**AN ACT  
CREATING THE NATIONAL INSTITUTE FOR SCIENCE AND MATHEMATICS  
EDUCATION DEVELOPMENT, APPROPRIATING FUNDS THEREFOR AND FOR  
OTHER PURPOSES**

**EXPLANATORY NOTE**

This Act aims to enable the Institute for Science and Mathematics Education Development (ISMED) to have a research, development and training trust fund. The annual earnings of the trust shall be used for research, curriculum development and teacher training, with the ultimate goal of enhancing science and mathematics education.

Today, the ISMED currently depends on the financial support of various funding agencies. The MOOE it receives from the University of the Philippines (UP) is not adequate to properly maintain and sustain its Japanese-donated facilities and equipment.

Based on the Third International Mathematics and Science Study for 13-year-old students from 41 countries, the Philippines was ranked second (2<sup>nd</sup>) to the lowest in Science and Mathematics around the world. There is a dire need to advance the caliber of Science and Mathematics Education in the Philippines, this bill aims to make a significant contribution to that advancement.

In this regard, the passage of this bill is earnestly sought.
