ESTABLISHING THE PHILIPPINE NATIONAL PUBLIC PARKS SYSTEM, AND  
APPROPRIATING FUNDS, THEREFOR**

**EXPLANATORY NOTE**

Article II, Section 16 of the 1987 Constitution underscores that, "The State shall protect and advance the right of the people to a balanced and healthful ecology in accord with the rhythm and harmony of nature."

Public parks and open spaces are parts and parcels of community life and tourism. The establishment of urban parks and open spaces plays a crucial role in protecting the environment, promoting well-being and providing avenues for recreation. Parks provide arenas and opportunities for physical activity, and increased social interactions. Most developed countries invest in public parks as part of their tourism plan. Consistent with the United Nations Sustainable Development Goals of creating Sustainable Cities and Communities, parks are an essential component of its blueprint.

This bill aims to establish a cohesive body to develop parks in open spaces for public use. In pursuit of the desire to develop green spaces and tourist destinations, the passage of this bill is earnestly sought.
