the framework therefor, among others:

7 (a) Protection land use category as defined in Section 6 shall prevail
8 over existing production land use category. The State shall undertake the
9 necessary action in changing the classification of these production areas;

10 (b) Preservation, conservation, rehabilitation and protection to
11 perpetuity of permanent forestlands, critical watersheds, key biodiversity areas,
12 environmentally-critical and ecologically-fragile areas and prime agricultural
13 lands from any other land use, conversion, disposition, intrusion, utilization
14 and development aside from their determined use and limits;

15 (c) Protection of natural forests and natural resources ensures
16 environmental stability, conserve biological diversity, improve ecosystem
17 functions and provide long-term ecological and economic benefits. Designated
18 restoration areas are designed to revive the ecosystem functions and services of
19 forests as well as improve the economic and ecological benefits of local
20 communities;

21 (d) Protection of forest and wetlands from infrastructure development
22 to preserve the ecological services they provide which are essential to
23 economic development. These activities include, but not limited to, river
24 channelization and dredging, large-scale irrigation and river diversions which
25 reduce riverine habitat and alter flood patterns and natural flow regimes,
26 reduce downstream water availability for agriculture and contribute to
27 salinization through saltwater intrusion in coastal areas;

1 (e) Resolution of land use conflicts which are life-threatening or
2 threatening to public safety, sustainability of key production resources or
3 employment activities and the delivery of basic services which are harmful or
4 destructive to protected areas, flora and fauna, and other protected natural
5 resources. Greater consideration shall be given to the human and tenurial
6 rights of vulnerable groups in resolving land use conflicts;

7 (f) Identification of geo-hazard prone areas and high risk/danger zones
8 and corresponding risk reduction measures to ensure the prioritization of life
9 and safety: *Provided*, That specifically identified and assessed as extremely
10 hazardous and high-risk/danger zones shall be similarly protected and cleared
11 from all forms of human-made obstacles, obstructions and instructions to
12 ensure and secure public health and safety;

13 (g) Respect for existing customary rights and traditional land uses of
14 ICCs/IPs;

15 (h) Identification of settlement areas to check the demand for land and
16 establish the location of employment-generating industries and basic services;
17 and

18 (i) The availability of natural resources including indigenous energy
19 resources for energy security and self-sufficiency. However, infrastructure
20 energy projects such as dams with large reservoirs in natural ecosystems shall
21 not be allowed if it would interrupt the connectivity of river systems, disrupt
22 fish spawning and migration, and alter seasonal flood regimes.

23 *SEC. 6. Categories of Land Uses for Planning Purpose.* – In
24 determining and defining the national, regional and provincial framework
25 plans, and CLUPs, land uses shall be grouped into four (4) major functional
26 uses as follows:

27 (a) Protection Land Use refers to the use of land primarily for
28 rehabilitation, conservation, and protection purposes and the promotion of the

1 country's ecological and life-support systems. Planning for protection land use
2 intends to achieve environmental stability and ecological integrity, ensure a
3 balance between resource use and the preservation of some areas with
4 environmental, aesthetic, educational, cultural and historical significance, aid
5 and protect people and human-made structures from the ill-effects of natural
6 hazards.

7 Areas under this category are those covered by the NIPAS Act of 1992
8 and other coastal and marine protected areas; areas outside NIPAS, which
9 include, but are not limited to:

10 (1) Natural and restored forests, which consist of:

11 (i) All existing areas within forestland containing primary and
12 secondary forests of whatever types of species;

13 (ii) All existing areas within forestland containing secondary growth
14 or residual forests of whatever type or specie;

15 (iii) Areas identified as KBAs;

16 (iv) Restoration areas;

17 (v) All mangrove forests;

18 (vi) All easement areas as defined by Presidential Decree No. 1067,
19 otherwise known as the Water Code of the Philippines; and

20 (vii) All other areas that would be deemed appropriate for protection,
21 as designated by the Department of Environment and Natural Resources
22 (DENR), subject to the approval of the National Land Use Policy Council
23 (NLUPC), created pursuant to Section 55 hereof;

24 (2) Rehabilitated and/or reforested degraded mining areas;

25 (3) Critical ecosystems for protection, such as:

26 (i) Coral reefs;

27 (ii) Marshes and wetlands;

28 (iii) Lakes and rivers;

- 1 (iv) Caves; and
2 (v) Waterfalls;
3 (4) Disaster-prone areas that include areas subject to, or may be
4 subject to:
5 (i) Recurrent flooding;
6 (ii) Liquefaction;
7 (iii) *Tsunamis*;
8 (iv) Storm surges;
9 (v) Polar vortex;
10 (vi) Mass wasting;
11 (vii) Volcanic eruption;
12 (viii) Direct impact of seismic activity;
13 (ix) Other disasters caused by climatic conditions; and
14 (x) Other areas that pose a high degree of hazard to human occupation
15 and activity;
16 (5) Critical watershed areas;
17 (6) Marine protected areas;
18 (7) All prime agricultural lands as defined under this Act;
19 (8) Ecologically-fragile and environmentally-critical areas whose
20 conversion will result to serious environmental problems and threats to public
21 health and safety;
22 (9) Natural and human-made areas/sites of cultural, historical and
23 anthropological significance, which are declared as such by internationally-
24 recognized institutions; and
25 (10) All other areas not included and declared as production areas shall
26 become protection areas.
27 (b) Production Land Use refers to the most efficient, sustainable, and
28 equitable utilization, development and management of land for productive

1 purposes which are not classified for protection land use as defined in this
2 section. Areas included in this category are agricultural lands, coastal and
3 marine zones, production forests, mineral lands, energy resource lands,
4 industrial and tourism development areas where productive activities could be
5 undertaken to meet the country's requirements for economic growth and
6 development. Production land use shall comprise of, but shall not be limited
7 to:

8 (1) Other agricultural lands not identified as prime agricultural lands.

9 They shall consist of, but shall not be limited to:

10 (i) Lands whose soils are suitable for agricultural development;

11 (ii) All alluvial plain lands that are suitable for agricultural production
12 and/or can be devoted to food production;

13 (iii) All lands that are traditional sources of staple food;

14 (iv) All croplands required to attain a certain scale of production to
15 sustain the economic viability of existing agro-based industries in the
16 municipality, city or province; and

17 (v) All lands in areas not highly prone to natural hazards that are
18 suitable for the production of tree crops and other cash crops;

19 (2) Coastal, inland water and marine zones, such as fishponds;

20 (3) Production forests, such as:

21 (i) All areas within forestland not classified as protection forests
22 under Section 6(a) and shall be devoted to the production of timber and/or
23 non-forest products or the establishment of industrial tree plantations, tree
24 farms, woodlots, agro-forestry, or as multiple-use forests;

25 (ii) All areas within forestlands considered as rangelands for grazing
26 purposes; and

27 (iii) All areas within forestlands managed under the community-based
28 forest management in areas not classified as protection forests;

1 (4) Rangelands for grazing;

2 (5) Industrial development areas; and

3 (6) Tourism development areas, including potential small islands for
4 similar purposes.

5 (c) Settlements and Institutional Land Use refers to the use of urban
6 and rural lands for settlements development purposes and/or improvement on
7 existing settlements involving the spatial distribution of population,
8 identification of the roles and functions of key urban centers, determination of
9 relationships among settlement areas, and the provision of basic services and
10 facilities to such settlements.

11 It shall also include lands identified for institutional uses such as
12 educational, administrative, government, law enforcement, health care and
13 social services. Settlements and institutional land uses aim to ensure for the
14 present and future generation the: (1) effective integration of activities within
15 and among settlements, allowing efficient movement of people and production
16 of commodities through the provision of appropriate land, infrastructure, and
17 facilities; and (2) access of the population to housing, education, health care,
18 recreation, transportation and communication, sanitation, and basic utilities
19 such as water, power, waste disposal, and other services.

20 (d) Infrastructure Land Use refers to the use of land dedicated to the
21 provision of basic services that foster economic and other forms of integration
22 necessary for producing or obtaining the material requirements of Filipinos, in
23 an efficient, responsive, safe and ecologically friendly built environment. It
24 includes, among others, subsectors like: road networks, transportation and
25 communication facilities, social services, environmental service facilities, and
26 utilities.

27 *Provided*, That the determination of the functional uses of lands within
28 ancestral domains should be consistent with the land use categories provided

1 for in this Act: *Provided, further,* That other subcategories of land uses in
2 delineated ancestral domains may be formulated by the concerned ICCs/IPs
3 themselves in accordance with their particular needs and traditional resource
4 and management systems.

5 SEC. 7. *Land Use Plans for Ancestral Domains.* – Land use plans for
6 ancestral domains shall be formulated by the ICCs/IPs themselves in
7 accordance with their particular needs and traditional resource and
8 management systems with the assistance of the National Commission on
9 Indigenous Peoples (NCIP), the LGUs and civil society organizations (CSOs)
10 concerned. Such plans shall be recognized and adopted in the barangay,
11 city/municipal, provincial, regional and national physical framework plans.

12 Physical framework plans made prior to the delineation of ancestral
13 domains included in such plans or ordinances shall, without prejudice to the
14 rights of the ICCs/IPs concerned, adopt different land use categories in
15 accordance with their particular needs and traditional resource and
16 management systems.

17 In cases where there are no ADSDPPs, the LGU and the ICCs/IPs shall
18 jointly formulate the land use plan within the ancestral domain until such time
19 that the ICCs/IPs have formulated their ADSDPPs.

20 SEC. 8. *Adoption of Multiple Uses of Land.* – The primary and
21 alternative uses of a specific land resource shall be determined and evaluated
22 by the respective local land use boards prior to any decision for the assignment
23 of its use. Areas feasible for sustainable land resource use may be considered
24 multiple-use zones wherein settlements, tourism, agriculture, agro-forestry and
25 extraction activities and other income-generating or livelihood activities may
26 be allowed except areas under protection land use: *Provided,* That multiple
27 uses of land resources shall be in accordance with priorities in land use
28 allocation identified in the approved physical framework and land use plans

1 wherein such multiple uses are compatible with the original land use and
2 planning, and that no reclassification shall be allowed: *Provided, further,*
3 That, where there are vested rights, titles, and claims prior to the enactment of
4 this Act over the areas feasible for sustainable land resource use, the same shall
5 be respected.

6 CHAPTER III

7 SPECIAL AREAS OF CONCERN

8 ARTICLE 1

9 LAND USE CLASSIFICATION

10 SEC. 9. *Review of Land Use Classification.* – The NLUPC shall
11 review and assess the current land use classification system and definitions
12 used in the country to ensure that it reflects the actual use of lands in the
13 country.

14 The Land Management Bureau (LMB) shall provide the necessary
15 technical information and conduct the needed assessment of the status of the
16 existing land use classification and shall submit an assessment report to the
17 NLUPC not later than ninety (90) days from the establishment of the latter.

18 SEC. 10. *Consideration of Assessment Report.* – Upon validation and
19 affirmation by local land use boards, the land use classification assessment
20 report submitted by the LMB shall be taken into consideration by the NLUPC
21 in the formulation of its planning guidelines.

22 ARTICLE 2

23 NIPAS AREAS

24 SEC. 11. *Integrated Management Strategy.* – For more effective
25 planning, management, and protection of protected areas at the provincial and
26 municipal/city levels, the Protected Area Management Plan (PAMP) referred
27 to in the NIPAS Law shall be incorporated in the Provincial Physical

1 Framework Plan (PPFP) and CLUPs, if applicable, wherein protected area
2 zoning shall be reflected.

3 ARTICLE 3

4 AGRICULTURAL LANDS

5 SEC. 12. *Priority Areas for Agricultural Development.* – Priority areas
6 for agricultural development are the areas distributed under agrarian reform,
7 areas that can be covered by the Comprehensive Agrarian Reform Program
8 (CARP), and the NPAAAD. The mapping of the NPAAAD under the
9 Agriculture and Fisheries Modernization Act (AFMA) shall be completed not
10 later than one (1) year from the effectivity of this Act.

11 SEC. 13. *Conversion of Agricultural Lands.* – All lands considered and
12 identified as prime agricultural lands shall be maintained, managed and
13 protected for agricultural use and shall not be subjected to any form of
14 conversion or reclassification.

15 All other agricultural lands not identified as prime agricultural lands can
16 only be converted to nonagricultural uses upon issuance of a DAR conversion
17 order: *Provided,* That such conversion shall not drastically change the nature
18 of the overall land uses in the surrounding and adjacent areas from its existing
19 land use: *Provided, further,* That consistent with the State policy on giving
20 priority to the completion of the CARP, those lands covered under compulsory
21 acquisition/voluntary offer to sell, production or profit-sharing subject to
22 CARP shall also be protected from conversion pending the distribution and/or
23 installation of the farmer beneficiaries: *Provided, finally,* That pending the
24 completion of mapping activities of the specific areas under the NPAAAD and
25 the SAFDZs under the AFMA and their incorporation in the National Physical
26 Framework Plan (NPPF), the application for conversion of these areas shall not
27 be given due course by the appropriate government agency.

ARTICLE 4

ANCESTRAL DOMAIN

1
2
3 SEC. 14. *Priority Areas for Agricultural Development Within Ancestral*
4 *Domain.* -- Agricultural lands within ancestral domain shall be developed in
5 accordance with their ADSDPP.

6 SEC. 15. *Respect for Ancestral Domains.* -- The Ancestral Domain
7 Management Plan (ADMP) or ADSDPP shall be adopted in the CLUP and/or
8 other plans that the LGU is mandated to produce. The extent of the ancestral
9 domains shall be reflected in the land use plan, and shall be zoned as such in
10 the zoning ordinance. It shall be co-managed by the LGU and IP community.
11 Additionally, the ADSDPP shall be included in the investment plans of the
12 LGU.

13 SEC. 16. *Ancestral Domain Policy Adoption.* -- Ancestral domain
14 policies shall be adopted in the LGU's land use policy framework. However, in
15 the event that the ADMP/ADSDPP is still in the formulation stage or remains
16 to be formulated, the right to self-determination and traditional resource and
17 management systems and processes shall be upheld at all times as provided for
18 by the IPRA of 1997.

ARTICLE 5

FORESTLANDS AND RESERVATION OF WATERSHED

19
20 SEC. 17. *Permanent Forestlands.* -- All forestlands are classified as
21 forest or timberlands. Titles, settlements, permits, leases, and/or agreements
22 within critical habitats, critical watershed areas, protected areas and KBAs
23 shall be reviewed, and their legality affirmed. All erroneous titles, settlements,
24 permits, leases, and/or agreements within permanent forestlands shall be
25 cancelled or revoked in due course. Noncompliance with and violations of
26 these instruments shall be grounds for their cancellation or revocation:
27

1 *Provided*, That the applicable provisions of the IPRA of 1997 shall be
2 respected.

3 Upon recommendation by the LGU, or the Forest Board, the DENR
4 Secretary shall revoke the abovementioned instruments.

5 SEC. 18. *Additional Areas to be Included as Permanent Forestlands.*

6 – The following lands are needed for environmental protection and forestry
7 purposes and shall not be reclassified as agricultural lands or for any other land
8 use:

9 (a) Isolated patches of forest, regardless of size and/or area, with
10 rocky terrain or which protect a spring/water source for communal use;

11 (b) All mangroves and swamplands including twenty (20)-meter wide
12 strips facing oceans, lakes and other bodies of water not yet classified as
13 alienable and disposable lands;

14 (c) Ridge tops and plateaus regardless of size found within or
15 surrounded wholly or partially by forestlands where headwaters emanate;

16 (d) Twenty (20)-meter wide strips of land from the edge of the normal
17 high waterline of rivers and streams with channels of at least five (5) meters
18 width which are not yet classified as alienable and disposable;

19 (e) Areas needed for public interest such as research or experimental
20 purposes; and

21 (f) Areas considered as environmentally-critical because of their
22 vulnerability to damage from landslides, volcanic eruptions, and other natural
23 causes.

24 SEC. 19. *Reversion of Alienable and Disposable Lands to Forestlands.*

25 – Upon the recommendation of the DENR Secretary, duly reviewed and
26 endorsed by the NLUPC, and after due consultations with the concerned LGUs
27 and the affected parties, Congress may authorize the reversion of alienable and
28 disposable lands of the public domain or portion thereof to forestlands.

1 SEC. 20. *Critical Watershed Areas.* – The DENR, in coordination with
2 the DA, the LGUs concerned, and other government agencies, including
3 government-owned and -controlled corporations, and after mandatory public
4 hearings/consultations, shall identify and delineate critical watershed areas that
5 need to be protected, rehabilitated, enhanced, and/or withdrawn from uses that
6 contribute to their further degradation.

7 SEC. 21. *Formulation and Implementation of Integrated Watershed*
8 *Management Plans.* – With the assistance of the DENR and upon mandatory
9 consultations with the concerned sectors and communities, the LGUs, through
10 their local land use boards, shall prepare their watershed management plans
11 which shall be integrated into their respective CLUPs. The formulation and
12 integration of the plan shall be guided, among others, by the principle of the
13 management and development of inland water resources at the watershed level
14 and shall be consistent with the National Forestry Master Plan (NFMP).

15 The DENR and the LGUs concerned shall jointly implement the
16 watershed management plan subject to regular consultations with and
17 involvement of the community and other stakeholders in the implementation of
18 the plan.

19 SEC. 22. *Establishment and Management of National Parks.* – All
20 areas proclaimed by the President of the Philippines and Congress to be under
21 the NIPAS, unless disestablished, including those identified initial components
22 of the NIPAS as KBAs shall comprise the national parks classification of the
23 public domain. The DENR and the LGUs concerned shall ensure that such
24 areas are integrated in the CLUP and physical framework plans: *Provided,*
25 *however,* That the preparation of management plans of protected areas/national
26 parks shall be in accordance with the provisions of the NIPAS Act and other
27 laws establishing or declaring specific areas as protection areas.

1 government shall issue marine tenurial rights to organizations concerned based
2 on a criteria to be established by the NLUPC;

3 (e) Areas that are neither subclassified as mangrove, fisherfolk
4 settlement nor fishpond may be devoted to recreational or tourism purposes:
5 *Provided*, That such undertaking will not result in environmental degradation
6 and displacement of small fisherfolks;

7 (f) Areas which are considered as traditional fishing grounds shall be
8 used primarily for such purpose;

9 (g) Areas shall be allocated for small infrastructure needed by
10 municipal fisherfolk and for fishing gear, boats, and post-harvest facilities; and

11 (h) Areas which form part of foreshore lands as defined in this Act,
12 including those under lease agreements or arrangements, shall undergo zoning
13 and evaluation so their boundaries, actual sizes and corresponding uses can be
14 determined while ensuring that mangrove protection or restoration zones are
15 considered to keep the required 4:1 ratio between mangroves and fishponds.

16 *SEC. 25. Coastal Land Zone Subclassification.* – All public lands in
17 the coastal zones shall be subclassified into any of the following: fishponds,
18 mangroves, protection from tidal surge for preservation of biodiversity,
19 habitats and sanctuaries for endangered wildlife, fisherfolk settlement, or
20 recreational/tourism areas.

21 No subclassification of coastal zones to different uses shall be done
22 without the following:

23 (a) Conduct of a comprehensive inventory and resource and
24 environmental assessment by the DENR with respective LGUs and accredited
25 nongovernment organizations/peoples organizations (NGOs/POs) within their
26 jurisdiction. The result of such assessment along with a list of all existing
27 applications and expired foreshore lease agreements shall be posted in three (3)
28 conspicuous places in the affected localities; and

1 (b) Prior consultation with local Fisheries and Aquatic Resource
2 Management Councils (FARMCs) formed pursuant to Republic Act No. 8550
3 or the Fisheries Code.

4 SEC. 26. *Zoning of Coastal Areas.* – LGUs, in coordination with the
5 DENR, the FARMCS, local fisherfolk organizations and other concerned
6 stakeholders such as women and youth, shall prepare the Coastal Zoning
7 Resource Management Plan (CZRMP) which shall be incorporated in the
8 CLUP. Management zones defined in the CZRMP should be reflected in the
9 CLUP and the subsequent zoning ordinance (ZO).

10 SEC. 27. *Tourism and Recreation Zone.* – The designation of areas for
11 tourism and resorts near to or over fishery areas or ports thereof shall be with
12 the consent of the concerned LGUs and FARMCs, and subject to the policies
13 and guidelines set forth in this Act.

14 SEC. 28. *Protection of Waterways, Easements and Flood Plains.* –
15 Structures of any kind shall not be built in waterways and easements. Pursuant
16 to Presidential Decree No. 1067 or the Water Code of the Philippines, the
17 banks of rivers and streams and the shores of the seas and lakes throughout
18 their entire length and within a zone of three (3) meters in urban areas, twenty
19 (20) meters in agricultural areas and forty (40) meters in forest areas, along
20 their margins, are subject to the easement of public use only in the interest of
21 recreation, navigation, floatage, fishing and salvage.

22 The protection of flood plains shall adopt a river basin management
23 approach, in order to come up with integrated flood mitigation interventions.
24 Development within flood plains and other flood-prone areas must be
25 controlled or, if allowed, must be so sited, constructed and serviced that life of
26 occupants are not put at risk and that disruptions during floods are minimized.
27 The identification and characterization of flood-prone areas and flood plains

1 shall be an integral part of the CLUP preparation. Through the CLUPs and
2 ZOs, LGUs shall establish land use regulations to mitigate flood risks.

3 To promote the best interest and the coordinated protection of flood
4 plains, the Department of Public Works and Highways (DPWH), in
5 coordination with the Department of Science and Technology (DOST) and the
6 DENR, shall declare flood control areas, as necessary, and shall prohibit or
7 control activities that could damage or cause deterioration of lakes and dikes,
8 obstruct the flow of water, change the natural flow of rivers, increase flood
9 losses or aggravate flood problems pursuant to the Water Code of the
10 Philippines.

11 *SEC. 29. Disposition of Public Lands for Fishponds.* – Upon the
12 effectivity of this Act, but subject to existing rights and the preceding section,
13 no Fishpond Lease Agreement (FLA) shall be issued for tidal swamps,
14 mangroves and oilier swamps, marshes, ponds, foreshore lands, and coastal
15 areas within public lands, including those presently declared available for
16 fishpond development. The Land Use Policy Council (LUPC), in coordination
17 with the DENR, the DA, the FARMCs and the LGUs, shall set aside a portion
18 of available public lands for fish propagation, fish sanctuary, conservation,
19 ecological purposes and fisherfolk settlement areas. Fishponds covered by
20 existing FLAs, but are abandoned or are not operating efficiently and are found
21 suitable for mangroves, shall be reforested with mangroves.

22 *SEC. 30. Immediate Restoration of Converted Mangrove Areas.* – The
23 DENR, in coordination with the FARMCs and other concerned agencies, shall
24 immediately take steps in the restoration of all abandoned, undeveloped and
25 underutilized fishponds to their original state as mangrove forests.

ARTICLE 7

MINERAL LANDS

1
2
3 SEC. 31. *Policies on Mineral Lands.* – Land use policies for mineral
4 lands shall be geared towards the rational, ecologically sound, and sustainable
5 use of mineral resources which shall promote economic growth for the local
6 economy and uphold the human rights of IPs and local communities in the
7 affected areas.

8 SEC. 32. *Criteria for the Utilization and Allocation of Land for Mining*
9 *Purposes.* – The allocation and utilization of lands for mining purposes shall
10 be guided by the following:

11 (a) The principles of sustainable development;

12 (b) In case of small-scale mining, adequate and acceptable safeguards
13 shall be instituted by the holders of mining rights or permits to prevent
14 environmental degradation of the mining sites and adjacent areas;

15 (c) Mineral reservations which have become nonoperational for more
16 than ten (10) years, as determined by the Mines and Geosciences Bureau
17 (MGB), shall be placed under appropriate surface management by the DENR;
18 and

19 (d) Ancestral domains declared as protected by virtue of their ADSDPP
20 as well as all watershed areas shall be closed to mining.

21 SEC. 33. *Reversion of Mineral Lands.* – All mineral lands with
22 exhausted mineral resources, as determined by the MGB, shall automatically
23 revert to their original land classification, that is, as forestland or agricultural
24 land. The concerned mining companies shall bear the full cost of rehabilitation
25 of these areas.

ARTICLE 8

ENERGY RESOURCES

1
2
3 SEC. 34. *Guidelines for the Utilization and Allocation of Lands for*
4 *Energy Resource Exploration, Development, Production, Utilization, and*
5 *Distribution Purposes.* – To ensure that the objectives of maintaining
6 ecological balance and maximizing the power potential from indigenous
7 energy resources in the most economical and environmentally-acceptable
8 means are realized, the allocation and utilization of lands shall be guided by
9 the following, consistent with existing regulations and laws on energy
10 resources:

11 (a) Indigenous energy resource exploration and development for the
12 purpose of creating a National Energy Resource Inventory and Database as
13 well as an Energy Resource Block Map shall be allowed subject to the
14 implementation of complementary watershed and other land management
15 plans;

16 (b) Indigenous energy resource exploration, development production,
17 utilization, and distribution shall be subject to the appropriate requirements and
18 processes of the Philippine Environmental Impact Statement (EIS) system.
19 Each project shall secure an Environmental Compliance Certificate (ECC)
20 prior to project implementation to ensure that adequate and appropriate
21 environmental management measures and optimum methods for resource
22 access and recovery are used;

23 (c) Protected areas defined in Section 6 shall be closed to any kind of
24 energy resource development;

25 (d) Energy reservations or portions thereof which have become or have
26 been established to be non-economically viable to operate or are no longer
27 used for energy purposes shall be reclassified to other land uses, subject to
28 existing laws covering energy reservations; and

1 (e) Renewable energy shall be preferred over other energy resource.

2 SEC. 35. *Reversion of Energy Resource Lands.* – All exhausted
3 indigenous energy resource lands, as determined by the Department of Energy
4 (DOE), which are not covered by proclamations shall automatically revert to
5 the category of forestlands or agricultural lands open to disposition, whichever
6 is appropriate, unless the DENR shall classify such areas for other purposes.
7 Exhausted energy resource lands shall refer to specific energy resource sites
8 whose energy reserves of the desired type/s are no longer in sufficient quantity
9 or quality to justify additional expenditure for their extraction and utilization.

10 ARTICLE 9

11 SETTLEMENTS DEVELOPMENT

12 SEC. 36. *Municipalities, Cities, and Settlements Development.* – The
13 development of municipalities, cities, and settlements through the CLUP and
14 implemented by the ZOs of cities and municipalities shall be guided by urban
15 zoning standards designed to maximize existing urban spaces, taking into
16 account studies of pertinent government agencies on climate change.

17 SEC. 37. *Settlements Within Geo-hazard Areas and/or High*
18 *Risk/Danger Zones.* – Settlements within geo-hazard areas and/or high
19 risk/danger zones shall not be allowed. In cases where there are existing
20 settlements within geo-hazard areas and/or high risk/danger zones, the
21 concerned government agencies shall provide assistance to concerned LGUs
22 and settlers in instituting safety and corrective measures to address the
23 potential danger or risk.

24 SEC. 38. *Designation of Waste and Environment Management Site.* –
25 Each city or municipality shall identify and designate an area to serve as waste
26 and environment management, waste disposal, and facilities within one (1)
27 year from the effectivity of this Act. The LGUs, in coordination with the
28 DENR or any other competent authority, shall identify sanitary landfill in order

1 to fast-track the conduct of the Environment Impact Assessment (EIA) study
2 and to facilitate the processing of the ECC. The site or area shall be identified
3 in the city's or municipality's CLUP. For this purpose, cities and municipalities
4 shall establish their solid waste management program, pursuant to Republic
5 Act No. 9003, otherwise known as the "Ecological Solid Waste Management
6 Act of 2000". Likewise, as provided under Section 33 of the Local
7 Government Code of 1991, cities and municipalities may, through appropriate
8 ordinances, bind themselves towards the establishment of a common solid
9 waste management program.

10 Within ninety (90) days from the effectivity of this Act, the DENR, in
11 coordination with concerned agencies, shall promulgate the necessary
12 guidelines and standards for the formulation and establishment of solid waste
13 management programs by cities and municipalities, and shall submit the same
14 to the NLUPC for review and approval.

15 *SEC. 39. Designation and Zoning of Socialized Housing Sites.* – Each
16 city or municipality in urban, urbanizable and rural areas shall designate
17 through the CLUP adequate lands for housing or residential purposes,
18 including socialized housing and resettlement areas, for the immediate and
19 future needs of the local population as well as the underprivileged and
20 homeless in their territory, pursuant to existing laws and regulations. In order
21 to ensure adequate availability of land for the housing needs of the local
22 population, the CLUP may be revised at the minimum of ten (10) years, and
23 reviewable not earlier than every five (5) years.

24 The designated sites for socialized housing shall be located in
25 residential zones, and shall be zoned as socialized housing zones that are
26 integrated in the city's or municipality's ZO, duly approved by the NLUPC,
27 pursuant to existing laws and regulations. Preference shall be given to lands

1 proximate to public transportation facilities which may include *inter alia*
2 railways and public terminals.

3 The location of resettlement areas may either be on-site or off-site and
4 may be within the city or municipality: *Provided*, That designated settlement
5 and socialized housing areas shall consider the proximity and accessibility of
6 the affected community to employment, economic activities and social
7 services.

8 Within ninety (90) days from the effectivity of this Act, the NLUPC, in
9 coordination with concerned agencies, pursuant to HUDCC Resolution
10 No. 521, series of 1992; Executive Order No. 124, series of 1993; and other
11 pertinent guidelines on the matter, shall promulgate the necessary guidelines
12 for the identification and designation of socialized housing sites. All cities and
13 municipalities in urban and urbanizing areas shall identify and designate their
14 socialized housing sites within one (1) year from the effectivity of this Act and
15 must submit the list of these sites and their respective areas to the HUDCC.
16 These sites shall be used exclusively for socialized housing as defined in the
17 UDHA.

18 *SEC. 40. Zoning of Identified Sites for Socialized Housing.* – The
19 identified sites for socialized housing shall be located in residential zones
20 identified by the city's or municipality's CLUP and ZO duly approved by the
21 NLUPC. However, for cities and municipalities where the identified sites are
22 not within the said residential zones, the location shall be within the priority
23 sites and conform with the suitability criteria as defined in Sections 6.3 and 6.4
24 of the Guidelines in HUDCC Resolution No. 521, series of 1992, or as may be
25 defined in subsequent issuances. The identified sites shall be zoned as
26 socialized housing zones as defined herein.

27 The current ZO of LGUs shall be reviewed and revised such that the
28 socialized housing component shall be integrated thereto.

1 SEC. 41. *Valuation of Lands for Socialized Housing.* – Equitable land
2 valuation guidelines for socialized housing shall be set by the Department of
3 Finance (DOF) on the basis of the market value reflected in the zonal valuation
4 or, in its absence, on the latest real property tax declaration. For sites already
5 occupied by qualified beneficiaries under the UDHA, and sites identified as
6 socialized housing zones as defined in this Act, the DOF shall factor into the
7 valuation, the blighted status of the land as certified by the LGU or the
8 National Housing Authority (NHA).

9 SEC. 42. *Guidelines for Identification of Settlement Sites.* – In
10 identifying settlement areas, prospective sites should be:

11 (a) Within alienable and disposable lands but not in
12 environmentally-critical, geo-hazard or other protection areas;

13 (b) Along established urban growth directions;

14 (c) With provisions for or can be provided with basic services and
15 utilities;

16 (d) Within the 0-8% slope range; and

17 (e) Accessible from existing built-up areas and other employment
18 centers through existing or proposed roads and other transportation facilities.

19 SEC. 43. *Urban Forest or Green Space.* – Each city or
20 highly-urbanizing municipality shall identify, designate, and allocate lands
21 owned by the city or municipality as urban forest or green space, based on the
22 guidelines and standards to be issued by the DENR and approved by the
23 NLUPC.

24 SEC. 44. *Protection of Ecological Harmony.* – To ensure the
25 ecological harmony of towns, cities and settlements, certain projects that can
26 alter the present use of a zoned area shall not be issued a building permit,
27 business permit, and/or development permit. The identification of these

1 projects shall be done in coordination with the LGU concerned. All LGUs
2 shall be required to designate restoration areas in their forestland use plans.

3 ARTICLE 10

4 INDUSTRIAL DEVELOPMENT AREAS/SITES

5 SEC. 45. *Criteria for Designating Industrial Development Areas.* – The
6 identification and establishment of industrial development areas shall conform
7 to the provisions of the SEZA, the Comprehensive Agrarian Reform Law
8 (CARL), the IPRA, the UDHA, the Fisheries Code and the AFMA, taking into
9 consideration the following:

10 (a) Identified network of areas for agricultural development and
11 protected agricultural areas pursuant to the AFMA;

12 (b) National policies on the regional dispersal of industries and
13 agri-based industrial development;

14 (c) Identified growth areas and corridors in the National Development
15 Plan;

16 (d) NIPAS and non-NIPAS areas such as, but not limited to, KBAs and
17 restored areas that require protection;

18 (e) National and Urban Development and Housing Framework;

19 (f) Identified socialized housing zones; and

20 (g) National Framework for Physical Planning and other existing
21 national programs and policies.

22 The designated industrial development areas shall be located only in
23 production land use areas and shall become an integral part of the land use plan
24 and ZO of the city or municipality where these areas are located. The laws on
25 CARP Extension with Reforms (CARPER), the IPRA, the UDHA, the
26 Fisheries Code, the AFMA and the Local Government Code shall apply to all
27 special economic zones and freeports.

ARTICLE 11

TOURISM DEVELOPMENT AREAS

1
2
3 **SEC. 46. *Designating Tourism Development Areas.*** – The
4 identification, selection, and development of tourism development areas, and
5 Tourism Enterprise Zones (TEZs) shall be done in consultation and
6 coordination with the concerned LGUs, TIEZA, DOT, and other concerned
7 national government agencies, the private sector and the affected communities,
8 subject to the provisions of Republic Act No. 9593 or the Tourism Act of
9 2009. Tourism development areas shall likewise include those covered by
10 legislative and executive issuances such as tourist spots, tourist zones and
11 tourism ecozones which can be developed into tourism estates or integrated
12 resort, leisure and recreation complexes and other tourism-related facilities as
13 well as those identified in the national, regional, and area-specific tourism
14 master plans and other sector plans, such as ecotourism and agri-tourism sites:
15 *Provided, That* such sites designated for tourism development are outside of
16 areas identified for protection land use. As much as practicable, community-
17 based tourism shall be the principal mode of tourist spot operation. The laws
18 on CARPER, IPRA, UDHA, the Fisheries Code, AFMA, the Local
19 Government Code and National Ecotourism Strategy shall likewise apply to all
20 tourist zones and tourist development areas.

21 Designated areas for tourism development shall become part of the
22 CLUPs and ZOs of the cities or municipalities where these are located.

23 **SEC. 47. *Identification and Preservation of Cultural Heritage.*** – In
24 accordance with Republic Act No. 10066 or the National Cultural Heritage Act
25 of 2009, the National Historical Commission of the Philippines (NHCP), the
26 National Museum (NM), and the National Commission for Culture and the
27 Arts (NCCA), in coordination with other concerned agencies, local
28 communities, and the private sector, shall identify and declare areas and

1 structures which shall be protected and preserved as part of Philippine cultural
2 heritage.

3 The NHCP and the NM, in consultation with the NCCA and the
4 Housing and Land Use Regulatory Board (HLURB), shall designate heritage
5 zones to protect the historical and cultural integrity of a geographical area that
6 is significant to national history.

7 The LGUs, in consultation with the NHCP, the NM, and the NCCA,
8 shall designate heritage zones to protect the historical and cultural integrity of
9 geographical areas and cultural spaces of intangible cultural properties, which
10 are significant to a city or municipality and the community.

11 ARTICLE 12

12 INFRASTRUCTURE DEVELOPMENT

13 SEC. 48. *Allocation and Use of Land for Infrastructure Development.* –
14 Land, whether public or private, shall be allocated and utilized for priority
15 infrastructure projects that are supportive of national or local development
16 objectives. The National Economic and Development Authority (NEDA), in
17 consultation with the concerned national government agencies, LGUs, and the
18 private sector, shall identify and periodically review, update and/or revise the
19 list of priority infrastructure projects under an overall national strategic
20 infrastructure development plan subject to the provisions of this Act, AFMA
21 and IPRA: *Provided,* That such national strategic infrastructure development
22 plan shall be consistent and integrated in the objectives and directions of the
23 NPPF.

24 In determining and evaluating the list of priority infrastructure projects,
25 consideration shall be given to those that:

26 (a) Respond to immediate and vital requirements of the national and
27 regional economy with priority to improving production-market integration,

1 inter-modal transport, conveyance and logistics linkages, rural infrastructure
2 and the development of the agriculture and fisheries sectors;

3 (b) Upgrade existing facilities to international public safety standards;

4 (c) Address the need for sustainable settlements development; and

5 (d) Mitigate the destructive effects of natural disaster-causing
6 phenomena or those that shall serve as alternatives to existing infrastructure
7 found in natural hazard-prone areas.

8 *Provided*, That the provision and implementation of infrastructure
9 support shall be made compatible with existing environmental conditions and
10 the physical, whether natural or human-made, and cultural character of the
11 area. Mandatory public consultations pursuant to existing laws and regulations
12 shall be held prior to the conduct of all infrastructure projects that will
13 necessarily involve dislocation or displacement of people in the area:

14 *Provided, further*, That the proponent of the infrastructure project shall
15 follow the rules on just and humane eviction or demolition under Section 28 of
16 the UDHA as a last resort, notwithstanding the provisions of Republic Act No.
17 8975, prohibiting lower courts from issuing temporary restraining orders,
18 preliminary injunctions, or preliminary mandatory injunctions, and that the
19 proponent shall follow provisions of the IPRA, particularly those pertaining to
20 the rights of ICCs/IPs in case of displacement:

21 *Provided, finally*, That national government infrastructure projects shall
22 provide budgetary allocations for the adequate relocation of displaced
23 communities.

24 *SEC. 49. Infrastructure Projects Within Geo-hazard Areas.* –
25 Construction of priority infrastructure projects within hazard-prone areas shall
26 be allowed: *Provided*, That mitigating and/or preventive measures are adopted
27 and implemented to address the potential adverse economic, sociocultural, and
28 environmental impacts that will emanate from these infrastructure projects,

1 subject to the findings and recommendations of a feasibility study/EIA in
2 accordance with Presidential Decree No. 1586 (EIS System) and Republic Act
3 No. 4846 or the Cultural Properties Preservation and Protection Act.

4 Existing projects that were undertaken without the required EIA and
5 which pose a threat to the environment, or to the integrity of historic,
6 archaeological, or scientifically significant areas, or impinge on critical
7 ecosystems, may be terminated immediately, or gradually phased-out
8 and relocated, or maintained up to their life span, subject, however,
9 to mitigating measures: *Provided*, That the rules on mandatory public
10 hearings/consultations and just and humane eviction or demolition shall also be
11 observed prior to the termination, gradual phase-out, or relocation of projects
12 that will necessarily involve dislocation or displacement of people in the area.

13 CHAPTER IV

14 PHYSICAL FRAMEWORK AND LAND USE PLAN

15 *SEC. 50. National Land Use Planning Process.* – The physical
16 framework and land use planning process shall be participatory, following a
17 combined bottom-up and top-down approach, with mandatory public
18 hearings/consultations conducted at all levels, and shall consider available and
19 updated multidisciplinary scientific information of land uses.

20 A set of national policy guidelines and standards for physical planning
21 shall be formulated by the NLUPC. These shall guide the preparation and
22 formulation of the national, regional and provincial physical framework plans.

23 These standards shall give due consideration to conflicting uses and
24 areas being used, declared or designated for agrarian reform, protected areas,
25 coastal resource management and/or ancestral domains.

26 The NPPF shall define the national strategy and objectives of the
27 country's urban, rural and regional development. It shall guide the rational
28 distribution of population, access to economic opportunities and social

1 services, sustainable utilization of resources, and maintenance of
2 environmental integrity.

3 Furthermore, it shall consider the existing regional physical framework
4 plans (RPFs) and PPFs.

5 The RPFs, the PPFs and the CLUPs, which cover the physical
6 development of their respective territories, shall be consistent with the NPF:
7 *Provided*, That the integration and harmonization of physical framework plans
8 at all levels shall be iterative to ensure that the concerns of both top and bottom
9 levels of government are considered in the NPFs, RPFs, PPFs and CLUPs.

10 The physical framework and land use plans prepared at all levels shall
11 be consistent with each other, specifically on the linkages of the major land use
12 categories to ensure their complementation in the utilization, development and
13 management of resources.

14 The period of coverage of the national, regional and provincial
15 framework plans shall be thirty (30) years with regular review and updating
16 every ten (10) years.

17 *SEC. 51. National Physical Framework Plan.* – The NPF shall guide
18 the planning and management of the country’s land and other physical
19 resources at the national and subnational levels, and indicate broad spatial
20 directions and policy guidelines on protection land use, production land use,
21 settlement development and infrastructure development. The NPF shall be the
22 basis for adopting the land use and physical planning-related guidelines,
23 including zoning and other land use control standards that will guide the
24 formulation of city/municipal ZOs.

25 The NLUPC, in consultation with concerned sectors and communities,
26 shall update the NPF after such period that objectives and goals set by the
27 NPF have been substantially achieved. It shall also formulate and issue the
28 appropriate planning guidelines and standards through which all physical

1 planning, land use and management of resources shall be reviewed, prepared,
2 formulated and monitored.

3 The resulting land use plan/physical framework shall be the basis for the
4 identification, formulation and development of national and local development
5 plans, programs, projects and activities of the government at all levels.

6 *SEC. 52. Regional Physical Framework Plan.* – The RPPF shall
7 provide broad spatial directions and policy guidelines on protection land use,
8 production land use, settlement development, and infrastructure development
9 at the regional level and guide the formulation of the PPFs. The RPPF shall
10 consider the existing PPFs and the CLUPs of LGUs within the territorial
11 jurisdiction of the region.

12 The Regional Land Use Policy Council (RLUPC), created under Section
13 59 of this Act, shall formulate and periodically update the RPPF based on the
14 guidelines issued by the NLUPC, in a manner consistent with and following the
15 objectives of the NPPF. Likewise, the Medium-Term Regional Development
16 Plan (MTRDP) and the Medium-Term Regional Development Investment
17 Program (MTRDIP) shall be guided by and made consistent with the
18 objectives identified in the RPPF.

19 *SEC. 53. Provincial Physical Framework Plan.* – The PPF shall
20 determine the physical development of the entire provincial territory,
21 consolidate and harmonize the comprehensive land use plans of component
22 cities and municipalities, consistent with the RPPF. It shall reflect the
23 indicative land use management and physical development direction of the
24 province.

25 Further, the PPF shall serve as basis for other sectoral and
26 development plans related to land, natural resources, and infrastructure
27 facilities, including the development plan of the province; reconciliation and
28 rationalization of land use proposals among component cities and

1 municipalities and with the higher level framework plan; guiding development
2 agencies and private developers, particularly those that undertake large-scale
3 projects; and providing a basis for resolving conflicts arising from the
4 implementation of land use plans and development projects involving two (2)
5 or more municipalities.

6 The PPF shall serve as the basis for the preparation of the Provincial
7 Development Plan (PDP) and Provincial Development Investment Program
8 (PDIP). The PPF, PDP, PDIP and/or Provincial Physical Framework and
9 Development Plan (PPFDP) shall serve as the basis for the formulation of
10 sectoral action plans of national government agencies in the province and all
11 LGUs within its jurisdiction. The province may opt to prepare their PDP
12 alongside the preparation of the PPF and consolidate them into a PPFDP:
13 *Provided*, That PPFDP shall remain consistent with the PPF: *Provided*,
14 *further*, That any review or changes in the PPF shall coincide with the
15 overall review process of the PPF.

16 The Provincial Land Use Planning and Management Board (PLUPMB),
17 created under this Act, shall ensure that the PPF is consistent with the
18 national and regional planning framework and guidelines issued by the
19 NLUPC/RLUPC. The PPF shall be presented to the Provincial Development
20 Council (PDC) for endorsement to the sangguniang panlalawigan, who shall
21 formally adopt and approve the PPF. The approved PPF shall be submitted
22 to the RLUPC for consolidation and integration into the PPF.

23 Under the general supervision of the PLUPMB, the Provincial Planning
24 and Development Office/Coordinator (PPDO/PPDC) shall provide technical,
25 secretariat and administrative support in the preparation, consultation,
26 integration and formulation process of the PPF.

27 **SEC. 54. *City and Municipal Land Use Plans.*** – All barangays shall
28 provide their sectoral, temporal and spatial data for the CLUP which shall

1 serve as the foundation for the formulation of the city/municipal CLUPs. The
2 data shall be provided by the sangguniang pambarangay through stakeholder
3 consultations. The CLUP shall determine the specific uses of land and other
4 physical and natural resources, both private and public, within their territorial
5 jurisdiction including areas co-managed with the national government and, as
6 appropriate, management plans for ancestral domains, critical watersheds, river
7 basins, and protected areas.

8 The CLUP shall delineate actual boundaries on the ground within the
9 territorial jurisdiction, embody the desired land use patterns of the barangay,
10 city or municipality, translate and integrate sectoral plans, and provide
11 appropriate policies for each of the four (4) land use planning categories. The
12 spatial directions prescribed in the CLUP shall serve as the basis for the
13 preparation and formulation of the Comprehensive Development Plan (CDP)
14 and the Local Development Investment Programs (LDIP) of the LGUs.

15 Consistent with the national standards and guidelines prescribed in
16 Section 50, the cities and municipalities shall, in consultation with the
17 concerned sectors, prepare their respective CLUPs. The City/Municipal Land
18 Use Planning and Management Board (C/MLUPB), created under this Act,
19 shall be responsible for the preparation and formulation of the CLUP and
20 ensure its consistency with national and regional physical planning guidelines
21 and standards. Under the general supervision of the respective C/MLUPB,
22 the City/Municipal Planning and Development Office/Coordinator
23 (C/MPDO/PDC) shall provide technical, secretariat and administrative support
24 in the preparation, consultation, integration and formulation process of the
25 respective CLUPs of each city or municipality.

26 The CLUPs shall be submitted by the city/municipal local development
27 councils (LDC) for adoption and approval of the sangguniang bayan. The

1 approved CLUPs shall be submitted to the province for integration into the
2 PFPF.

3 CHAPTER V

4 IMPLEMENTING STRUCTURE AND MECHANISM

5 SEC. 55. *Creation of the NLUPC.* – The National Land Use Committee
6 (NLUC) under the NEDA Board (NB) is hereby abolished and, in its stead,
7 the NLUPC shall be created. It shall exercise the powers and
8 responsibilities identified under this Act and assume the functions of the
9 NEDA Board-National Land Use Committee (NB-NLUC). It shall further
10 exercise the powers and functions pertaining to land use planning vested by
11 law to the HLURB, except the following:

12 (a) Formulate land use planning guidelines in the preparation of the
13 CLUPs and ZOs of LGUs to ensure compliance with the national policies,
14 objectives, priorities and directions set by the NLUPC;

15 (b) Provide technical and other forms of planning assistance to,
16 including capacity building for, LGUs and zoning boards; and

17 (c) Act as the appellate body on decisions of local zoning bodies on
18 locational clearance applications and/or oppositions thereto and other zoning
19 issues involving private rights.

20 The NLUPC shall act as the highest policy-making body on land use
21 and shall resolve land use policy conflicts between or among agencies,
22 branches, or levels of the government. It shall integrate efforts, monitor
23 developments relating to land use and the evolution of policies.

24 SEC. 56. *Composition of the NLUPC.* – The NLUPC shall be headed
25 by the Secretary of the NEDA as Chairperson. It shall choose a Vice
26 Chairperson from among the members of the Council, who shall assume the
27 functions of the Chairperson in case of absence. The NLUPC shall meet at
28 least once every quarter.

1 The members of the Council shall be the following:

2 (a) The Secretary of the Department of Agrarian Reform (DAR);

3 (b) The Secretary of the Department of Agriculture (DA);

4 (c) The Secretary of the Department of Environment and Natural
5 Resources (DENR);

6 (d) The Secretary of the Department of the Interior and Local
7 Government (DILG);

8 (e) The Chairperson of the National Commission on Indigenous
9 Peoples (NCIP);

10 (f) The Chairperson of the Housing and Urban Development
11 Coordinating Council (HUDCC);

12 (g) The Chief Executive Officer of the Housing and Land Use
13 Regulatory Board (HLURB);

14 (h) The Administrator of the National Mapping and Resource
15 Information Authority (NAMRIA);

16 (i) President of the League of Cities of the Philippines (LCP);

17 (j) President of the League of Municipalities of the Philippines (LMP);

18 (k) Two (2) representatives each from four (4) basic sectors directly
19 involved in land use, namely: urban poor, peasants, fisherfolk, and indigenous
20 peoples who shall be appointed by the respective National Anti-Poverty
21 Commission (NAPC) sectoral councils. Of the eight (8) sectoral
22 representatives, at least four (4) shall be women: *Provided*, That one of whom
23 shall be from the Moro sector;

24 (l) Four (4) representatives from the developers' associations; the
25 accredited associations of professionals dealing with land use such as, but not
26 limited to, urban and regional planners, environmental planners, architects,
27 geologists and geodetic engineers; the business or private sectors; and

1 (m) The Head of the NLUPC Secretariat shall be a nonvoting
2 *ex officio* member.

3 Cabinet Secretaries who are members of the Council may designate their
4 duly authorized and permanent representatives whose ranks shall in no case be
5 lower than Undersecretary.

6 SEC. 57. *Powers and Functions of the NLUPC.* – The NLUPC shall
7 have the following powers and functions:

8 (a) Guide the determination and identification of the country's strategic
9 land use development and physical planning objectives, priorities and
10 direction, as well as recommend the adoption, passage, or amendment of laws
11 to ensure that plans, programs, projects, and activities, including local
12 government initiatives affecting land use are consistent with national
13 development objectives;

14 (b) Formulate the necessary national policy guidelines in the
15 preparation of the country's physical framework plans, including the setting of
16 limits/target key land uses needed for protection, production, settlements and
17 infrastructure for present and future needs;

18 (c) Ensure that policies, guidelines and standards on land use and
19 physical planning, including zoning, shall be followed by the RLUPC, local
20 land use boards and concerned national agencies, and that the RPPF, PFPF and
21 CLUPs shall be consistent with the NPPF;

22 (d) Ensure the consistency of other national development and sectoral
23 plans and programs, including the medium-term Philippine Development Plan
24 and Public Investment Program (PIP), with the NPPF;

25 (e) Integrate and harmonize all laws and policies relevant to land use in
26 order to come up with a rational, cohesive, and comprehensive national land
27 use framework and, if warranted, recommend to Congress the adoption,
28 passage or amendment of laws to ensure that sectoral plans, projects and

1 activities, including local government initiatives affecting land use are
2 consistent with national development objectives;

3 (f) Resolve policy conflicts on land uses between or among agencies,
4 branches, or levels of government and unresolved land use policy conflicts at
5 the regional level;

6 (g) Issue locational clearance for projects of national significance;

7 (h) Call on any department, bureau, office, agency, or instrumentality
8 of the government and or private entities and organization for cooperation,
9 support, and assistance in the performance of its functions;

10 (i) Review the NPPF every ten (10) years;

11 (j) Advise the President of the Philippines and the NEDA Board on all
12 matters concerning land use and physical planning;

13 (k) Adopt rules of procedures for the orderly and expeditious conduct
14 of meetings and other business of the Council; and

15 (l) Perform such other acts and functions and exercise such other
16 powers as may be necessarily implied, inherent, incident, or related to the
17 foregoing.

18 SEC. 58. *The NLUPC Secretariat.* – The existing unit of the NEDA in
19 charge of Land Use and Physical Planning Division shall act as the NLUPC
20 Secretariat which shall perform functions such as, but not limited to,
21 managing information, gathering of data, coordinate the monitoring of
22 government agencies and LGUs, ensuring multi-stakeholder participation
23 towards formation of local land use policy boards, sharing of data base
24 and mapping systems, and reinforcing relevant assessment tools and
25 capability-building programs.

CHAPTER VI

REGIONAL AND LOCAL LAND USE POLICY BODIES

1
2
3 SEC. 59. *The Regional Land Use Policy Council (RLUPC).* – At the
4 regional level, the Regional Land Use Committee (RLUC) is hereby abolished
5 and, in its stead, the RLUPC shall be created. The RLUPC shall be
6 institutionalized, replicating the NLUPC structure and composition. It shall be
7 chaired by the NEDA Regional Director and shall exercise the following
8 functions:

9 (a) Formulate regional policies and guidelines which are consistent
10 with the national planning guidelines issued by the NLUPC in the preparation
11 and formulation of the respective provincial physical planning and
12 comprehensive land use plans of LGUs within its jurisdiction;

13 (b) Prepare and periodically update the RPPF, taking into consideration
14 national policies and lower level plans;

15 (c) Review, prior to adoption by the respective sanggunians, the
16 PPFs and CLUPs of highly-urbanized and independent component cities to
17 ensure consistency with the RPPF and national policies set forth by the
18 NLUPC;

19 (d) Decide and resolve policy conflicts on land use planning,
20 classification, and allocation that may arise between or among regional line
21 agencies, provinces and cities/municipalities;

22 (e) Monitor changes in land use and other physical resources in the
23 region;

24 (f) Coordinate and monitor the land use activities of regional line
25 agencies and LGUs;

26 (g) Evaluate consistency of major programs and projects of regional
27 agencies and entities with the RPPF and their impact on land use and the
28 environment; and

1 (h) Perform other related functions as may be directed by the NLUPC.

2 In forestland use management, where the watershed area/continuum
3 covers several municipalities across different provinces, an inter-LGU task
4 force composed of representatives from the RLUPC and the concerned
5 municipal local government units where the watershed area is located shall be
6 formed. With the assistance of the DENR and upon mandatory consultations
7 with the concerned sectors, the inter-LGU task force shall formulate the
8 watershed management plan for the said watershed area.

9 SEC. 60. *The Provincial Land Use Planning and Management Board*
10 *(PLUPMB)*. – The Provincial Land Use Committee (PLUC) is hereby
11 abolished. The PLUPMB is created in all provinces under this Act to oversee
12 the preparation, integration, adoption and approval of the PPF and shall
13 ensure its consistency with approved national and regional planning guidelines.
14 The PLUPMB shall also be directly responsible for the effective management
15 and implementation of the approved PPF and ensure that any existing and
16 future development initiatives, programs and projects introduced within its
17 jurisdiction are consistent with and supportive of the land use resource
18 management and physical planning objectives, directions and character
19 identified in the approved PPF.

20 SEC. 61. *Powers and Responsibilities of the PLUPMB*. – The
21 following are the powers and responsibilities of the PLUPMB:

22 (a) Formulate necessary provincial planning guidelines and/or
23 implementing policies for the preparation and formulation of the respective
24 CLUPs within its jurisdiction consistent with approved national and regional
25 planning policies and guidelines;

26 (b) Submit to the PDC the draft CLUP for its transmission to the
27 sangguniang panlalawigan and for the PDC to use it as reference for
28 consistency and complementation with other development plans;

1 (c) Review, monitor and assess the implementation and
2 operationalization of the approved CLUP and its consistency with physical
3 *planning and land use management objectives and goals identified in the*
4 CLUP;

5 (d) After an appropriate period of time or upon instruction and advice
6 by the NLUPC, conduct and initiate a progress review of the PFPF and the
7 achievement of its stated objectives and goals, and update the PFPF;

8 (e) Decide and resolve policy conflicts on land use planning,
9 classification, and allocation that may arise between or among
10 cities/municipalities and facilitate the resolution of any unresolved land use
11 conflict, including political boundary conflicts, at the city/municipality level;

12 (f) Advise the sangguniang panlalawigan on all matters pertaining to
13 land use and physical planning;

14 (g) Promote cooperation and sharing of resources between and among
15 component LGUs of the province or with neighboring LGUs to address
16 common land use and development issues including those related to
17 geo-physical hazards, watershed and river basin management, coastal and
18 marine waters, climate change impact and disaster risks; and

19 (h) Assist the sangguniang panlalawigan in reviewing the submitted
20 CLUPs of component cities/municipalities to ensure consistency with the
21 PFPF.

22 In cases where the watershed areas transcend the boundaries of a
23 particular municipality, an inter-LGU task force composed of representatives
24 from the PLUPMB of the municipal local government units where the
25 watershed area is located shall be formed.

26 SEC. 62. *Composition of the PLUPMB.* – The PLUPMB shall be
27 composed of the following fifteen (15) members to be selected based on the
28 rules to be formulated by the NLUPC as provided in this Act:

- 1 (a) Provincial Planning and Development Coordinator (PPDC);
- 2 (b) Chairperson of the Sangguniang Panlalawigan Committee on
3 Environment and Natural Resources;
- 4 (c) Provincial Chapter President-League of Municipalities and/or
5 League of Cities;
- 6 (d) Provincial Agrarian Reform Officer (PARO);
- 7 (e) Provincial Environment and Natural Resources Officer (PENRO);
- 8 (f) Provincial Agricultural Officer (PAO);
- 9 (g) NCIP Provincial Officer;
- 10 (h) HLURB Regional Officer;
- 11 (i) Three (3) representatives from the local business or private sector;
12 the developers' association and accredited associations of professionals
13 dealing with land use such as, but not limited to, urban and regional planners,
14 environmental planners, architects, geologists, geodetic engineers; and
15 chamber of commerce, who shall be appointed from among the accredited
16 organizations within their respective development councils;
- 17 (j) Four (4) representatives from the basic sector groups (urban poor,
18 fisherfolk, farmers and indigenous peoples): *Provided*, That at least two (2)
19 representatives shall be women: *Provided, further*, That the representatives
20 shall be appointed from among the accredited organizations within their
21 respective development councils: *Provided, finally*, That, in predominantly
22 Muslim areas, one of whom shall be from the Moro sector; and
- 23 (k) Designated Board Chairperson, to be chosen among the members.

24 Except for *ex officio* members, the members of the PLUPMB shall be
25 appointed for a term of three (3) years, subject, however, to the elected office
26 held, government employment and/or official designation of the LGU, national
27 agency and/or local business/private sector association or basic sector group
28 representation in the board. The NLUPC, within ninety (90) days from its

1 establishment, shall formulate the rules for the selection of the Chairperson and
2 the members in the PLUPMB. The PPDO/PPDC shall provide technical
3 secretariat and administrative support and resources for the effective operation
4 of the PLUPMB.

5 Aside from the PPDO, the PLUPMB may call upon other local and
6 national government offices and agencies such as the local Engineer, Assessor,
7 and local field representatives of the DA, DPWH, the Department of
8 Transportation and Communications (DOTC), DOT, DENR, DAR, the
9 Department of Education (DepED), NCIP and other concerned national
10 agencies to assist the PLUPMB in the performance of its roles and mandates.

11 Appropriations for the regular operation and activities of the PLUPMB
12 shall be included in the annual budget proposal of the PPDO: *Provided*, That
13 other funds and resources, including grants, applicable service fees and charges
14 collected, contributions, donations, and other funds to support its operations
15 and activities may be accepted and received by the PLUPMB, subject to
16 existing auditing and reporting procedures.

17 SEC. 63. *City/Municipal Land Use Planning and Management Board*
18 *(C/MLUPMB)*. – A C/MLUPMB is hereby created under this Act in all
19 municipalities and cities, including highly-urbanized and component cities, to
20 oversee the preparation, integration, adoption and approval of their respective
21 CLUPs. It shall issue a Certificate of Compliance prior to the submission of
22 the CLUP to the sanggunian to ensure the consistency of such plans with
23 approved national, regional and provincial planning guidelines. The
24 C/MLUPMB shall also be directly responsible for the effective management
25 and implementation of the approved CLUP and for ensuring that existing and
26 future local policies, including ZOs, development initiatives, programs and
27 projects introduced within its jurisdiction, are consistent with and supportive of

1 the land use resource management and physical planning objectives, directions
2 and character identified by the approved CLUP.

3 SEC. 64. *Powers and Responsibilities of the C/MLUPMB.* – The
4 C/MLUPMB shall exercise the following powers and functions:

5 (a) Ensure the inclusion of the input of the barangays within the
6 jurisdiction of the respective city/municipality on sectoral, temporal and spatial
7 dimensions of the plan and its consistency with approved national, regional and
8 provincial planning guidelines;

9 (b) Review, monitor and assess the implementation and
10 operationalization of the approved CLUP and its consistency with physical
11 planning and land use management objectives and goals identified in the
12 CLUP;

13 (c) Issue a Certificate of Compliance to the sanggunian as proof that
14 the CLUP is compliant with national land use polices, guidelines and
15 standards;

16 (d) Submit to the LDC the draft CLUP for its transmission to the
17 sanggunian and for the LDC to use it as basis for consistency and
18 complementation with other development plans;

19 (e) Decide and resolve policy conflicts on land use planning,
20 classification, and allocation that may arise between or among barangays and
21 facilitate the resolution of any unresolved land use conflict, including boundary
22 conflicts, involving barangays;

23 (f) Based on the CLUP, review and endorse for approval/disapproval
24 applications for locational clearances, building and zoning permits and/or other
25 planning-related requirement for any project, both private and public, that is
26 submitted to the LGU for issuance;

27 (g) Advise the sangguniang bayan on all matters pertaining to land use
28 and physical planning; and

1 (h) Promote cooperation and sharing of resources between and among
2 its barangays and neighboring LGUs to address common land use and
3 development issues, including those related to geo-physical hazards, watershed
4 and river basins, coastal and marine waters, climate change impact and disaster
5 risks.

6 SEC. 65. *Composition of the C/MLUPMB.* – The C/MLUMPPB shall
7 be composed of the following thirteen (13) members and shall be headed by a
8 Chairperson:

9 (a) City/Municipal Planning and Development Coordinator
10 (C/MPDC);

11 (b) Chairperson, Sangguniang Bayan Committee on Environment and
12 Natural Resources;

13 (c) President of the Association of Barangay Captains (ABC);

14 (d) Municipal Agrarian Reform Officer (MARO);

15 (e) LGU Environment and Natural Resources Officer (City/Municipal
16 ENRO);

17 (f) Municipal Agriculture Office (MAO);

18 (g) Three (3) representatives from the local business/private sector; the
19 developers' associations; the accredited associations of professionals dealing
20 with land use such as, but not limited to, urban and regional planners,
21 environmental planners, architects, geologists and geodetic engineers; and
22 association/chamber of commerce, who shall be appointed from among the
23 accredited organizations within their respective development councils;

24 (h) Four (4) representatives from the basic sector groups (urban poor,
25 fisherfolk, farmers and indigenous peoples): *Provided*, That at least two (2)
26 representatives shall be women: *Provided, further*, That the representatives
27 shall be appointed from among the accredited organizations within their

1 respective development councils: *Provided, finally,* That, in predominantly
2 Muslim areas, one of whom shall be from the Moro sector; and

3 (i) Designated Board Chairperson, to be chosen among the members.

4 Except for *ex officio* members, the members of the C/MLUPMB shall
5 be appointed for a term of three (3) years, subject, however, to the elected
6 office held, government employment and/or official designation in the LGU,
7 national agency and/or local business/private sector association or basic sector
8 group representation in the board. The NLUPC, within ninety (90) days from
9 its establishment, shall formulate the rules for the selection of the Chairperson
10 and members of the C/MLUPMB. The City/Municipal Planning and
11 Development Office/Coordinator (C/MPDO/C) shall provide technical
12 secretariat and administrative support and resources for the effective operation
13 of the C/MLUPMB.

14 Aside from the C/MPDO/C, the C/MLUPMB may call upon other local
15 and national government offices and agencies, such as the local Engineer,
16 Assessor, and local field representatives of the DA, DPWH, DOTC, DOT,
17 DENR, DAR, DepED and other concerned national agencies, to assist the
18 C/MLUPMB in the performance of its roles and mandates.

19 Annual appropriations for the operation and activities of the
20 C/MLUPMB shall be included in the annual budget proposal of the
21 C/MPDO/C: *Provided,* That other funds and resources, including grants,
22 applicable service fees and charges collected, contributions, donations, and
23 other funds to support its operations and activities may be accepted and
24 received by the PLUPMB, subject to existing auditing and reporting
25 procedures.

26 LGUs shall create and/or activate their respective C/MLUPMB, upon
27 guidelines issued by the NLUPC for such purposes, not later than six (6)
28 months from the effectivity of this Act.

CHAPTER VII

ADOPTION, APPROVAL AND REVIEW OF LOCAL LAND USE
AND PHYSICAL FRAMEWORK PLANS

1
2
3
4 SEC. 66. *Approval and Review of the PFPF and the CLUPs.* – The
5 PFPF and the CLUPs of the respective city/municipal LGUs, including highly
6 urbanized cities and independent component cities, shall be submitted by the
7 local land use boards to the LDCs for transmission to the local sanggunian for
8 approval.

9 SEC. 67. *Approval of the RFPF and the NFPF.* – The RFPF and the
10 NFPF shall be submitted for review and approval of the RLUPC and the
11 NLUPC, respectively, upon the conduct of appropriate stakeholder and agency
12 consultations: *Provided,* That such processes and guidelines shall be prepared
13 and issued by the NLUPC within six (6) months from effectivity of this Act.

CHAPTER VIII

MAPPING AND DATA MANAGEMENT FOR
LAND USE PLANNING

14
15 SEC. 68. *National Mapping and Spatial Data Infrastructure Program*
16
17 (*NMSDIP*). – A national mapping program shall be implemented, coordinated
18 and monitored through the creation of the Inter-Agency Technical Committee
19 (ITC) composed of the NAMRIA as the lead agency, the Bureau of Soils and
20 Water Management (BSWM), the Forest Management Bureau (FMB), the
21 LMB, the Land Registration Authority (LRA), the Protected Areas and
22 Wildlife Bureau (PAWB), the MGB, the Philippine Institute of Volcanology
23 and Seismology (PHIVOLCS), the DAR, the DA, the NCIP, the National
24 Water Resources Board (NWRB), the Department of Energy (DOE), the
25 National Disaster Risk Reduction and Management Council (NDRRMC), the
26 NEDA, and other concerned government agencies. The ITC shall be
27 constituted, and the mapping and spatial data infrastructure program shall be
28 initiated within thirty (30) days from the effectivity of this Act. The program
29

1 shall be responsible for the production of base and decision maps and
2 associated spatial databases for all planning levels based on the guidelines of
3 the NLUPC.

4 Under the program, all government stakeholders concerned in the
5 production of maps of various themes shall collaboratively formulate the
6 government's spatial data infrastructure master plan and respective government
7 agency/stakeholders' spatial data infrastructure plans which shall be the basis
8 for subsequent funding and eventual project implementation and/or operation.

9 All pertinent and updated thematic maps/data from supporting agencies
10 of the program shall be submitted to the NAMRIA for compilation and
11 integration into a national geospatial database established under the program.

12 The NAMRIA shall finish its base mapping program within two (2)
13 years upon the effectivity of this Act and provide updates thereof to support the
14 implementation of the spatial data infrastructure program.

15 The spatial and non-spatial data generated by these activities shall be
16 transmitted to the LGU as soon as practicable. Existing land information data
17 available to the national government agencies as of the effectivity of this Act
18 shall be immediately transmitted to the LGUs.

19 For purposes of uniformity and standardization, the LGUs, assisted by
20 the appropriate agencies of the national government, shall likewise prepare
21 their respective maps using scales, symbols, and other indicators to be
22 prescribed in accordance with this Act. The completed maps shall be integrated
23 in the NPPF, pursuant to Section 51 of this Act.

24 **SEC. 69. *Maps for Planning.*** – Within one (1) year after the
25 NLUPC's approval of the Guidelines and Standards for planning at all levels,
26 available NAMRIA maps and all maps made available to the NAMRIA by
27 supporting agencies shall be submitted to the NLUPC for national, provincial,
28 cities and municipalities planning. The NLUPC shall forward these maps to the

1 respective PLUPMBs and C/MLUPMBs after it has reviewed and approved
2 them.

3 Pertinent maps to be produced through the NMSDIP shall include,
4 among others:

- 5 (a) Topographic maps;
- 6 (b) Geologic maps;
- 7 (c) Hydrologic maps;
- 8 (d) Climate maps;
- 9 (e) Soils maps;
- 10 (f) Slope maps;
- 11 (g) Mineral resource maps;
- 12 (h) Existing land use maps;
- 13 (i) Land suitability maps for:
 - 14 (1) Settlements;
 - 15 (2) Agriculture;
 - 16 (3) Industrial areas; and
 - 17 (4) Others;
- 18 (j) Agricultural maps:
 - 19 (1) Network of NPAAAD;
 - 20 (2) Commodity specific development guide maps;
 - 21 (3) Land limitation maps;
 - 22 (4) Cropping system zones maps;
 - 23 (5) Hydro-ecological conditions maps; and
 - 24 (6) Irrigation systems maps;
- 25 (k) Land classification maps;
 - 26 (1) Municipal waters delineation maps and MPAs;
- 27 (m) Geo-hazards maps:
 - 28 (1) Flood-prone areas;

- 1 (2) Hazard zonation maps for volcanoes;
- 2 (3) Map of fault systems;
- 3 (4) *Tsunami*-prone areas; and
- 4 (5) Erosion-prone areas;
- 5 (n) Tourism maps;
- 6 (o) Transportation maps;
- 7 (p) Traffic flow;
- 8 (q) Maps designating areas served by:
 - 9 (1) Power;
 - 10 (2) Telecommunications; and
 - 11 (3) Water;
 - 12 (r) Maps indicating the following facilities:
 - 13 (1) Health;
 - 14 (2) Education; and
 - 15 (3) Power;
 - 16 (s) Domestic water supply;
 - 17 (t) Industrial areas;
 - 18 (u) Population distribution map;
 - 19 (v) Ancestral domain map;
 - 20 (w) NIPAS areas;
 - 21 (x) Areas suitable for urban expansion;
 - 22 (y) Watershed areas; and
 - 23 (z) Forestlands:
 - 24 (1) Protection areas;
 - 25 (2) Production areas; and
 - 26 (3) Restoration areas:
 - 27 (i) Key biodiversity areas; and
 - 28 (ii) Marine protected areas.

1 SEC. 70. *Ground Delineation of the Country's Permanent Forest Line.*

2 – Pursuant to the Constitution and hereby provided for under this Act, the final
3 determination and ground delineation of the country's permanent forest line
4 shall be completed within one (1) year from the effectivity of this Act:
5 *Provided*, That appropriations for the fulfillment of this provision shall be
6 included in the annual appropriations of the DENR: *Provided, further*, That the
7 complete report of the delineation of the country's permanent forest line shall
8 be submitted to the NLUPC for appropriate integration in the country's
9 strategic land use development plan and policies.

10 SEC. 71. *Completion and Updating of Existing Cadastral Surveys.* –

11 The completion of incomplete cadastral surveys of LGUs and the updating of
12 existing surveys shall be given priority consideration and allocation of
13 resources in the implementation of this Act. The DENR shall include in its
14 annual appropriations the completion and updating of all incomplete and
15 existing cadastral surveys of all LGUs in the country: *Provided*, That such
16 surveys and maps shall be integrated into the national spatial database
17 information and mapping system.

18 In cases of ancestral domains, self-delineation by ICCs/IPs of their
19 ancestral lands shall be employed to determine boundaries as provided for
20 under the IPRA.

21 SEC. 72. *Ground Delineation of Land Use.* – For effective planning to

22 take place at the local level and for the easy enforcement of the ZO of each
23 city/municipality, land uses must be identifiable both on the map and on the
24 ground. A joint committee comprised of the LGU, as represented by its
25 M/CLUPMB, and of the national government agency concerned, to be assisted
26 by the C/MPDC, shall identify and delineate on the ground the land uses within
27 their jurisdiction. The following shall be given priority:

- 1 (a) Forestlands:
- 2 (1) Protection; and
- 3 (2) Production;
- 4 (b) Ancestral domains;
- 5 (c) NIPAS areas:
- 6 (1) Strict protection zone; and
- 7 (2) Multiple-use zone;
- 8 (d) Watershed areas:
- 9 (1) Critical; and
- 10 (2) Multiple use;
- 11 (e) Network of NPAAAD;
- 12 (f) Socialized housing sites and settlement expansion areas;
- 13 (g) Extents of environmentally-constrained areas;
- 14 (h) Easement areas; and
- 15 (i) Critical coastal areas:
- 16 (1) Mangroves; and
- 17 (2) Sea grass.

18 Critical marine resources should also be delineated both on the map and
19 in the waters. Perimeters of critical offshore areas, such as coral reefs, shall be
20 marked in accordance with the coastal resource management plans concerned.

21 All maps shall be updated as new important information and data
22 become available or as determined by urgent need. Updating of maps shall be
23 undertaken not more often than every ten (10) years.

24 *SEC. 73. National Geo-hazard Mapping Program.* – Within thirty (30)
25 days from the effectivity of this Act, a nationwide geo-hazard mapping
26 program shall be initiated jointly through the NLUPC by the PHIVOLCS, the
27 Philippine Atmospheric Geophysical and Astronomical Services
28 Administration (PAGASA), the NAMRIA, the MGB, and the DOE, in

1 coordination with the NDRRMC, the Regional Disaster Risk Reduction
2 Management Councils, and other concerned government agencies. The
3 program shall include the generation of indicative geo-hazard zoning maps that
4 will outline areas in the Philippines which are prone to liquefaction, landslides,
5 flooding, lahar, ground rupturing, *tsunami*, river erosion, coastal erosion,
6 sinkhole collapse, earthquake, lava flow, pyroclastic flow, base surge, and
7 other natural hazards.

8 For purposes of uniformity and standardization and in order to develop
9 a safe-built environment, the LGUs shall subsequently incorporate and
10 integrate the generated geo-hazard zoning maps into their respective CLUPs
11 and ZOs. Said geo-hazard maps shall serve as guide for all the LGUs in the
12 preparation of their own hazards-constrained development plans. The NPPF
13 shall incorporate these geo-hazard maps.

14 All entities conducting infrastructure activities, including real estate and
15 subdivision projects and the development of tourist spots requiring an ECC,
16 shall submit an Engineering Geological and Geo-hazard Assessment Report
17 (EGGAR).

18 *SEC. 74. Scope and Nature of Responsibilities of Other National*
19 *Government Agencies.* – All concerned national government agencies/bodies
20 shall periodically report to the NLUPC on the various activities and
21 accomplishments on land use. Likewise, they shall provide their respective
22 sectoral/development plans and provide technical and administrative support if
23 called upon by the NLUPC for the implementation of the provisions of this
24 Act.

25 *SEC. 75. Submission of Annual Report on the Implementation of*
26 *CLUPs and ZOs.* – The local land use boards shall submit their annual report
27 on the implementation of their land use plans to their respective sanggunian
28 which shall submit the same to the RLUPCs for consolidation. The RLUPC

1 shall thereafter transmit the consolidated reports to the NLUPC for monitoring
2 and evaluation.

3 CHAPTER IX

4 TRAINING, EDUCATION AND VALUES FORMATION

5 SEC. 76. *Values Formation.* – In order to develop a well-informed,
6 responsible and committed citizenry who value the protection, conservation
7 and development of the country's limited land, and other physical resources,
8 the State shall mandate the inclusion of sustainable land use education or any
9 subject related thereto in the curricula of primary, secondary and tertiary
10 education.

11 SEC. 77. *Information/Education Campaign and Capacity Building.* –
12 The NLUPC shall undertake a nationwide information/education campaign on
13 land use and physical planning to be implemented by local and national
14 government agencies. The DILG and concerned agencies shall formulate and
15 implement a land use management capability building program for national and
16 local government officials, community leaders, representatives of NGOs, POs,
17 the religious sector, and the general public.

18 CHAPTER X

19 INCENTIVES, SANCTIONS AND PENALTIES

20 ARTICLE I

21 INCENTIVES AND AWARDS

22 SEC. 78. *Formulation of a System of Incentives and Awards.* – The
23 NLUPC shall come up with a system of incentives and awards to LGUs that
24 regularly update their CLUPs/ZOs once every eight (8) years.

25 SEC. 79. *Priority in Giving Technical Assistance to LGUs.* – In
26 providing technical assistance and other forms of support related to land use
27 management and implementation of development plans, national government

1 agencies shall give priority to cities and municipalities with approved CLUPs
2 and ZOs.

3 ARTICLE 2

4 SANCTIONS AND PENALTIES

5 SEC. 80. *Fine for Failure to Commence or Complete the Development*
6 *of Agricultural Lands with Approved Conversion Order.* – For agricultural
7 lands with approved conversion orders, the provisions of Republic Act
8 No. 6657 (CARL), as amended by Republic Act No. 9700, shall apply. A
9 landowner and/or the designated developer or duly authorized representative
10 who fail to commence and/or complete the development plan defined in the
11 conversion order shall be jointly and severally penalized. The following fines
12 based on the zonal value or the fair market value, whichever is higher of the
13 land at the time the fine shall be imposed:

14 (a) Failure to commence within three (3) years from the date of the
15 conversion order:

- 16 (1) Three percent (3%) for the first three (3) hectares;
17 (2) Ten percent (10%) for the next three (3) hectares; and
18 (3) Fifteen percent (15%) for the remaining area.

19 In such case, the order of conversion shall be revoked by operation of
20 law. The land shall revert to its original use as agricultural land and may be
21 covered by the DAR through compulsory acquisition for distribution to
22 qualified beneficiaries.

23 (b) Failure to complete sixty percent (60%) of the approved conversion
24 plan within a specified time frame shall result to the automatic revocation by
25 the DAR of the conversion plan on the undeveloped portion. The land shall be
26 reverted to its original use as agricultural land and may be covered under the
27 CARP for land distribution.

1 SEC. 81. *Persons Abetting Illegal Conversion.* – Any person
2 initiating, causing, inducing, or abetting illegal conversion with intent shall be
3 punished with imprisonment or a fine in accordance with Act No. 3815 or
4 Republic Act No. 3019, or both, at the discretion of the court.

5 If the offender is a public official or employee, whether elected or
6 appointed, the penalty shall also include dismissal from service, forfeiture of
7 all benefits and entitlements accruing to the public position, and perpetual
8 disqualification to run or apply for any elective or appointive public office.

9 If the offender is a juridical person, the penalty of imprisonment shall be
10 imposed on the president, chief executive officer, manager, chairperson and all
11 the members of the board, and other responsible officers thereof. The
12 imposable fine shall be equivalent to the zonal value of the land or forty
13 percent (40%) of the shareholders equity, whichever is higher. Furthermore,
14 the land shall be forfeited in favor of the State and sold through public auction.
15 The proceeds of the sale shall automatically accrue to the Agrarian Reform
16 Fund.

17 SEC. 82. *Penalty for Reclassification of Protected Agricultural Lands*
18 *and Exceeding the Limit of Areas Allowed for Reclassification.* – Any person
19 initiating, causing, inducing, or abetting the reclassification to nonagricultural
20 uses of protected agricultural areas as defined in Section 13 hereof shall be
21 penalized with imprisonment of twelve (12) years or a fine of not less than one
22 hundred thousand pesos (P100,000.00), or both, at the discretion of the court.

23 If the offender is a public official or employee, whether elected or
24 appointed, the penalty shall also include dismissal from service, forfeiture of
25 all benefits and entitlements accruing to the public position, and perpetual
26 disqualification to run or apply for any elective or appointive public office.

1 If the offender is a juridical person, the penalty shall be imposed on the
2 president, chief executive officer, manager, chairperson and all the members of
3 the board, and other responsible officers thereof.

4 The same penalty shall be applicable to persons who will be responsible
5 for exceeding the limits set forth under Section 20 of the Local Government
6 Code pertaining to reclassification of lands.

7 SEC. 83. *Payment of Disturbance Compensation.* – Following the
8 order of priority stated in Section 22 of Republic Act No. 6657, as amended by
9 Republic Act No. 9700, agricultural lessees and share tenants, regular farm
10 workers, seasonal farm workers, other farm workers, actual tillers or occupants
11 of public lands, collective, or cooperative of the above beneficiaries, and
12 others directly working on the land affected by agricultural land use
13 conversion, shall be entitled to the payment of disturbance compensation
14 equivalent to five (5) times the average of the gross harvests on the
15 landholding during the preceding five (5) calendar years or a certain
16 percentage of the converted land, whichever is higher, as determined by the
17 DAR.

18 SEC. 84. *Authority to Impose Fines.* – The DAR shall have the
19 authority to impose the penalty provided under the preceding sections.

20 SEC. 85. *Withdrawal of Local Development Permits and/or Licenses.* –
21 Upon receipt of notice from the DAR, the concerned agencies, city or
22 municipality shall withdraw and/or revoke any development permit and/or
23 other licenses that may be necessary to develop the agricultural land subject of
24 conversion.

25 SEC. 86. *Utilization of Fines.* – The fines collected under Section 84
26 hereof shall automatically accrue to the Agrarian Reform Fund consistent with
27 the provision of the CARL.

1 SEC. 87. *Failure to Formulate, Implement and/or Enforce the CLUPs*
2 *and ZOs.* – Consistent with due process, the NLUPC, in coordination with the
3 DILG, shall evaluate, review, and recommend the filing of charges against
4 local chief executives and other local officials and employees responsible for
5 the formulation, implementation and/or enforcement of the CLUPs in the
6 following cases:

7 (a) Failure of the CLUPs/ZOs to conform to the guidelines provided in
8 the NPPF;

9 (b) Failure to complete the preparation of the CLUP despite the
10 availability of funds, resources, and support by the sanggunian concerned;

11 (c) Failure to provide appropriate budgetary allocation to effect its
12 implementation; and

13 (d) Failure to implement and enforce the CLUP/ZO due to negligence
14 of duty.

15 Any public official or employee, whether elected, appointed or holding
16 office/employment in a casual, temporary, holdover, permanent, or regular
17 capacity, found to be responsible for any of the foregoing acts, shall be
18 punished with forfeiture of salaries and allowances, and suspension from:

19 (a) Three (3) to six (6) months, in case of noncompletion of the CLUP;
20 or

21 (b) Three (3) to six (6) months, in case of nonconformity with the
22 NPPF; or

23 (c) Six (6) to nine (9) months, in case of nonimplementation of the
24 CLUP.

25 Failure to comply with the provisions of the IPRA on the formulation of
26 the CLUP shall be penalized according to Section 72 of the IPRA.

1 SEC. 88. *Illegal Conversion of City or Municipal Parks, Communal*
2 *Forests, and Tree Parks in Subdivisions.* – Penalties in the amount of one
3 hundred thousand pesos (P100,000.00) to five hundred thousand pesos
4 (P500,000.00) or imprisonment of six (6) years and one (1) day to twelve (12)
5 years, or both, at the discretion of the court shall be imposed for each of the
6 following offenses:

7 (a) Illegally converting or causing the conversion of a city/municipal
8 park, communal forests, or tree parks within subdivisions established pursuant
9 to Presidential Decree No. 953 requiring the planting of trees in certain places
10 into other uses, including the construction of permanent buildings;

11 (b) Destroying or causing damage to the timberlands and other forest
12 products found in the abovementioned forest and parks;

13 (c) Setting the abovementioned forests and parks on fire, or
14 negligently permitting a fire to be set therein; and

15 (d) Assisting, aiding or abetting another person to commit the offenses
16 stated in this section.

17 The offender shall likewise be imposed a fine equivalent to eight (8)
18 times the commercial value of the forest products destroyed without prejudice
19 to payment of the full cost of rehabilitation of the areas, as determined by the
20 DENR.

21 The maximum penalty prescribed shall be imposed upon the offender
22 who repeats the same offense, and double the maximum penalty upon the
23 offender who commits the same offense for the third time or more.

24 All improvements made therein, as well as all vehicles, domestic
25 animals, and equipment of any kind used in the commission of the offense shall
26 be forfeited in favor of the government.

27 If not suitable for use by the DENR, said improvements, vehicles,
28 domestic animals and equipment shall be sold at public auction and the

1 proceeds from which shall accrue to the Forest Conservation and Development
2 Fund (FCDF).

3 CHAPTER XI

4 TRANSITORY AND FINAL PROVISIONS

5 SEC. 89. *Mandatory Review Every Ten (10) Years.* – The Congress
6 shall undertake a mandatory review of this Act at least once every ten (10)
7 years from its effectivity or as often as it may be deemed necessary to ensure
8 that land use policies and guidelines remain responsive to changing
9 circumstances.

10 For this purpose, the Congress may call on to the NLUPC to undertake
11 the necessary researches and consultations.

12 SEC. 90. *Convening of the NLUPC.* – Within thirty (30) days from the
13 effectivity of this Act, the Chairperson shall convene the NLUPC. The Head of
14 the NLUPC Secretariat shall immediately assume his/her position.

15 SEC. 91. *Implementing Rules and Regulations.* – Within ninety (90)
16 days from the effectivity of this Act, the NLUPC shall promulgate its
17 implementing rules and regulations (IRR) including the rules on the selection
18 of the members of the C/MLUPMB and the PLUPMB. It shall take effect
19 fifteen (15) days after its complete publication in the *Official Gazette* or in at
20 least two (2) newspapers of national circulation.

21 SEC. 92. *Congressional Oversight Committee on the Land Use Act.* –
22 A Congressional Oversight Committee on the Land Use Act shall be created. It
23 shall be composed of seven (7) members from the Senate and seven (7)
24 members from the House of Representatives. The members from the Senate
25 shall be appointed by the Senate President based on proportional
26 representation of the parties or coalitions therein, with at least two (2) Senators

1 representing the minority. The members from the House of Representatives
2 shall be appointed by the Speaker of the House of Representatives, also based
3 on proportional representation of the parties or coalitions therein, with at least
4 two (2) members representing the minority.

5 The Oversight Committee shall function for a period of not more than
6 three (3) years to oversee the implementation of this Act. The secretariat of the
7 Oversight Committee shall be drawn from the existing secretariat personnel of
8 the committees comprising the oversight.

9 SEC. 93. *Transfer of Powers and Functions.* – The functions of the
10 HLURB on land use planning as provided for under Sections 5(a), 5(b), 5(c),
11 5(d), 5(e), and 5(f) of Executive Order No. 648, series of 1991 and Executive
12 Order No. 72, series of 1993, shall be immediately transferred to the NLUPC
13 and its appropriate subnational LGU structures, except as provided in Section
14 55 hereof. Nothing in this Act shall be construed to transfer or limit the
15 functions embraced within the said provisions that pertain to or relate to
16 HLURB nonplanning functions.

17 SEC. 94. *Appropriations.* – The amount needed for the initial
18 implementation of this Act shall be charged against the current year's
19 appropriations of the NB-NLUC. Thereafter, such sums as may be necessary
20 for the continued implementation of this Act shall be included in the annual
21 General Appropriations Act.

22 SEC. 95. *Review of Existing Land Use Plans.* – Provinces, cities, and
23 municipalities with existing land use plans shall review, revise, reconcile, and
24 harmonize the same with the guidelines and standards issued by the NLUPC
25 within one (1) year from the effectivity of this Act.

1 SEC. 96. *Access to Information.* – Access to records and documents
2 pertaining to official acts, transactions, or decisions as well as to data used as
3 basis for policy development by the NLUPC shall be made available to the
4 public.

5 SEC. 97. *Repealing Clause.* – Section 10 of the AFMA and Sections
6 447 (a2vii) and 458 (a2viii) of the Local Government Code and their related
7 laws and administrative issuances are hereby modified by Section 13 hereof.
8 The pertinent provisions of Executive Order No. 648, Executive Order No. 72,
9 series of 1993 and Executive Order No. 770, series of 2008, amending Letter
10 of Instruction (LOI) No. 1350, are also modified accordingly. Section 11 of the
11 AFMA as to the penalty for agricultural inactivity and premature conversion
12 is also modified by Section 83 hereof. LOI No. 1350, series of 1983;
13 Presidential Proclamation No. 2282, series of 1983; and all other general and
14 special laws, acts, decrees, executive orders, proclamations and administrative
15 regulations or any part thereof which are inconsistent with this Act are hereby
16 repealed or modified accordingly.

17 All republic acts, executive orders, rules and regulations, and other
18 issuances or parts thereof that are inconsistent with the provisions of this Act
19 are hereby repealed or amended accordingly.

20 SEC. 98. *Non-impairment Clause.* – Nothing in this Act shall be
21 construed as to diminish or, impair rights recognized, granted, or available to
22 marginalized or the basic sectors under existing laws including, but not limited
23 to, Republic Acts Numbered 7279; 6657, as amended by Republic Act No.
24 9700; 8371; 8550; and 7942.

1 SEC. 99. *Separability Clause.* – If, for any reason, any section or
2 provision of this Act is declared unconstitutional or invalid, the other sections
3 or provisions not affected thereby shall remain in full force and effect.

4 SEC. 100. *Effectivity.* – This Act shall take effect fifteen (15) days
5 after its publication in the *Official Gazette* or in at least two (2) national
6 newspapers of general circulation.

Approved,

O
